Ingham dairymen at their banquet in radio and TV, 25 points; and dairy farm Leslie's Grange hall Tuesday will choose a county princess. The choice will be by the democratic process of balloting. The list of nominees has been slimmed down to 5,

In the royal quintet are Carol Avery, 17, Okemos senior: Diane Felton, 16, Dansville junior; Norma Jean Hudson, 17, Stockbridge senior; Janice Kay Miller, 16, Williamston junior; and Helen Watkins, 17, Mason senior.

The finalists in the princess contest have been chosen because of their farm backgrounds and their activity in 4-H and FHA programs. They are all active in school and extra-curricular events in their communities.

Ingham's princess will compete with princesses from other counties in the state contest at Kellogg Center May 7 and 8.

Basis for selection of county princesses and the state princess is on appearance, 30 points; personality, poise and tact, 20 points; county dairy banquet in Leslie Tuesday.

background, 25 points,

Candidates for the princess crown in county and state must be from 17 to 20 years of age by June 1, 1957. Girls who are married or plan marriage within 6 months after crowning as state princess are not eligible but will be replaced with an alternate,

The state princess of dairying will travel to all sections of the state during the year following her coronation, appearing before clubs and other groups and in parades. All of her expenses and those of a chaperone will be paid by the Michigan June Dairy Month

In Ingham county the princess contest has the backing of 4-H clubs, Future Homemakers, Junior Farm Bureau and Juvenile Grangers. Each of the 5 candidates for Ingham laurels will give a 3-minute talk at the ability to speak before an audience and on Balloting will then be done.

Mason lost a community leader Tuesday in the death of Burt L. Green, 79, of Alaiedon. Up until year ago he was active in church and business circles. For many years he was a farm leader, serving as director of the Mason Milk Producers association.

He was an elder in Mason Presbyterian church. He had former ly served as Sunday school superintendent and taught a class of boys. He was a life member of Mason lodge No. 70, F. & A. M. and of Knights of Pythias. He had been a druggist, a farmer and a heating engineer. For the past 25 years he had devoted himself primarily to the heating field. He was a recognized authority in it.

For 91/2 months Mr. Green underwent one operation and course of treatment after another. In April he underwent surgery in Ingham Chest hospital. A few weeks later he entered Sparrow hospital for an operation and then he underwent treatment at St. Lawrence. He entered Robart before they returned to Mason to gan Milk Producers, Brengle innursing home at Mason October operate the Melton farm north sisted. He warned against a move 17. He died there.

of the Week Keeping packed lunches interesting to the youngsters is sometimes dif-ficult. Mrs. Peter Andersen makes "Krispy Delights" for her daughter, Jennell Cappo, to take in her lunch. "They're real good, Mama," said one of Jennell's third grade classmates who had traded her a cupcake for a piece of "Krispy Delight." So, if you want to spark up those packed lunches, try Elsie's recipe.

KRISPY DELIGHT

Recipe

Melt butter over medium heat and stir in marshmallows. When the mixture becomes creamy, stir in 5-6 ture becomes creamy, stir in 5-6 cups of Rice Krispies, (Chopped nuts may be added). Mix well and spread or pat into a shellow pan or cookie sheet. Cut in desired portions while still hot. For variation top each piece with a chocolate chip. Another suggestion Mrs. Andersen gave was to place pieces in layers with whipped cream between layers, cover with whipped creem, top with a maraschine cherry and it's festive enough for your bridge club.

Chevrolet shows you some important differences in low-priced cars just by

the look on its face!

Wouldn't you say that most of the '57 cars look good from 50 feet away, but what about from 50 inches away?

What does a close-up of the grille tell you, for example? Is it solidly made like the new Chevrolet grille? Or, in comparison does it look less rich in design-feel less strong and solid? Compare the quality and construction of the bumpers and headlights, the fit of the chrome trim.

The more closely you look all around the car, the more clearly you'll see that Chevrolet has the edge in the way it's put together. You'll find, for instance, that Chevrolet is the only car in its field with a *lacquer* finish . . . that only Chevrolet Bel Air models give you foam rubber cushions in front and rear seats as standard equipment. These are just a few of the advantages of Body by Fisher. And Chevrolet, you know, is the only low-priced car that has a Fisher

We'll be glad to give you a close-up, comparative look at this new Chevy any time you care to come in. This week, maybe?

Pride of the Neighborhood!

It is a happy occasion indeed when a new Cadillac first appears in the driveway of its happy owner. As you would expect, it signals the most joyful of family celebrations-and occasions the heartfelt congratulations of friends and acquaintances.

But you might be surprised, we think, to learn of the widespread rejoicing which the arrival of a new Cadillac frequently inspires.

In fact, the car invariably becomes a source of genuine pride and satisfaction throughout the entire neighborhood in which it resides.

The neighborhood understandably delights in having a beautiful new Cadillac to grace its streets . . . and takes great pleasure in knowing that one of its own has been able to realize the dream that lives in the hearts of so many.

And we think you might also be surprised to learn that this happy event is currently taking place in a great many neighborhoods that have never before laid claim to a Cadillac car. For there is an ever-growing awareness that

Cadillac-with all its incomparable motoring virtues-is one of the soundest and wisest purchases a motorist can make.

From a standpoint of purchase price, maintenance, operation and resale value, the car represents a truly extraordinary investment.

Surely, in view of this, you should consider a Cadillac this year. We will be happy to put you behind the wheel

at any time for a personal demonstration. In fact, why not come in and see us today?

It has been figured out by people with sharp pencils that 6,486 railroad cars would be needed to transport last year's staggering Michigan navy bean crop. The heavy yield was not due to larger acreage. The acreage devoted to beans was smaller but the yield averaged 1,080 lb per_acre. This was an all-time high, and was approached only in 1951 when the average yield oer acre was 1.064 lb. Under state law Michigan navy peans must be so identified on find in retail outlets. They are usually packed in 1, 2 or 5-pound containers. Not all white beans are Michigan navy beans, Michigan navies, or pea beans as they are called in the east, are the smallest white beans grown.

A fine party! What's the occasion...fund raising, PTA, a school reunion?

In any event, the hard-working committee that made the party a success deserves a round of applause. And don't forget, the telephone helped, too.

It was the telephone that helped settle hundreds of details—"Alice, will you take charge of the decorations?... Mary, will you arrange for the food?...Jane, will you get the extra tables and chairs?"

Let your telephone run your day-to-day errands, plan good times, keep you in touch with friends and loved ones. There's just no end to its usefulness. Your telephone is always at hand to work for you-quickly, tirelessly, every day of the year.

Revenues of the city are at an all-time high, yet not high enough to avert new taxes unless some shifts of spending emphasis are made.

Mason is now free of bonded debt. So the problems while serious are much easier of solution than in most cities. The council needs no supermen. All that is needed are men or women who can see what must be done and will try to do it, spending the public money as they would their own.

Six men, or 6 men and women, are needed for candidates. The time for filing nominating petitions is January

Country & Town

Howard L. Smith, already a contender for Ingham maple syrup honors, now rotates in another sphere. Walk in his living room. There you'll see a big white leather chair pulled up just right for watching Mickey Mouse club. If Howard is there, he'll ask you to sit down, stretch out and relax.

Almost automatically, the big chair transforms into a contour-shaped work bench. A control panel opens at the side and "Doc" Smith twists a few knobs. Vibrations, varying from the general massage of delicate fingertips to hammer blows, are felt at all points of contact. Howard's magical chair can put the electric massage right under your left ear, he can run right down your spinal column or hit you with a vibrating tap on elbows and knees. And the best thing about Howard's work is that it's free.

New businesses in Mason are usually heralded with pictures, open houses and fan-fare, but there's one that has slipped in almost unnoticed. Yet, already, it's contributing to the community with its stock of office supplies. That new business is a wing of the Ingham County News. It's just inside the front door on the right. On hand is almost anything you will want for office and home record-keeping.

I had a tour of the new St. James school and convent building Saturday. There's a lot to be done yet, in fact about \$35,000 worth. What used to be the Nazarene church Sunday school wing now is an apartment of 3 bedrooms, kitchen, bath, living room, dining room, entrance hall and office to be used by 4 nuns. Expert Says Russian Farm **Output Lags**

Russia will have a tough, row to hoe in her efforts to keep farm production abreast of population increases, a University of Chicago geographer predicted recently at the University of Michigan,

Chauncy D. Harris, professor of geography and dean of the University of Chicago's division of social sciences, foresaw low yields per acre compared to the United States, "poor possibility" for higher yields per acre, wide fluctuation of yields from year to year, and restriction on the variety of crops in the Soviet Union.

"Agriculture is one of the weak spots in the Soviet economy," said Dean Harris, noting a decrease in the quality of the average Soviet diet over the past 25

Collectivization and low prices are partly to blame, he said, but short growing seasons and lack of moisture are the chief obstacles to increased production.

Consequently, Dean Harris explained. Russia needs large inputs of management, manpower, fertilizers, and technology to achieve even modest gains.

He pointed out that most of Russia's farming is done in the fertile triangle—with Leningrad, Qdessa, and Lake Baikal at the apexes-an area roughly comparable in climate to the Dakotas and Canada's prairie provinces. The Kremlin has put tremen-

He is Dr. A. P. Merrill, superintendent of St. Barnabas hospital in New York City and assistant clinical professor of physical medicine and rehabilitation in New York University's college of medicine.

St. Barnabas is the nation's care of the chronically sick, and Dr. Merrill is nationally recognized as a consultant in hospital construction, McCarn said. Michigan Veterans' Facility proposed chronic geriatric hospital would provide services primarily to patients with non-acute sickness for whom a prolonged period of hospitalization is anticipated, and whose principal care requirements are diagnosis, medication, nursing care, occupational therapy, recreation and rehabilitation, including some education and prevocational work.

McCarn said there is not a chronic hospital bed available today in Michigan under the veterans administration program, and chronic and geriatric institutions have become almost nonexistent in the nation.

A study of the project has been completed by Smith, Hinchman & Grylls, Inc., of Detroit, architects and engineers, but no one has been hired to draw up plans because of a lack of funds, McCarn said.

Explaining the need for the new units, McCarn said Michigan Veterans' Facility is an institution for domiciliary care of persons who can walk and are virtually permanent patients, supplemented by a 250-bed general medical-surgical facility. This hospital has been forced to accept and care for more and more chronically ill veterans in the last decade.
