THE NEW FORD V-8 FOR 1936

Why do we say The New Ford V-8 for 1936?
What is new about it?
Of course, the newest engine in the low-price car field is still the V-8 engine. Since Ford made it available to all car users (keeping it as economical as cars with fewer cylinders) the Ford V-8 has been the newest engine on the market, and remains the newest for 1936.
You may buy a car on minor "talking points"—some specially advertised feature "with the car thrown in"—but, after all, it is the engine you buy when you buy a car. Hence we put the engine first.
Other new points about the car make a long list.
Its lines are much more beautiful. The hood is longer and sweeps forward over the distinctive new radiator grille, giving the car a length and grace that are instantly impressive. The fenders are larger, with a wide flare. Horns are concealed behind circular grilles beneath the headlamps. New steel wheels.
Ford upholstery—always of sterling quality and excellent taste—is rich and enduring. The appointments of the car have a new touch of refinement. There is no question about the increased beauty of the Ford V-8 for 1936.
In more practical matters, many improvements have been made—Steering is made easier by a new steering gear ratio. The cooling system circulates 5 1/2 gallons of water through a new, larger radiator. Natural thermosiphon action is assisted by two centrifugal water pumps. New style hood louvers permit a rapid air-flow around the engine.
Easier, quieter shifting of Ford gears—The gear shift lever now travels a shorter distance.
The two qualities you want in brakes—Brakes that stop the car with ease and certainty. Ford Super-Safety Brakes of the long-tested, fool-proof, mechanical design.
Safety—as always—in the electrically welded genuine steel body. Safety Glass all around at no extra cost. Hundreds have written grateful letters because this glass has protected the safety of their families.
A car you can drive without strain all day, if you like, in city or country. Steady, holds the road, responds to the driver's touch like a well-trained horse. You don't have to "push" or "fight" the Ford V-8—driver and car easily get on terms of good understanding with each other.
An engine has much to do with the roominess of a car. Very much indeed. A long engine uses up car space. The compact V-8 engine permits much of the ordinary engine space to be used by passengers.
It really is a great car in every way, this 1936 Ford V-8—the finest, safest, most dependable Ford car ever built. Now on display by Ford dealers.

Federal Regulations Govern Duck Hunting

HUNTERS MUST REBUILD GUNS TO SHOOT WATERFOWL.

Here are some things for sportsmen to remember during the 30-day duck hunting season established by the United States bureau of biological survey which opened in Michigan Monday, October 21.

A federal duck stamp is required to shoot ducks, geese and brant. It is illegal to use live decoys. It is unlawful to shoot waterfowl over baited areas.

It is illegal to use shotguns larger than 10 gauges. It is illegal to use repeating shotgun or automatic shotgun capable of holding more than three shells, two in the magazine and one in the chamber. It is illegal to take waterfowl from blinds, boats or floating craft of any kind more than 100 feet from shore or emergent vegetation.

According to the department of conservation, hunting cannot legally begin before 8 o'clock in the morning and must stop at 5 o'clock in the afternoon, Eastern standard time, with the following exceptions.

It is unlawful to shoot ducks on Wildfowl and Sboevwing bays after 4 p. m. Eastern standard time. It is unlawful to shoot waterfowl on Houghton Lake, Roscommon county, after 2 o'clock p. m., Eastern standard time.

It is unlawful to shoot gamebirds on Muskegon Lake, Muskegon county, after 2 p. m., Eastern standard time. No More Homesteading On State Wild Lands

LAND NOT SUITABLE FOR AGRICULTURAL PURPOSES.

The once popular method of acquiring land by homesteading is now definitely passe in Michigan. A legislative act, which recently went into effect, has withdrawn all tax-reverted lands from homestead entry. In effect, this ends all chances of individuals acquiring homesteads in this state.

Approximately 50,000 acres of land are now held under homestead by individuals in Michigan. During the years the homestead law has been in effect approximately only 20 per cent of the homesteads were "proved up." This is partly due to the fact that only a small amount of the land involved possesses real agricultural value.

Regulations governing homesteading required that the individual live on the land continuously for five years, during which time he was exempt from taxes. Another requirement was that he had to improve the land during the probationary period.

Individuals and organizations desiring tax-reverted lands by purchase at nominal sums from the state. Public land sales are held periodically in various sections of northern Michigan by the department of conservation, the lands offered after definite application and are held for definite descriptions. Disposal of all state lands is subject to approval by the conservation commission.

Ninth Grade
Students in the ninth grade who are on the honor roll are Maxine Barbyte, Charlotte Burgess, Robert Colby, June Curtis, Floyd Darling, Rose Darling, James Davis, Darrell Denmore, Ruth Evert, Betty Felton, Lucile Guernsey, Eugene Hadwin, Charlotte Hammett, Raymond Heinzelman, Rachel Juderjohn, Vance McIntyre, Leola Mason, Doris Michitsch, Irma Oesterle, Barbara Peaty, Paulene Riggs, Fred Spilby, Virginia Snow, Margaret Spurling, Esther Swift, Jean Swift, Margaret Willard and Alleen Zickgraf.

Tenth Grade
Tenth grade honor students are Keith Wright, Ruth Wells, Marschena Weeks, Patricia Taylor, Virginia Rusch, Gordon McIntyre, Harriet Lay, Jane Hewitt, Tom Greene, Bonnie Felton, Maxine Fay, Joyce Every, Nadine Beckwith, Myra Bekwin and Howard Ashfal.

MICHIGAN'S TOWNSHIP ROADS EXTINCT IN 1936

COUNTY ROAD SYSTEMS EX PANNED FIVE TIMES SHOWN.

Inggham County Ahead Of The Parade, No Township Highway Taxes Spread Since 1932.

Six more months and the township road system will be a relic of a bygone era in Michigan.

Funeral services for the township road, one of the oldest Michigan institutions, will take place April 1, 1936. At that time county road commissions throughout the state will take over the last parcel of township road mileage remaining in the respective counties.

There will be little mourning, however, when this once-robust road system is no more. To accomplish transition counties have been receiving an increased allocation from state highway revenues yearly. This year the amount is \$3,500,000 and next year and annually thereafter it will be increased to \$4,000,000.

The allocation which started at \$2,000,000 in 1932 and has increased \$500,000 every year was allocated by the legislature on the basis of township road mileage in 1931. Most of the counties say that their allocation is sufficient to take care of the additional road burden although a few claim their funds are inadequate. Certain counties of the north where motor car registration is light, snowfall heavy and the existence of consolidated schools make pupil transportation necessary are complaining.

When the township road system is completely abolished there will be 77,610 miles of county roads in the state, according to figures furnished by the state highway department. This represents an increase of 60,317 miles over the mileage in 1931 when the county road commissions had jurisdiction over only 17,301 miles of highway.

The depression brought a death certificate for the township road system. Property values slumped and the township road became a tax burden which the people could not stand. The 1931 legislature wrote the death certificate when it enacted the McNitt law directing the counties to absorb the township roads by 1936 by taking over 20 per cent of this mileage each year.

Inggham county is ahead of the parade of Michigan counties toward road tax relief. Since 1932 no tax has been spread either for township or county road improvement and maintenance. Because the county had no bonded indebtedness for roads or bridges, it was possible to take over the entire township mileage and out of the proceeds of the motor vehicle tax collected by the state and returned to the county, carry on its county road program and include all township roads with the same management and expense.

Clark Gable in "China Seas" is promised for next week Friday and Saturday. Other special attractions coming soon include the Louis-Baer light pictures, Mae West in "Goin' To Town," and Joe E. Brown in "Alibi Like."

Emergency Call, Old Style

MANY living citizens of Michigan can well remember the anxious delay that once had to be endured before help could be reached in time of sudden sickness. They can remember the hurried dressing, the panic, and the rush out to fair weather or foul in search of a doctor. They can recall, too, the long minutes of tortured uncertainty that meanwhile passed in the sickroom. And the memories of a few most include tragic memories of lives that slipped away before the doctor could reach the patient's bedside.

Among the greatest boons that the telephone has brought to the modern Michigan home is the protection it gives when sudden illness strikes. Delay is now cut to a minimum. The mere lifting of a receiver instantly puts the sickroom in touch with the doctor. Advice on first-aid measures can follow immediately. And then—in less time than was once required for dressing and lighting a lantern—the worried household has the comforting

knowledge that the doctor is already speeding on his way.

The routine uses we make of the telephone have come to be accepted as a matter of course. With it the housewife shops from her own home; it keeps us all in touch with family and friends; it runs many errands daily; it makes possible a last-minute change in plans.

These uses we take for granted. It requires an emergency to emphasize the telephone's importance when there is urgent need of a doctor, the fire department or police protection.

The fact that we accept the routine use of the telephone as a matter of course is a significant gauge of its value and dependability. Experience has taught us to rely upon it. And that is the kind of service which the Michigan Bell Telephone Company is constantly striving to supply to the people of this State—a service that shall be dependable, prompt, courteous and available at any hour of the day or night.

Site of New York's Proposed World's Fair

This air view shows the site for the proposed world's fair to be held in New York city starting on April 30, 1939. It is a tract of 1,003 acres, some two miles in length and about a third that distance in its greatest width. The location is now known as the proposed Flushing Meadow park and is situated in the borough of Queens. Inset is a portrait of George McAneny, chairman of the committee that is drawing up the preliminary plans. The fair is to commemorate the one hundred and fiftieth anniversary of the establishment of the government of the United States and the inauguration of George Washington as President.

People of Addis Ababa Flee From the City

Carrying many of their possessions balanced on their heads, these natives were evacuating Addis Ababa in preparation for the coming invasion of Italian troops. It was part of Ethiopia's war plan to deconcentrate the dwellers in many of the capital's crowded neighborhoods, to reduce the effect of a possible air raid.

different projects will be taken up at various meetings this year, such as knitting, crocheting, embroidery, etc. and also to be able to judge these articles.

Aggies Defeat Williamston
The Aggies defeated the Williamston football eleven last Thursday afternoon by the score of 7 to 0. This was a slowly fought battle. The Aggies had trouble getting started, fumbling the ball three times in succession. The game was made in the latter part of the first quarter by Berger, who ran about 60 yards. After this no scoring was done although the Aggies threatened several times but lacked the punch to put it over. Williamston made only one first down which was on a pass. Junior Vogt played a little in this game which was his first since the injury he sustained in the season when he injured his ankle. The game this week was to have been with Leslie, but that team forfeited the game with the Aggies on account of ineligibility of their players. There will be no more local games. Next week the Aggies journey to Holt, a team leading the league. Holt has not suffered a defeat this year. The Aggies will have all their players available for this battle and should put up a good fight against the leaders.

Soft Ball
The girls 4-H club held their regular meeting Tuesday morning. The time was devoted to hemming towels by hand. Plans were also made for a social evening to be held some time this week. This event will be in the nature of a Halloween party.
