

Ingham Wants Hunting Ban For Sundays

County Board Will Ask Legislature to Close Ingham to Sunday Hunting

Ingham supervisors voted 20 to 15 Monday to ask the legislature to close Ingham to Sunday hunting.

The move brought on an hour of debate and three separate votes before the final decision was reached. The request will now be forwarded to Representative Lawrence Lindemeyer of the second district, Robert M. Montgomery and Harold D. Hungerford of the first district and Senator Harry F. Hittle.

Farmers from the section of the county under Detroit hunting pressure fought for adoption of the Sunday ban. They said that people are tired of staying home every Sunday of the hunting season to protect their property.

Closest Open County
There is now no county between Ingham and Detroit which permits Sunday hunting, the rural supervisors said, and every Sunday during the bird season Ingham is invaded.

Supervisor Charles Woods of Ingham introduced the resolution calling for the Sunday ban. Supervisors Ward Vevay of Bunker Hill, William Wright of Stockbridge, Phillip Millis of Leroy and Fred Marshall of White Oak joined Woods.

The Ingham supervisors said as many as 40 parked cars of Detroit hunters were counted in one field along Dexter Trail on a Sunday last fall.

Supervisor Vevay estimated that the per cent of the Sunday hunters come from Detroit. Supervisor Lloyd Aseltine of Alameda said that the influx of Detroit hunters is an imposition on Ingham farmers. He also declared that the nation may now be suffering from a judgment resulting from violation of the Biblical admonition to observe the sabbath. He pointed out that city dwellers would not tolerate trampling of their lawns by farmers.

Supervisor Dean Taylor of Mason and Marshall told how hunters leave gates open and disregard signs posted land. Supervisor Burton Johnson of Wheatfield said that Ingham is now an invasion of city hunters where the invasion of city hunters on Sunday is tolerated.

Opposition to the request for a ban was led by Supervisor Arthur Stoppel of East Lansing. He voiced his opposition to laws of any kind. Supervisor John Russell of Lansing declared that hunters who buy their licenses should have the opportunity to hunt. He called the proposal a discrimination to city hunters. Supervisor Earl Leeman of Williamston township told of the establishment of the Williamston plan. He said the people of his township favor Sunday hunting under the plan.

Supervisor Leo Helms of Lansing called the proposed ban dictatorial. He said it unduly penalized good sportsmen for the infractions of a few bad ones. He moved that the resolution be tabled for a month. His motion was defeated 22-13.

In reply to the statement that the Sunday ban would prevent licenses from hunting, Supervisor Marshall pointed out that a 40-hour week leaves plenty of time for hunters to hunt without forcing farmers to submit to Sunday invasions.

Farm Owners Included

An amendment to make the ban operative against owners and tenants as well as visitors was adopted 20-15. Voting for the amendment were Supervisors Aseltine, K. G. Brown, Bullen, Carlson, Clarke, Crakes, Dell, Fay, Johnson, Lucas, Marshall, Millis, Patriarche, Puffenberger, Silsby, Taylor, Twichell, Vevay, Woods and Wright. (20). Opposed to the amendment including farmers were Supervisors Samuel Brown, Card, Wahl, Eddy, Hayden, Helms, Jewett, Kircher, Leatherman, Leeman, Munyon, Reed, Russell, Stoppel and Chairman Wilcox. (15).

For adoption of the resolution asking the legislature to ban Sunday hunting in Ingham to all were Supervisors Aseltine, K. G. Brown, Bullen, Carlson, Clarke, Crakes, Dell, Fay, Johnson, Lucas, Marshall, Millis, Patriarche, Puffenberger, Silsby, Taylor, Twichell, Vevay, Woods and Wright. (20).

Against the motion were Supervisors Samuel Brown, Carl, Wahl, Eddy, Hayden, Helms, Jewett, Kircher, Leatherman, Leeman, Munyon, Reed, Russell, Stoppel and Chairman Wilcox. (15).

Thar's Fun in Them Thar Vevay Hills

There's no gold or uranium in hills around Mason. There's something far more valuable, though. It's the fun of racing down slopes on toboggans and sleds and the health which comes from walking back up again.

Leslie Boy Scouts had a great time on Camp Kiwanis hill four miles east of Mason Sunday afternoon. They camped in the Scout cabins over the week end.

On the toboggan when the picture was taken were Don Dutton, Bill Jewett, Jim Hemstreet, Edwin Tucker, Kenny Taylor and Jerry Leach. On their sleds streaming down behind the toboggan were Tom McDaniels, Clayton Jewell, Allen Chappell and Dale Worden.

Clearing House Garment Storage May Be Moved

Supervisors from all sections of the county acknowledged the worth of the Mason Community Clearing House Monday. Some of them suggested, however, that the choice of a court house corridor for storage cabinets is unwise. Decision on moving the cabinets is being delayed for a month to give the county an opportunity to consult the state fire marshal.

The Community Clearing House collects used clothing and distributes it to people in Mason and the townships of Alameda, Vevay and Ingham. The program was launched primarily for packing Christmas baskets. However, as explained by President Frank Dakin, the need developed for clothing beyond the Christmas season. He has been issuing garments on order of the county welfare department. Issuance has been limited to residents of Mason and the three townships.

Dakin requested additional storage cabinets for the clothing. The request was tabled at the January session and was renewed by Supervisor Wilfred Jewett of Vevay Monday. Supervisor Hugh W. Silsby of Mason spoke in favor of the proposal. He scoffed at the fire hazard claim. Supervisor Walter Munyon of Lansing also asked that the request be granted.

Distribution of the clothing reduces welfare expense, Supervisor Charles Woods of Ingham said. He and he showed praise upon Dakin. He moved to table the request for a month, however, in the interests of harmony among supervisors.

Supervisor John Russell of Lansing declared the garment storage creates a fire hazard. There is also a health hazard, too, he insisted, because the used garments are not sterilized.

Supervisor Ward Vevay of Bunker Hill said that the display of garments in the corridor creates welfare trouble when the distribution is limited to Mason and three townships. Supervisors Earl Crakes of East Lansing, John B. Fay of Delhi and Earl Leeman of Williamston declared that similar enterprises are operated in their communities and the county is not asked to provide accommodations.

Democrats chose their candidates for the spring election in convention at Grand Rapids Saturday.

Republicans will meet in Detroit February 17 to name their slate.

Democratic nominees are Murray D. VanWagoner of Pontiac and Wheaton L. Strom of Escanaba for regents of the University of Michigan; Mrs. Raymond Starr of Grand Rapids and Hiram A. Sackett of McBride, for members of the state board of agriculture; Edgar W. Waugh, Ypsilanti, for superintendent of public instruction; Louis J. McGuinness of Detroit for state board of education; and Theodore P. Ryan of Grand Rapids and Lansing and James H. Lee of Detroit for justices of the supreme court.

O. K. Grettenberger of Okemos was elected treasurer of the Democratic State Central committee.

WIHING STARTS FIRE
Wires rubbing against copper tubing in the attic set fire to gas at the home of Mrs. Florence Stolz, 408 West Columbia, Wednesday afternoon. There was little damage. Consumers Power plugged the leak. The fire spread would not sound the alarm. The turnkey at the jail summoned firemen by telephone. The city has a new siren on order.

Honeymoon Death Yields Judgment For \$22,500

John C. Goodale's honeymoon lasted 10 days. He was crushed to death while he and his bride were returning to their home in Wisconsin. To compensate for that death Plummer Machinery Co. of Lansing, the company which carried the automobile liability insurance, will pay \$22,500 to the bridegroom's estate.

Mr. and Mrs. Goodale were driving between Battle Creek and Kalamazoo September 13, 1948, when a silo filler on the Plummer truck came loose and fell onto the Goodale car. Goodale was killed.

George W. Loomis, administrator of Goodale's estate, brought suit against the Plummer Machinery company in circuit court in Ingham for \$75,000. Mrs. Goodale brought suit in federal court.

The circuit court case was scheduled for trial at Mason Tuesday. An out-of-court settlement at \$22,500 was reached before trial commenced, and a consent judgment was entered.

Attorneys indicated that the federal suit may also be settled out of court.

Last Thursday a jury returned a verdict giving Corinne Ashford Payne of Lansing a judgment of \$2,000 against Mabel Mae Myers of Akron, Ohio. Mrs. Payne was a passenger in a car driven by LeRoy Hutchinson July 11, 1948, when there was a collision between their car and one driven by Mrs. Myers. The accident happened on US-127 at Miller Road.

On Tuesday a jury gave Henry Von Essen of Lansing more than he asked for in his suit against Gene Voss of Lansing. The suit resulted from a remodeling job done by Von Essen for Voss at 702 West Barnes in Lansing.

In his bill of complaint Von Essen asked for \$1,365. Offsets claimed by Voss and other items slumped the claim down to \$810 as it went to the jury. The jury returned a verdict awarding Von Essen \$1,110. The extra was for work done by a son.

Township Sues
Representatives of Essex township of Clinton county came into Ingham circuit court Thursday morning in an attempt to make Theodore M. Gibson of Lansing pay for a bridge.

Supervisor John Setterington and Highway Commissioner John Jolls of Essex township brought suit in the name of the township. They declared that on May 21, 1950, Gibson, by his reckless driving, destroyed the Maple avenue bridge over the creek in the Maple township. Gibson's recklessness, the township officials said, resulted in his severing the overhead strut of the bridge. The bridge collapsed and fell into the river. Gibson denies that he was reckless or that he was driving at a high rate of speed and on the wrong side of the road as charged.

The bridge was 16 feet wide and 49 feet long. The township seeks to recover \$15,000 for the bridge.

Teachers Holding Institute Feb. 14

Dr. William McGovern of New York, world traveler, and Dr. Robert D. Richards, pastor of the Bethel Methodist church of Detroit, will speak at the teachers institute to be held at the Mason school February 14. Dr. McGovern will tell about his travels and Dr. Richards will speak on "America—An Appreciation."

Conferences also have been planned for the school lunch personnel and the bus drivers. The Mason band will play selections youngsters from Danville, Stockbridge, Dart, Stoner, Carl, Horsebrook, Williamston, Pleasant Grove, Maple Grove, North, North-western and Forest schools will participate in a talent program.

Angelo Guerriero, teacher at the Mason school, and Harold Norris, Pleasant Grove teacher, will preside over the institute, which opens at 10:00 a. m.

MAYOR WOULD TAKE SHIRT OFF BACK

\$16 Police Shirt Stirs Debate

Should the taxpayers have to buy those stylish blue flannel shirts made to order for Police-Men Ken Merindorf at \$16 each? That's what Mayor C. H. Hall asked the council and asked Merindorf Monday night. And if the taxpayers have to foot the bill for the shirts for policemen why shouldn't they buy them socks and underwear?

Alderman Harold L. Barnhill, chairman of the police committee, declared that Merindorf is entitled to shirts at the expense of taxpayers. Taxpayers now furnish policemen with caps and blouses. Barnhill said, and there's no reason why shirts and pants should not be added.

City Clerk George Kellogg said that the clothing agreement calls only for the city to provide caps and blouses for policemen.

Merindorf told Mayor Hall and the council that he ordered the shirts along with a blouse, intending to pay for the shirts if the council wouldn't.

The mayor pointed out that the clothes don't make the man. "One of the things wrong with Mason and other small towns is that they think they must do everything the big cities do," the mayor said.

"Sort of keeping up with the Joneses," Alderman Frank Evans commented.

Alderman Alton J. Stroud backed Barnhill's motion to have the city buy shirts for policemen. Stroud said he considered police wages too low.

Finally Evans suggested that the best way to save policemen and aldermen from embarrassment would be a study and a recommendation by the committee. That's the way it was left. Barnhill withdrew his motion. He agreed to meet with Stroud and Hugh W. Silsby, Sr., to study what other cities do about shirts for policemen. The committee will bring in a recommendation.

Evans said he favored a clothing allowance for policemen in lieu of a clothing issue and the resultant disputes over who owns a man's shirt.

Delinquent Tax List Publication Starts This Week

Auditor General John B. Martin, Jr., designated the Ingham County News as the newspaper to carry the delinquent tax list this year. The list will appear in this paper for five weeks, February 8 through March 8. The properties still unpaid will be offered for sale May 1. The list of lands appears on Pages 6 and 7, Part 3.

There are an even 1,000 descriptions of Ingham property in the list. The property is delinquent for taxes of 1948 and prior years. All of the property listed will not be put up for sale. Some of the owners have settled since the list was turned over to the printers. Owners have until the day of sale to pay up and their lands will not be offered for sale.

Owners of lands on the delinquent tax list may pay up now on the basis of the tax as levied plus one-half of one per cent a month interest and plus a four per cent collection fee.

After the taxes are sold, the owners of the properties have a year in which to redeem by paying one per cent a month on the total as shown in the list. Then there is an additional redemption period of six months during which the owner may redeem at 50 per cent plus \$5.00 a description.

Delinquent taxes may be paid at the office of County Treasurer Lyle B. Austin in Mason.

Youngster Loses Fingers in Gears

John Dorn, 10, lost his thumb and the first three fingers off his left hand Tuesday afternoon. He was helping his father, Jacob Dorn, shred dry cornstalks in a silo filler.

The boy caught his left hand in the gears of the machine. The father pulled his son's mangled hand out of the gears, and sped to Mason with the boy. Dr. A. V. Smith amputated the thumb and the first three fingers back to the palm. Only the little finger was spared.

John is a fifth-grader at the Cady school in White Oak. The Dorns live on Howell road near Vantown. The boy is in the Mason General hospital.

Road Board Buys New Equipment

At its meeting Wednesday the Ingham road commission bought four pieces of equipment.

Purchases included a Buick Special from Hilton & Richards, Mason, at \$1,350 with a trade-in; an air compressor from Contractors Equipment Co., Grand Rapids, \$3,500; and a Mulliken-Pettibone combination stock pile and window gravel loader from Earl Equipment Co., Detroit, at \$10,350; and a 192 International truck from Lansing Equipment Co. at \$5,200.

C & O Streamliner Kills Williamston Stock Buyer, Woman Also Train Victim

Pearl Shepler Drives Truck in Front of Train, M. C. Freight Kills Munnith Woman in Onondaga

Railroad trains claimed two lives at grade crossings in Ingham Monday and Wednesday.

A speeding C & O streamliner struck Pearl Shepler, 55, a cattle buyer, on the guarded Putnam street crossing in Williamston at 9:52 Wednesday forenoon.

A Michigan Central freight train killed Mrs. Mabel Towers Raymond, 52, at 5:45 Monday evening. The accident happened at the unguarded Bentley crossing west of Kinnerville road in Onondaga.

The Williamston crash was spectacular. The west-bound streamliner was roaring through town at a scheduled 62 miles an hour. The locomotive hit Shepler's truck just back of the cab. The front end of the truck with Shepler in it sheared off the standard carrying the flasher lights and bell and went on to shear off the signal tower. Flames leaped from the wreckage almost immediately. The motor and some other parts of the chassis were tossed from 175 to 200 feet down the track on the north side.

Debris from the rack and the rear end of the truck splashed for 200 feet down the south side of the track. The rear wheel assembly was carried 190 feet.

Shepler was instantly killed in the collision. His lifeless body was seized by the flames.

The passenger train, running five minutes late, went almost two miles down the track before it could be stopped. It was then backed up to the scene of the wreck.

Shepler specialized in buying calves for veal. Last year he handled 30,000. He drove from his farm in Locke township to the Williamston Co-Op office opposite the C & O depot Wednesday morning to make a deal for a new stock rack. He and Manager David Beatty agreed that Shepler would trade in his rack for a two-deck rack sold by the Co-Op. Shepler intended to make the trade Thursday. After talking with Beatty, Shepler had his truck tank filled with gasoline. He stopped at the station every morning to have the tank filled.

John (Bud) Jones filled the tank of the truck. It only took six gallons. Shepler climbed into the cab and drove west parallel with the track about a city block. Then the train was hurtling into the east end of town.

Ice sheathed the street along the tracks. Shepler stopped his truck to enter Putnam street and then turned north. There were no skid marks to indicate that he tried to stop his truck. He drove directly into the path of the train. The train was hurtling into the east end of town.

Jones heard the crash and saw the truck splinters flying through the air. Deputy Sheriff Harley Beach was working at a station on the north side of the tracks. He heard a "whoosh," as he described it, and looked up to see the signal standard and tower and the truck cab being twisted into one tangled skein.

Deputy Beach and Jones ran to the crossing. Flames were already leaping up. They saw Shepler's body on the edge of the wreckage. The two men pulled it away from the flames.

Williamston firemen fought the flames.

The streamliner was due in Williamston at 9:47. It arrived at 9:52.

Leslie Dickering For School Site

While the Leslie school board has not officially dropped its designs on part of Russell park, several other sites are being considered. The school board asked that the county surrender three acres off the south side of the park.

The park board and the roads and bridges committee of the board of supervisors exhibited coolness to the request. The supervisors agreed to a hearing which was set for Monday. No one appeared for the Leslie school.

According to Superintendent Clarence Vanderland of the Leslie school, the board has several sites under consideration. Harold Hamilton, Richard Schmit and Ford Chapman of the board have been named to a building and site committee. They are now lining up prospective sites. Two of them are favored over the park site which is on the present route of US-127.

Leslie intends to erect an elementary school building this summer. The district has a surplus of \$22,000 from last year and the board anticipates a like sum as surplus this year. While the \$44,000 may not cover all the building costs, the superintendent pointed out, it should come near enough so there won't have to be any bonds issued.

"I can't understand the complaint of Alderman Evans about charging the road commission rent for storage," Davis said. "The fair board merely accepted the proposition urged by the road commission. The road commission wanted to unload the brick building and use the money for a new storage at the road commission headquarters. The road commissioners suggested that the fair board charge rent for use of the property."

The road commission charges the fair board for chloride spread on the boulevard, Davis said.

"Members of the fair board would like to go over some of these things with the city council and the road commission," the fair manager concluded. "Apparently there is a lot of misunderstanding; we are anxious to cooperate with the city and the county."

Horsemen pay \$1.00 per horse per month for stall rent. Davis said. They also are charged for electricity used at the barn and in their trailers, he said.

District Scouts Receive Awards At Mason Rally

Three hundred witnessed presentation of the angle award to Philip Arnold of Danville and Richard Pettit of Haslett at the bi-monthly Ingham district rally held at the Legion Memorial building in Mason Monday night.

The rally was preceded by a hour of review at 8:00 under the direction of Lee Kelly, Ingham district advancement chairman from Haslett. A potluck supper was held at 7:00 with the rally beginning about 8:00. Master of ceremonies was Joe Dean, former eagle scout of Mason.

The tenderfoot investiture service was presented for Mason's new tenderfoots under the direction of Assistant Scoutmaster Donald Scofield of the Mason Troop. Members of the Holt Troop 40 then presented a skit. The second class awards were presented by Floyd Loft, neighborhood commissioner of Holt, to Jim Chappell and Gary Chappell of Holt; Dick Siebert of Mason; Carl Jackson, Robert South, and Dick Cole of Williamston; Forest Kenworthy, James Farr, Bruce Swan and Jerry Telling of Okemos; Norman Hinton, Jerry Cross and Donald Taber of Haslett; Tom Basore, Job Hudson, Roger Stevens, Ned Owens and Donald Dickinson of Stockbridge; Junior Kirby and Jack Cook of Danville. John Gardner of Lansing Troop 21 received his second class.

The first class awards were presented by Ralph Morr, member of the district advancement committee from Haslett, to Brian Broberg of Groenewich; John Howlett of Mason; Donald Foreman, Jim Caulins, Paul Fate and Larry Zindel of Williamston; John Swanson and Tom Murphy of Okemos; Rodney Hagenbuch, James Harrison, Robert Fisher and Ralph Morr of Haslett, and Jim Rowland, Donald Miller, Tom Robinson, Larry Cornish, Robert Esch, Jack Schable, John Collins, Junior Simmons and Denny Shackelford of Stockbridge. Merit badges, 145 of

them, were presented by Harold Ray, neighborhood commissioner from Haslett. Joe Roe, Scoutmaster of Mason, announced that the attendance award was again won by Haslett which had 96 present at the rally. Dr. Gardner, council camping committee chairman, presented to Pat Brisbane a small scouting pin. Brisbane was the bus driver who attended the Jamboree with the Haslett troop and who is expecting to drive a bus to Philmont this year with the Scouts.

Williamston troop 63 and post 303 presented a skit about Washington at Valley Forge.

Star awards were presented by Joe Wyman, chairman of Mason troop 62, to John Kruse, Joe Graham, Jerry Wilcox and Terry Wyman of Mason; Edward Hull and Robert Sweet of Williamston; Bill Haskins, Ronald Ray and Gerald Smith of Haslett; James Esch of Stockbridge; Wesley Clark of Holt; and Lynn Clark and Paul Swift of Groenewich.

Life awards were presented by Ted Willson, district commissioner from Haslett, to Joe Roe, Mason; Robert Scofield, Mason; Richard Leonard, Groenewich; and Richard Mergener and Gibson Strickling of Groenewich.

The advancement award was presented to Leon North, neighborhood commissioner from Groenewich since the Groenewich community had the best advancement percentage per boy.

At the close of the evening the eagle ceremony was presented under the direction of Daniel Brown, Holt Scout executive serving in Ingham district. On stage were six eagle scouts from the district who held candles to light the stage. Phillip Arnold from Danville and his parents and Scoutmaster Charles Weeks were on one side of the stage. Richard Pettit from Haslett and his parents and Scoutmaster Ralph Goff were on the other side. Brown read a letter to each boy from Arthur Schuck, chief Scout executive. The eagle Scout crads and pins were presented to Scoutmasters who in turn presented them to the mothers and fathers for their sons.

Special Election At Holt March 3

The Holt board of education voted February 1 for a special election on March 3, 1951 concerning the extra operating tax levied this year for the improvement of the Holt school buildings and grounds and to finish the Holt Recreation and Memorial Field.

Voters in the Holt district approved an operating levy of five mills above the 15-mill limitation on May 25, 1946. A majority vote is required for the proposition to carry.

An open discussion of the financial problems of the school was held by the P. T. A. and the school board February 12 at 8:00 p. m. in the high school.

Some of the services that have been provided the district in the past few years by the voted extra millage are: one or two teachers hired in addition to the minimum needed, which has decreased the class load per teacher to 28 or 29 pupils in the elementary grades; improved shop, music, art, and physical education instruction; employment of a school librarian and purchase of additional books and teaching material; audio and visual teaching equipment and material purchased; improvement of the maintenance and repair of buildings and equipment; and continuation of the visiting teacher program begun in 1945. Other improvements of the grounds and plant, such as fencing the school sites and grading the playground area, could be met by one or two mills of the proposed levy.

Superintendent on Broadcast
Benton Yates, superintendent of Holt schools, took part in a panel discussion broadcast by WKAR last Tuesday afternoon. The group told of the various problems of construction and gave suggestions as to the procedure to follow in the building of a new school.

One Man Is Hurt In Leslie Crash

Charles Greenley, 26, of St. Clair was seriously injured in an accident near Leslie at 3:45 Sunday morning. Nelson Oldman, 22, and his wife, Mary Lorraine, 18, of Leslie, were out and bruised but were not hospitalized. Robert Troman, 26, Leslie was the driver of the car. He was not injured.

Troman was driving west on Fitchburg road a quarter of a mile east of US-127, he told sheriff's officers, when his car hit a drift of snow on the shoulder of the road. Troman lost control, and his car missed two trees and then plunged down a 15-foot embankment, rolled over, and struck another tree. It came to rest within inches from the bank of a creek.

Greenley was taken to the Peoria hospital in Jackson with internal injuries and a sliced ear. Dr. Earl Parker of Leslie attended the injured.

At 7:30 Tuesday morning Herman B. Leonard of Leslie wrecked the front end of his car on Scofield road. He was driving west on Scofield just east of Wright road when he fell asleep, he told officers. His car ran off the road into the ditch and broke off a utility pole. Leonard escaped with cuts and bruises.

Richard P. Gillespie New Niles Engineer

Richard P. Gillespie of Niles, son of Mrs. Ellen Gillespie of Mason, has been appointed the new Niles assistant city engineer. He began his duties February 1.

Gillespie is a graduate of Mason high school. He is married and has two daughters. During World War II he served in the Air Force four years. After his discharge he finished his schooling at Michigan State college, receiving his bachelor's degree in engineering in 1949 and his master's in 1950. While attending college Gillespie worked for the Michigan state highway department as designing engineer. After graduation he was employed by the Hungerford Construction Company of Jackson until his appointment as assistant city engineer.

There was no school Monday afternoon because of the music meeting in Mason.

County Increases Fire Insurance

To keep pace with inflation, the board of supervisors increased insurance coverage by 20 per cent Monday.

The extra coverage will cost the taxpayers about \$2,500 a year. But it will prevent the county from losing in case of a fire, the supervisors were told by an insurance representative.

Ingham carries 90 per cent co-insurance. Under the plan the county must insure up to 90 per cent of current replacement values, the supervisors learned.

The new coverage schedule is: Court house, \$345,000; jail and sheriff's residence, \$155,500; juvenile detention home, \$18,000; storage at detention home, \$1,000; library, \$43,000; county infirmary, \$210,000; tuberculosis sanatorium, \$67,000.

Supervisor Walter Munyon of Lansing asked that a committee be appointed to work out an inventory on property in county buildings. Supervisor Arthur Stoppel of East Lansing asked that a Lloyd's appraisal be secured on buildings.

County Treasurer Lyle B. Austin reported that Lloyd's Thomas made an appraisal in 1936.

On motion of Supervisor John Russell of Lansing the matter of an appraisal, estimated to cost \$1,000, was left to the ways and means committee.

Train Crash

(Continued from Page 1)

9:52. No stops are scheduled at Williamston. There is nothing in the city ordinance to restrict train speeds, although city officials have sought to reach an agreement with the railroad to slow down the trains inside the city.

Freight Strikes Car

In the accident near Onondaga, the extra freight was traveling southeast at 35 miles an hour. Mrs. Raymond was driving west on Kinneville road. She was due at the Davidson Woolen Mill at Eaton Rapids to start the six o'clock shift.

The locomotive struck the car, turned it around and hauled it 90 feet down the track. The wreckage sheared off a power pole. The force of the impact was such that Mrs. Raymond's glasses were found imbedded in the pole. The steps were knocked from the locomotive.

W. J. Hastings of Jackson was conductor on the freight. F. B. Lusty of Jackson was the engineer. Both men told Ingham officers that the train whistle was sounded before the crossing was approached. Mrs. Edith Cambrae, who lives near the crossing, said she heard the whistle and saw the crash a few seconds later.

Dr. A. H. Melnik of Eaton Rapids was summoned to the wreck. He declared that the woman probably died instantly. Her forehead was punctured.

Justice of the Peace Roy W. Adams of Mason served as coroner. He held that no inquest was necessary.

In Justice Court

Last Thursday Edmund Knieker, bookkeeper of Meridian township, appeared before Justice of the Peace Roy W. Adams at Mason to plead guilty to an assault and battery charge. The judge fined Knieker \$5.00 plus costs of \$8.40 and placed him on probation for a year.

Thomas Caudell of Stockbridge, finishing 30 days for violation of probation, drew a fine of \$4.00 plus costs of \$13.70 from Justice of the Peace Roy W. Adams Tuesday. Caudell was also placed on probation for six months. He was tried before Judge Adams without a jury Tuesday and was found guilty of an assault and battery charge.

Legion Auxiliary Buys Equipment

Mrs. A. W. Jewett, Hospital chairman of Browne-Cavender American Legion Auxiliary No. 148, announced that two new folding wheel-chairs have recently been added to the unit's supply of equipment. These were purchased through the magazine subscription campaign carried on recently.

At present, states Mrs. Jewett, four wheel chairs, an invalid walker, fracture frame and crutches are loaned in various parts of the county, and there are available for use six beds, two wheel chairs, two bed-side tables and a polio pak. A number of smaller pieces of sick-room equipment are also available, and the unit is adding another pair of adjustable crutches to the supply within a short time. The Auxiliary is especially anxious that it be fully understood that these supplies are loaned free of charge anywhere in Ingham County.

Next Tuesday evening, February 13, the unit, under the chairmanship of Mrs. Olive Brown, is holding a novelty party to which the public is invited.

A public meeting devoted to features of Americanism and citizenship is being planned for the evening of February 27. In charge of the arrangements are Ralph Strope, commander, and Harold Haase, Americanism chairman of Browne-Cavender Post; Leslie Palmer, civil defense chief for Mason; and Mrs. Mary E. Anley, president. Mrs. Fred Burroughs, Americanism chairman; and Mrs. Wilfred Jewett, defense chairman for the Auxiliary.

TB Sanatorium Is Asking State For \$821,245

Ingham's tuberculosis sanatorium board has asked the state legislature to grant Ingham \$821,245 for improvements and additions to the sanatorium.

Members of the board declare that there is nothing to prevent the state paying counties a share of the \$85,000,000 bond issue voted in November. Of that amount \$5,000,000 was earmarked for tuberculosis hospitals. Two of them were to be state hospitals, one in the Upper Peninsula and one in the southwestern part of the state.

Ingham, Saginaw and Kent counties are requesting shares for expansion of tuberculosis hospitals. Rep. Harold D. Hungerford of Lansing has introduced a bill in the legislature to give Ingham the money asked.

Ingham is now remodeling and expanding the sanatorium at a cost of \$244,000. The program calls for \$1,085,245. Less the \$284,000, the job would require \$821,245.

The \$821,245 covers revisions of present remodeling, \$19,385; new windows, \$15,522; addition of two floors for bedrooms, \$200,000; installing diet kitchens and improving space on second floor, \$50,000; new nurses' home, \$300,000; remodeling of doctor's residence, \$5,000. Ten per cent added for contingencies amounts to \$85,410. Architect's fees are estimated at \$40,980. Furnishing and equipping of the additions would cost an estimated \$93,669.

Former Resident Dies at Flint

Charles Sheldon Jenkins of Flint died in Hurley hospital on Saturday, February 3. He was born in Ingham on December 14, 1882, and lived on a farm here until moving to Flint about 45 years ago.

He was the son of Sanford J. and Mary Webb Jenkins, who lived for many years near Mason.

Surviving are two daughters, Mrs. Marion Flint and Miss Joan Jenkins of Flint; four sons, Earl of Pontiac, and Paul, Burnell and LaVerne, all of Flint; and six grandchildren.

Funeral services were held at the Groves & Co. funeral home in Flint on Wednesday. Burial was in Grace Lawn cemetery. Rev. Emory Pope officiated at the services.

Two sons, Wayne and Arthur Lee, preceded their father in death.

Woman Is Hurt In Car Collision

Mrs. Nina Faye Felton, 60, of Stockbridge was taken to the Mason General hospital Tuesday afternoon. She had her forehead gashed in an automobile collision. She was also suffering from shock when admitted to the hospital.

Mrs. Felton was riding with her husband Guy on Ash street in Mason. The car was headed west. At the intersection of Steele street, sheriff's officers said, Delbert Pearson of Mason cut his car in front of the Felton car.

George Rappleyer, 60, of Dansville, riding with the Feltons, said his neck, Pelton and Pearson were not injured. Both cars were damaged.

Carl Binkowski, Agnes H. Philo Exchange Vows

Agnes Helen Philo, daughter of Mr. and Mrs. Arthur Philo of Eaton Rapids, became the bride of Carl Binkowski, son of Mr. and Mrs. Martin Binkowski of Charlevoix, on Saturday evening at the Redemptor Lutheran church in Lansing. Rev. John E. Breck of the Grace Lutheran church performed the double-ring ceremony at seven o'clock.

The altar was decorated with baskets of white gladioli, palms and lighted candles.

Given in marriage by her father, the bride chose a gown of white slipper satin with a long train. Her fingertip veil of white net was held by a white satin train trimmed with seed pearls. She carried a bouquet of red roses centered with gardenias.

Miss Patricia Philo was her sister's maid of honor. She was dressed in light blue taffeta. The bridesmaids, Irene Binkowski, a sister of the bridegroom, and Mrs. Doris Sandberg, wore gowns of green and yellow, respectively.

The three attendants carried colorful bouquets made up of peach gladioli.

Pvt. Paul Binkowski of Camp Atterbury, Ind., attended his brother as best man. Eugene Philo of Eaton Rapids and Raymond Parker of Mason were ushers.

Following the rites, Mrs. Myrtle Stens sang "Because" and "I Love You Truly," accompanied by Mrs. Mildred Gay.

The newlyweds received their guests in the church parlors following the ceremony. A lace tablecloth covered the table which was centered with a three-tiered wedding cake topped with miniature bride and groom. Silver candelabra holding lighted tapers flanked the cake on either side.

Members of the Women's Guild served the ice cream, cake and coffee to the 100 guests.

Mrs. Marjorie Marquardt, an aunt of the bride, was hostess. Mrs. Debertha Grimm and Mrs. Mary Kirkendall had charge of the gifts and Mrs. Eleanor Parker, a sister of the bride, presided at the guest book.

For her daughter's wedding and reception, Mrs. Philo chose a blue crepe dress and navy accessories. Mrs. Binkowski accented her green crepe dress with gray accessories. Both mothers wore shoulder corsages of pink carnations.

Guests attended the ceremony from Lansing, East, Mason, Jackson, Charlevoix, Charlotte, Muliken and Michigan City and Camp Atterbury, Ind.

Patricia Ann Palen Joins Brides

Magr. John A. Gabriels united Miss Patricia Ann Palen and John E. Willes, Jr., of Lansing in marriage Saturday morning at the Church of the Resurrection. The bride's parents are Mr. and Mrs. Bernhart Hogan of 2004 South Cedar street. The bridegroom is the son of Mr. and Mrs. John E. Willes, Sr., of 1217 Hickory street.

James Garvey sang wedding selections preceding the ceremony. The church was decorated with tall baskets of spring flowers.

The bride's gown was made of imported chintilly lace over nylon tulle and satin, with a chapel-length train. A collar embroidered with seed pearls trimmed the sweetheart neckline and her illusion net veil was held in place by a small lace cap trimmed with matching seed pearls. Velvety dark tones of roses were combined with staphenotis and ivy for the bride's bouquet.

Mrs. William Hanley came from Cleveland, Ohio, to be her sister's maid of honor. She wore an emerald green strapless dress with satin cuffs and a swirling skirt and bolero with satin collar and cuffs. Her mits and Dutch cap were trimmed in satin. The two bridesmaids, Mrs. Robert Busley and Miss Beverly McKay, wore gowns identical to the matron of honor's. White iris clusters and the ivy made up the bouquets which the three attendants carried.

Jacquelyn Doane, a cousin of the bride, acted as flower girl. She donned a green faille, fashioned along the same lines as the other gowns, with matching mits and bonnet. She carried a small colonial bouquet with a shower of rainbow colored ribbons.

A cousin of the bridegroom, James Willes, was best man. Allan Dotsch, Paul Moore, Robert Fritscky and James Grost were groomsmen.

For her daughter's wedding, Mrs. Hogan selected a navy blue sheer and orchid accessories. She wore a shoulder corsage of violets and pink roses. The bridegroom's mother, Mrs. Willes, accented her navy blue gown with gold accessories and her corsage

was made up of tallismen rosebuds. A wedding breakfast for 60 guests was served at the Pagoda restaurant following the 10 a. m. ceremony. In the afternoon, 300 guests attended the reception which was held at Indian Hills.

Legion Auxiliary Plans Activities

The American Legion Auxiliary unit of the Lyle Edwards Post No. 491 held its regular meeting Thursday, February 1. The president, Mrs. Ward Vancie, Jr., stated "that millions of additional women will become eligible for membership in the American Legion Auxiliary as a result of an amendment to the charter recently made by congress. The amendment opens American Legion ranks to veterans of the Korean conflict, which means that women of their immediate families will be eligible to join the Auxiliary," explained Mrs. Vancie.

"Already some veterans of the Korean War have been discharged and have become eligible for Legion membership. As soon as they enroll their wives, mothers, sisters and daughters will be eligible to join the Auxiliary. With the plan already made for three million men in the armed forces, and with the possibility that an even larger number may be called into active service before hostilities end, there is no way of estimating how much new strength the charter amendment will bring into the Legion and Auxiliary."

Mrs. and Mrs. Lee Shinn, accompanied by Mr. and Mrs. R. W. Shinn, recently visited the Percy Jones hospital in Battle Creek. They took magazines as gifts to the patients there. It was reported that the hospital needs more magazines such as Reader's Digest and some books.

Members bought poppy seals and the money will be put in a special fund for the education of war orphans. Mrs. Leon Albrow was chosen to be the new Girls' State chairman. Girls' State will be from June 19 to 25. Mrs. Albrow also will see teachers at the school concerning the poppy poster contest to be held in Leslie during the poppy sale in May. The essay contest title was announced as, "Michigan's Place in the United States Today." Prizes will be \$3, \$2 and

\$1 in each division, junior and senior classes. The winner's essay goes to the Sixth District to be judged.

Plans were made for the Legion's and Auxiliary's 32nd birthday party to be held March 17. A potluck dinner will be served at 7:00 p. m. at which time the Auxiliary hopes to have Mrs. Hollie Winn, Sixth District president as a guest. Committees were named as follows: Decoration, Mrs. Lee Shinn and Mrs. Leon Albrow; dinner, Mrs. Bruce and Mrs. John Hizer; and entertainment, Mrs. Max Bennett and Mrs. Donald Crakes.

The next regular meeting will be Thursday, March 1, at eight o'clock.

Rites Held for Mrs. Jesse Miner

Mrs. Jesse (Florence E.) Miner, 63, died Tuesday morning at Mercy hospital, Jackson. Mrs. Miner was born at Clark Lake and lived in Leslie 31 years.

She is survived by her husband, Jesse Miner, two sons, Richard, at home and John W. of Parnell road Jackson; one daughter, Mrs. James Lake of Route 3, Jackson; two sisters, Mrs. Paul Marsh of Jackson and Mrs. Arthur Bailey of Clark Lake; two brothers, Richard Hardy of Clark Lake and Joseph Hardy of California; five grandchildren and several nieces and nephews.

Services were held at the Jupp funeral home in Leslie on Thursday at 2:00 p. m. with Rev. S. B. Wenger officiating. Burial was at Woodlawn cemetery.

Leslie C. of C. Discusses Projects

The Leslie Chapter of Commandery No. 100 of the Order of the Golden Rule is actively promoting the interests of the community. The parking lot committee, Fred Heuer and Marvin Pixley, report that merchants have contributed the money and the rent has been paid to the Masonic Temple association for the lot just south of the town hall. The village has done some surfacing and will complete the surfacing, marking and opening a new driveway as soon as possible but the lot is open for parking now through the entrance to the south of the lot.

Dr. Paul Parker approved at the last meeting of the Chamber of Commerce and offered the pond back of his home for public skating and he would furnish floodlights if someone would erect the lights. He said that the ice was kept in good condition by flooding the surface, and that the place would be under supervision to protect trees and shrubs from being destroyed. Bernard Hemstreet again offered his lot to be developed and equipped as a playground. The Chamber of Commerce will ask the village council, school board, P. T. A., and Lions club for help in completing the project.

A committee is pressing for a new village dump outside of the village.

The Leslie Grange has decided to rent or sell its hall if a suitable building can be brought to Leslie by the offer of its two-story 40 by 30 foot building, in view of the present restrictions on commercial buildings constructed in Leslie. The grange is chairman of the committee in charge of this matter. Fay Taylor lives by the Grange hall and can show the hall to interested persons.

Webster-Gallie Vows Repeated
M. E. C. Robert R. Webster, U. S. N., son of James Webster of East Race street, married Miss Edith Gallie in Philadelphia, Pa., last Saturday, February 3. The wedding followed the wedding at St. Ignace Hall, Detroit, in the presence of 60 guests. The couple will be at home near Onondaga after a short trip.

Leslie Lions Club Meets
The Leslie Lions club met Monday, February 5, with 20 members present for dinner at the M. and M. restaurant with the president, Leonard Rouse, in charge. It was voted to aid the Cub Scout pack to the extent of \$30 a year. The Lions plan to bring to town a seal, most complete in every detail and some parts animated. A three-minute talk on his business was given by Postmaster Vincent McIntee, program chairman, Ford Chapman, presented Lion Arthur J. Paul of Jackson who gave an address of general interest.

Scouts Camp Over Week End

Bulldogs Post 50-31 Victory In Howell Tilt

Jim Kelly paced Mason to a 50-31 victory over Howell Friday night with 15 points. Except for the last quarter Mason held the upper hand all through the game.

Friday night Mason will enter Grand Ledge in a game that should be close. The Comets lost a heartbreaker to the Bulldogs in the last two minutes of play early in the season. Since then Dick Kleinfelt, Comet star, has recovered from a football injury. He might be the difference in the second meeting of the two teams.

Grand Ledge has pushed the three top teams in the Capital Circuit in every game. The Comets have never been beaten by a top-sided score. Garry Lee, Kleinfelt, Jim Teeman and Ray Vandersteen have all taken turns at pacing the Comet attack. On the night that all four start to hit the hoop the Comets will be mighty dangerous.

Parishian hits for 10 points Friday night to fall in behind Kelly for Mason scoring honors. Parishian has played top ball all year at his guard position. Friday night was the first time he has dumped in any great amount of baskets.

Denny Stolz, the Mason sharpshooter, had a rough night against the Highlanders. He collected only four points on a field goal and two free throws for his worst night of the year.

Bill Wessinger and Bill Hillton led the Highlander scoring effort with 11 and 6 points, respectively.

Kelly held the giant Howell center, Herby Wylie, to five points with three of them coming from the free throw line.

Mason used a big third period to clinch the victory. In that quarter the Bulldogs dropped in 20 points while holding the Highlanders to six.

At the end of the third period Mason was out in front 42-15.

In the last quarter Coach Don Carey stuck with his reserve forces. The Highlanders started to hit against the shock troops and for the first time the Bulldogs were outscored.

Mason's reserve squad lost out in the curtain raiser 38-27. Doug Alderman paced the feeble Mason attack with 10 points. John Young was the top man for the Highlanders with 10 points. A poor first and fourth quarter spelled out defeat for Mason.

Free Throws Win For Blackhawks

Leslie had to rely on free throws Friday night to beat a stubborn Williamston team 66-55. The Blackhawks picked up 16 points from the foul stripe while the best the Hornets could do with charity tosses was seven.

Williamston stayed in the game with a big 22-point second quarter. At half time the Hornets were out in front 34-32. They could not hold the advantage, though, and gradually fell behind in each of the last two periods.

Dick Hecksel used his height to good advantage under the basket and tipped in 24 points. Bob Taylor collected 17 points and Bob Coppertol tossed in 12 for Leslie.

Dick McElmurray hit for 21 points to pace the Williamston attack. Ed Lounsbury was next for the Hornets with 14.

Mason Gets By Leslie 51-47 With Last-Minute Barrage

Leslie gave Mason a run for its money Tuesday night before bowing to the Bulldogs 51-47. The Blackhawks were never far behind all during the game. With three minutes to go the Mason lead was cut two points to 47-45 when Bob Coppertol and Bud Ward broke through the Mason defense for six quick baskets.

Denny Stolz came to the Mason rescue. He had not been able to hit for a field goal in the first three quarters. With the chips down he tossed in two quick ones from way out on the floor to put the game on ice for Mason.

Bob Jewett and Jim Kelly were responsible for the Leslie defeat. The two Mason giants worked together to dominate the backboards. Both men turned in 15 points each. Stolz finally ended up with a nine-point total after his slow start.

Bud Ward was the hottest man on the floor for either team. The midsize Blackhawk sharpshooter poured in 17 points, eight long ones and one free throw. Bob Coppertol was close behind with 16. Dick Hecksel scored 11.

The Leslie fast break caught Mason napping several times. Coppertol and Ward would break through to take Mason passes and go the length of the floor for a score.

The first quarter started out in Mason's favor. The Bulldogs had everything their own way. Then with about a minute to go the game started to get rough. The Blackhawks stepped up to the foul line and dropped in shots to end the quarter only two points behind Mason.

In the second period the two teams matched basket for basket until Mason came up with a late spree to go out in front 26-21 at the intermission.

Jewett and Kelly started the Mason attack rolling in a good third quarter. The two Bulldogs

took turns in battling down rebounds. By the end of the third quarter the Mason lead had been increased to 38-27.

Mason relaxed its defense momentarily in the last quarter and Coach Walt Gephart's crew took advantage of the letup to almost pull the game out of the fire.

Mason Reserves Win
The Mason reserves outclassed the Leslie reserves 42-30 in the first game. Mason was ahead by a substantial margin all through the game. Loren Shattuck had one of his best nights for Mason. He scored 17 points. Doug Alderman added nine. Jim Wintzart was top man for the Leslie reserves with nine points.

Legion District Names Strope to Manage Baseball

District Legionnaires have again named Ralph Strope of Mason to handle junior baseball in the three counties of Ingham, Genesee and Livingston.

Strope said that he hopes to map a 12-team schedule. Lansing and Flint are each figuring on four teams. East Lansing and Mason will each have a team. Strope expects Howell to be in the running also.

One of the changes made in district regulations this year is to include all certified teams in the district tournament now scheduled to start July 9. Therefore only teams which won league play-off berths could enter the tournament. Now all teams certified by June 30 can have a whack at tournament play.

Harold Haase will again have charge of the Mason team in junior baseball. Play will start with the close of the high school baseball season the last of May.

Holt Dumps Chiefs To Stay in Race

Okemos didn't have a chance against the powerful Holt Ramblers Friday night as the Chiefs went down to a 79-41 defeat.

Holt threw in every man on the square and still the Ramblers rolled. Bob Spraker celebrated his return to full-time duty with 21 points. Bud Miller and Dick Root each hit for 13.

Dee McDonald was top Indian with 12 points. Bennie Guile totaled 10 points for the Chiefs.

Holt had the toughest time in the first period. They edged the Chiefs 13-11 after battling it out toe to toe. The Chiefs evidently burned themselves out in that quarter. From that point on the Ramblers had things their own way.

At the end of the half Holt was out in front 32-22 and at the three-quarter mark the Ramblers were out in front 61-27. In the last quarter Okemos put up a stiffer battle but still were no match for the loaded Ramblers.

POLICE FIND CAR

Ludington police on Saturday recovered a car stolen in Leslie April 29, 1950. Joseph Adkins is the owner. The car was reported to be in fair condition. Police have not yet rounded up the man driving it.

VIKINGS HAVE MAT TEAM

Everett is the only school in the Capital Circuit to have a wrestling team. The school has had the sport for two years. The Vikings find their competition in the Twin-Valley conference and with Class A schools of Lansing.

County League Cage Picture Still Unchanged

Haslett and Holt are still on top of the Ingham County league heap after Friday night victories. Holt measured Okemos 79-41 and Haslett took Fowlerville into camp 76-39.

In other County league games Friday night, Leslie used free throws to win from Williamston 66-55 and Stockbridge rolled over Dansville 43-34.

Friday night Haslett will have a battle on its hands when the Lakers entertain Stockbridge. Stockbridge is the last real test Haslett will have in regular league competition unless some second division team scores an upset.

Paul Watson and the Battford brothers may be able to knock Haslett off. The Lakers have not lost a game since the second game of the season back before Christmas.

Neal Miller and Jim Mitchell have been dumping in over 20 points a game. Friday night's contest will be a free-scoring one.

Holt also faces a stiff test at Leslie Friday night. The Ramblers beat the Blackhawks in the first game of the season. Since then Leslie has come a long way in spite of a not-too-good season record. Tuesday night Leslie gave Mason a hard time before losing out 51-47. Mason is one of the better teams in the powerful Capital Circuit.

Holt is back at full strength after losing key players for the past two weeks with injuries. Larry Guile is one of the Ramblers stars that will be ready for full action.

In other games Friday night Fowlerville will entertain Dansville and Okemos will play at Williamston. Fowlerville should take care of the Aggies while the Okemos-Williamston game could go either way.

Tuesday night Holt and Mason will meet in what should be a close and rough battle. The game will be played at Holt. Mason will have to give away a little height to the lanky Ramblers. Both teams play the same type of a game. Coach Don Carey of Mason and Coach Fred Lawrence use the controlled-ball offense with a tight defense.

Leslie will be at Dansville Tuesday night and on Wednesday Haslett will invade Okemos.

Standings in the Ingham County league are:

Haslett	10	1	909
Holt	10	1	909
Stockbridge	8	3	736
Leslie	6	5	545
Fowlerville	5	6	454
Okemos	2	9	181
Dansville	2	9	181
Williamston	1	10	090

Aggies' Last Game Not Good Enough

Dansville came up with its best game of the year against Stockbridge Friday night and still it was not good enough. The Aggies lost 43-34.

In the first half it was anybody's ball game. The Aggies matched the high-scoring Panthers basket for basket in the first quarter. In the second period both teams had trouble finding the hoop. Stockbridge took over a slim 20-15 lead at the half.

Dansville tried hard to stay in the game in the third quarter. The Panthers still managed to outscore the Aggies 13-11 in that period. The Dansville game lost its steam in the last period and the Panthers won with little trouble.

Bob Basore dropped in 16 points from his guard position to pace the Panther attack. Paul Watson hit for 13.

Bob Thompson was high scorer for the Aggies with 10.

Charlotte and Everett Meet Friday for Circuit Showdown

Friday night is the big night in the Capital Circuit. Everett will take on the Orioles on the big Charlotte floor for the top spot in the circuit standings. An Everett victory would bring smiles to Mason.

If the Vikings turn the trick and Mason gets by its tough encounter with Grand Ledge on the Bulldog court Friday then Mason would have a chance at throwing the Capital Circuit into a three-way tie on February 16 when Everett will play at Mason.

Howell and Eaton Rapids, a couple of also rans this year, will round out the Capital Circuit schedule for Friday night.

Charlotte will play at Marshall Tuesday night in a game that will pit the cream of the Capital Circuit with the best in the Twin-Valley. Marshall tipped over the Orioles in an early season game. Friday night Capital Circuit play followed the script. Charlotte easily disposed of Eaton Rapids.

43-28, Everett dumped Grand Ledge 50-13 and Mason rolled over Fowlerville 50-31.

League standings are:

Charlotte	6	1	857
Everett	5	2	857
Mason	5	2	714
Grand Ledge	3	4	428
Howell	1	6	142
Eaton Rapids	0	7	000

RYE IN DOUGH

By mistake Saturday morning, some dark rye flour was mixed in with wheat flour in a batch of bread dough at the Mason City Bakery, O. D. Crowell reported. Rumors that there was dirt in the bread are untrue, he declared. It was just rye, he explained.

Dansville Scouts Mark Anniversary

Plans are being completed by Dansville Troop No. 70 for the annual parents night and open house celebrating the 21st anniversary of scouting. The event will be held at the town hall Thursday, February 15, beginning with a potluck supper at 7 p. m. All scouts, parents and friends of scouts are invited to attend.

Donald Brier has completed a window display at the Brier grocery, depicting a scout camp scene in an exact scale model.

The Scouts and scouts of Troop 70 celebrated Scout Day in church Sunday, February 4, at the Methodist church. They participated in the service.

Dansville Scouts who took part in Scout Day in the county government were Charles Weeks, Jr., in the county road commission office, Junior Simons in the county clerk's office and Joe Brannan held the elective office of registrar of deeds. They will make reports at the annual open house.

Thirty Scouts and scouts from Troop 70 attended the bi-monthly district rally, potluck supper and program at Mason Monday evening. Roscoe Arnold and Bell Mead assisted in the honor of review at 5 p. m. Jack Cook and Junior Kirby received second class awards. Junior Simons met first class requirements and received the award.

Philip Arnold was presented the eagle award during an impressive eagle ceremony, assisted by Dan Brown, field executive, assisted by Eagle Scouts of Ingham district, Scoutmaster Charles Weeks assisted in the presentation. Mrs. Merna Arnold pinned the eagle badge on her son and in return was dressed with a miniature eagle badge from him.

F. F. A. Boys Are Busy Selling Seeds

The Dansville F. F. A. Chapter continues to gain ground almost every day on their garden seed sales. The goal set is \$500.00 for total sales. About \$400.00 worth of seeds have already been sold.

Arthur Maynard's team is still in the lead. Their orders total about \$220.00 while Dick Curtis' team trails by about \$40.00. Russell Redman is top salesman to date with about \$72.00 in sales and Paul Osterle is in second place with \$58.00.

The first group of orders were mailed in February. As soon as the seeds arrive the boys will start making deliveries. The F. F. A. chapter receives 25 per cent commission on all seed sales.

On January 23 the F. F. A. team played the Williamston F. F. A. chapter. Even though the score board did show that Williamston was in the lead for both games everyone had a good time. On January 25 the boys played Okemos. The Okemos second team came out in the lead with a score of 20-15, but Dansville came out ahead in the first team game with a score of 24-21. When the time ran out with the first team game the score was tied. It was after the tie was played off that Dansville won by three points. A practice game is scheduled for 7:30 p. m. on Monday night of this week.

On Tuesday, January 30, the 9th grade agriculture class went by bus to Michigan State college to spend the day at Farmers' Week. The 10th, 11th and 12th grade classes of agriculture boarded the school bus Wednesday morning and left for Farmers' Week.

Three of the F. F. A. boys had entries in the Michigan State college egg show which was held at Farmers' Week. Dorwin Sheathelm received honorable mention as he

placed fourth in the brown entry in the farmers class. First place in this class was taken by Lyle Holmes of Williamston. Melvin Jordan and Duane Hart were the other two boys that entered in the show.

Past Matrons Club Meets
Ten members of the Past Matrons club met Thursday evening at the home of Mrs. Mina Otis with Mrs. Ona Almond assisting.

A six o'clock dinner was served after which the business meeting was held. Visiting was the diversion of the remainder of the evening. The March meeting will be at the home of Mrs. Iva Corwin with Mrs. Iah Brannan assisting.

W. M. S. Plans Regular Meet
The Woman's Missionary society of the Free Methodist church will meet next Thursday, February 15, at the parsonage. The meeting will be called at one o'clock and the program and study book will follow the business meeting.

Baked Goods Sale Held
The Future Homemakers held their baked goods sale last Friday at the Dansville General store. The girls cleared \$29.50 which they will use to finance the representatives of the club to camp this summer.

Paper Drive Is Successful
The paper drive sponsored last week by the Boy Scouts was very successful due to the fine cooperation of the people of the community. The Scouts reported that they collected four tons of paper. Anytime people in this vicinity have paper for the Scouts it will be called Scoutmaster Charles Weeks, 2010, the paper will be picked up.

Debate Team Loses
The Dansville debating teams, after winning the county trophy, journeyed to Lake Orion last Thursday for the district tournament. Seven other schools participated in this tournament, the winner of which was Northville.

Those who went were Joan Craddock, Leora Mae Juno, Cary Virginia Cramer and Evelyn Line and their coach, Jim Young. The Dansville negative team composed of Leora Neu and Junia Carr met the St. Clair Shores affirmative team and was defeated.

Dansville Aggies Lose to Panthers

The Dansville Aggies lost a good ball game to the Stockbridge Panthers by a score of 43-34.

The job of guarding the usually high-scoring Paul Watson fell to a freshman, Don Douglas. Douglas held Watson to a lone field goal the entire first half. But while Watson was being held down, Bob Passore broke loose for 14 points the first half, this being the reason in the score at half time, which was 20-15 in favor of Stockbridge.

The second half found Watson scoring 11 points to lead Stockbridge into a nine-point victory. Passore was high point man for Stockbridge with 19 points. Thompson, Dorkett and Halbert scored 10, 8 and 7 points respectively.

Others who played for Dansville were Jack Curtis, Quentin Glynn and Larry Graham.

The second team lost a close game to the Stockbridge "Cubs" 31-29. In the third quarter the little Aggies blew a five-point lead, falling behind two points. Both teams matched point for point the last quarter. Brower, Redman and Carl Osterle scored 12, 7 and 6 points respectively.

Others who saw action were Dorwin Sheathelm, Jim West, Rodney Dorkett, Jack Waterstradt and Basil Lance.

This week Friday at 7:30 the Aggies take the floor at Powerville against a much-improved team.

Faculty Meeting Held
The members of the school faculty held their regular meeting last Thursday afternoon following school at the home of Principal and Mrs. G. E. Manning. Following the discussion of the business, sandwiches, cake and coffee or tea were served by Mrs. Manning with Mrs. M. Iva Manning pouring.

Mr. and Mrs. Paul Dillingham and Delores and Charles Dillingham of Lansing spent Sunday with Mr. and Mrs. Forest Anderson, Jr.

Invisible Rabbit, Harvey, Due at Fox

Veta Louise is in a state of collapse when she discovers a portrait of her brother and Harvey which has been placed in the library over a picture of Dowd's mother. Chumley sets out to find Dowd and becomes a victim of Dowd's charm - he too begins to see Harvey! It's all part of the fun in "Harvey," which will have its first Ingham county showing Tuesday through Friday at the Fox Theatre.

New in Style—New in Structure—New in Power—New in Thrift—
Potent in Price Appeal—It's the 1951 BUICK SPECIAL!

HERE is good news for folks with a shrewd eye for what their dollars will buy.

Here is a tidy traveler that defies the upward trend of costs—proudly wears a 1951 price tag like that which zoomed last year's SPECIAL into popularity so great that it put a crimp in "the low-priced three."

Take our word for it, this is every inch and ounce a Buick—Buick-featured, Buick-designed, Buick-built from the ground up—but literally the newest thing on wheels.

The sturdy and ample body is new. The high-strength frame is new. The power is new to the SPECIAL, which now has the thrifty F-263 engine that first made its name in the SUPER, and here delivers 120 horse-

power with standard transmission—128 with Dynaflo Drive.*

It's a Buick with less weight and more power—and that spells a pair of new thrills for you. There's a performance thrill such as you've never enjoyed in the SPECIAL—plus a handsome gas-saving into the bargain.

We'll make a prediction now as to what title folks will give it, once they get it out on the road. That title, in three words, will be: "Thriftest Buick Yet!"

"There is no fear in love, but perfect love casts out fear. For fear has to do with punishment, and he who fears is not perfected in love." (1 John 4:18, R. S. V.) Read Romans 8:28-29.

One emotion that is keeping the world divided and quarrelling and intensifying the cold war and the shooting war is fear. Mothers the world around fear a world-wide war is in the making. Young men are weary of the futility of life since prospects of going to war face them. Displaced persons fear they have been forgotten. Millions of refugees without homes fear death. With no work for their hands, they fear mental torment.

These words of our text from John's First Epistle are words directed to all who fear. They are words of spiritual maturity. John, in his old age, years to have the disciples and non-disciples know the deep truths born of experience that have come to him in his many years of Christian living. Christian love can cast out our fears and into the vacuum will come faith, nurtured by Christlike love.

PRAYER
Our heavenly Father, manifest in us on this day of directed prayer throughout the world the possibilities and power that are ours when we become followers of Thine. Help us so to love one another that all men will know we are Thy disciples. In the name of our blessed Lord and Redeemer. Amen.

THOUGHT FOR THE DAY
Only when we have Christlike love in our hearts do we live without fear.
Wesley Hunsinger Fisher (New York)

Some Answers to the QUESTION:

Should I buy a new car NOW?

Seven years ago, the American motoring public faced a situation comparable to the one which confronts it today.

A situation which led to "scare buying" and "black marketing" in a very short time.

"A situation which unfairly deprived many worthy people of the new cars they urgently needed and were entitled to buy.

Lest the possibility of such a situation occur again, we earnestly suggest that everyone who needs a new car now—or in the next six months—carefully consider the following facts:

FACT 1: With large stocks of copper, steel, aluminum and zinc already diverted to military uses, there is no question that new car production will be drastically cut. New cars will be scarce not only in 1951 but far into 1952, as well.

FACT 2: Due to current increases in steel prices, and hourly wage increases in industry, some automobile companies have already found it necessary to raise their prices substantially.

FACT 3: The 1951 Kaiser offers you the most luxurious comfort plus the most advanced engineering design of any car in the medium price field. It is built with features that are literally years ahead of competition—and is outstanding for its economy of operation.

FACT 4: In the low-priced field, Kaiser-Frazer's new Henry J costs less to buy—less to drive—less to maintain than any other full-size car in America. As for its actual economy, owners report getting 30 to 35 miles per gallon.

Either car at its price is the soundest buy you can make—particularly in view of events today. So why not see your nearest Kaiser-Frazer dealer—and discuss your needs with him now! He can show you how to get the car you want—at a price that's fair!

Therefore... it seems only logical that the time to buy your new 1951 Kaiser or Henry J is now—while a wide choice of colors and models are still available.

Homemaker's Page

Homemakers Can Save 10 Per Cent On Food Bills

Are you a bargain hunter at the grocery store?

The average homemaker could be saving up to 10 per cent on her food bill without lowering her family's eating standard, believes Mary Bodwell, agricultural economics department food specialist at Michigan State college.

That can add up fast when about a third of our income is spent for food.

Here are five of Miss Bodwell's dollar-saving pointers for efficient food shopping:

1. Check store-to-store prices. Many homemakers tend to deal exclusively in one store, according to a recent survey made in Baltimore, Maryland by the U. S. agricultural department's production and marketing administration.
2. At the time of the survey there were differences of as much as 20 cents a pound on the same grades and cuts of meat sold in different stores, and price spreads of 10 to 15 cents a pound were common. Similar differences existed in other food items. Wide price spreads were found among the biggest

chain stores as well as the smaller markets.

2. Compare price changes, values. You might want to switch from some of the meats, for example, which have gone up 20 cents or more a pound in the last year to more poultry and fish products which have had little or no price hike—or include more cereal in the daily menu.
3. Use a shopping list. Once in the store, homemakers buy more and different items than they had in mind when starting out. We buy about half our groceries on impulse rather than according to prepared shopping lists. Use a handy list made up in sections for dry groceries, produce and meats—but don't follow it to the point of passing up good bargains.
4. Know when to shop. Become familiar with the rush hours in grocery stores in your area. It's true that the grocer may list specials worth going after on busy days like Friday and Saturday. But in general you can take more time and do a better job of reading labels and comparing values when the store is less crowded. Usually morning and mid-afternoon hours are the best.
5. Read labels carefully. The three things always shown on a label are name of the item, manufacturer or packer, and net weight. Additional information is often a key to quality, use and value. It's helpful in comparing values of canned foods with the fresh or frozen forms, for ex-

ample. And don't forget that in canned foods you usually get as much in food value by buying the lower priced grade C products as when you buy A or B. The difference is mainly in appearance, flavor, tenderness and uniformity.

PATRIOTIC PARTY TOUCHES

Because we celebrate Lincoln's and Washington's birthday in February, it's as good a month as any to be patriotic. Here are two dessert recipes, featured in February's Good Housekeeping, which will help give a party touch to your patriotism.

To make a Washington pie, here's what you do:

Fill four thin layers of cake with red jam. Place cutout of a hatchet on top; sprinkle entire top with confectioner's sugar; remove hatchet, and there you have it.

For Lincoln's Birthday, try making an ice cream log. Here are the directions:

1 pt. coffee ice cream in round container

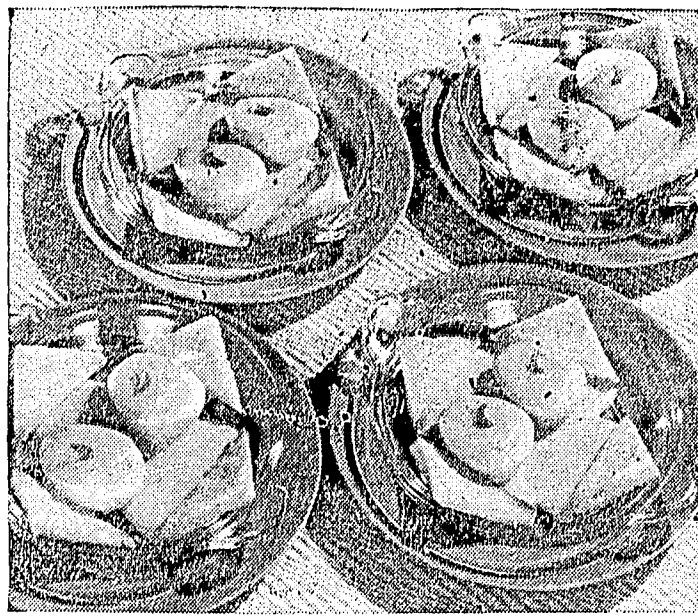

Unsweetened chocolate

Melted chocolate

After removing ice cream from container, shave the chocolate; roll ice cream in it. Set on plate; Cut out 3" deep wedge from top. Dip toothpick in melted chocolate, and make rings on top to resemble log. Makes 3 servings.

If you wish to use this same recipe for Washington's Birthday, place marshmallows, cherries, with stems, beside the log.

LENTEN EGG DELIGHT

Hard cooked eggs on toast served with nutritious cheese sauce make delectable Lenten use of these protective foods.

The cheese sauce is made with pasteurized process cheese food, which is mild flavored cheddar cheese with some of the milk nutrients normally lost in cheese-making restored to it. Cheese food is nourishing for children and adults alike, and a favorite in menu planning because it can be used as a spread, slices easily when chilled, and melts perfectly. In a sauce over hard-cooked eggs, it enhances taste, and contributes much to the food value of this attractive Lenten luncheon dish.

EGGS WITH CHEESE FOOD SAUCE

½ pound cheese food
¼ cup milk
Hard-cooked eggs

Crisp toast points
pimento

Melt the cheese food in the top of a double boiler. Add the milk gradually, stirring constantly until the sauce is smooth. For each portion, place two hard-cooked egg halves in an individual casserole. Cover the eggs with a generous amount of the hot cheese sauce. Arrange four crisp toast points around the edge of each casserole, and garnish the eggs with pimento cut in small fancy shapes.

Corsette Answers To Figure Problems

Winter's best corsetry news is for the woman with a 29-inch to 41-inch waist, and a resulting hip-line and abdomen figure problem.

For years, her only figure salvation has been a corset resembling a straight jacket, weighed down with buckles, boning and lacing, stiff and uncomfortable to wear.

With the arrival of powerful, lightweight nylon lastex and power net, however, boning has been practically eliminated. 1950 corsettes are as different from former styles as night from day.

One amazing new corsette trims the figure so effectively, even fashion's slender sheath dresses will pose no problem.

The secret is in the manipulation of perfectly balanced sections of powerful nylon lastex and nylon power net.

Underneath the dainty eyelet-embroidered nylon crepe front panel are two other hidden panels made of nylon crepe and power net. These panels pull in opposite directions, trimming the abdomen and holding it flat.

The corsette fits high enough in front to flatten any waistline bulge, then dips down in a back-line V for waistline freedom.

The only boning is used to hold a two-inch band of lastex that skirts the corsette top in back.

Side panels of nylon power net offer two-way hip-line control, and the back is made entirely of nylon satin lastex.

Fish Balls
6 or 7 medium sized potatoes
1 pint of finely picked salt fish (canned or packaged fish may be used)
2 eggs
1 tablespoon melted butter or butter substitute
Pepper to taste
Flour or cracker crumbs

Pare the potatoes and put in a kettle with salt fish on top.

Cover with boiling water and boil one-half hour. Drain and mash together potatoes, fish, slightly beaten eggs, butter and pepper to season. (If liked, a little grated onion is good.) Beat all together until light and cool slightly. Make into balls and roll well in flour or cracker crumbs. Fry golden brown in very hot (355°F.) fat. (Do not crowd when frying. Be sure fat is thoroughly heated.) This makes fourteen small balls.

When canned or packaged fish are used in this recipe, add the fish directly to the hot, drained potatoes and mash together with seasonings until light.

Maple-Nut Bread Pudding
3 eggs, beaten
¾ cup maple syrup
¾ cup milk
½ cup chopped walnuts or pecans

Dash salt

2½ cups toasted bread cubes

Combine beaten eggs, maple syrup, milk, walnuts, salt and toasted bread cubes. Pour into a greased 1½ quart casserole set in a shallow pan of hot water. Bake in a moderate oven (350°F.) for one hour. Serve with whipped cream.

Yield: 6 servings

State Cherry Pie Baking Contest Is February 12-13

If many Michigan farm folks eating in restaurants these days do not order cherry pie for dessert, here's the reason.

More than a thousand teen-age girls have probably been filling their families to the throat with the delicacy while practicing for the state cherry pie baking contest. It's to be held in Grand Rapids, February 12 and 13.

Neighborhood and county contests have been held to select county entrants from nearly 60 of Michigan's counties. Some counties have had as many as 50 entries.

Mrs. Corinne Ketchum, assistant State 4-H leader at Michigan State college and member of the committee, thinks this will be the largest contest in history.

The contest is sponsored by the cherry processors and growers and the State Cherry Commission, who offer expenses to the state contest for all county winners and prizes for the first three in the state contest. The state winner also gets a trip to Chicago to compete on February 22 in the national contest.

Educational trips at Grand Rapids are planned for the contestants, too. Winners will be announced at a luncheon, Tuesday noon, February 13.

Girls must be between 15 and 21 years of age and winner of a county contest to compete for the state honor. Their method of preparation and quality of the pie will count 80 points on the final score. The other 20 points will be scored on poise, posture, grooming and ability to express herself in telling how she bakes her pie.

Mrs. Elmer Otis

Mr. and Mrs. Bernard Otis attended a card party Saturday evening at the home of Mr. and Mrs. Frank Everett of Wheatfield.

Mr. and Mrs. Fred Quantan and Charlotte of Rives were Sunday dinner guests of Mr. and Mrs. B. E. Otis.

George Lantz will leave for the army the middle of February.

Mrs. Elmer Otis is at Okemos this week at the home of her son-in-law and daughter, Mr. and Mrs. Arthur McFarren. Phyllis McFarren has returned to her school and Mrs. McFarren is improving.

Robert Cortis, Edward Hyatt, C. B. Hyatt, Junior Sineman and Bernard Otis attended Farmers' Week at Michigan State college Wednesday.

Word has been received from Mrs. James Robertson of California of the death of her husband, James Robertson. Mrs. Robertson was formerly Ida Otis, sister of E. C. Otis.

You can get more light from your lamps if you clean them correctly. When you have brushed the shade and washed the reflector, don't quit. If finished, Michigan State college home economists advise that you take out the light bulbs and wipe them with a soapy cloth. Bulbs get dirty, too, and that dirt cheats you out of some of your light.

Farmer Peck's Wife

Little orphan pig gets best of care.
Lapeer editor offers advice free.

Dishes should be put where they belong.

Why not end Farm Bureau meetings earlier?

I never thought I'd be making a pig's formula, did you? Yes, we still have our pet. We named him Curly Tail as he had the prettiest little curl in his tail but alas, all good things, even tails, come to an end. In spite of getting better care than some human babies receive he got sick and I along with him, almost. Guess it was the super care as we figure I gave him too much cod liver oil which acted like mineral oil with him. When he was a week old he weighed four and a half pounds and was a little roly-poly with a wrinkle in his skin. Now he looks terrible and I wish some morning when I get up he would be out of his misery.

I've tried everything and yesterday Pete went to Elsie and stopped at Dr. Lannon's (veterinarian) to see what to give him. He came home with several pig formulas and here's the one Curly Tail is on. (Don't reach into our refrigerator for a jug of milk without reading the labels first. The one on the right says, "For Pig.")

For a week-old pig take two quarts of milk, 2 oz. cream, white of an egg and 4 teaspoons of lime water.

Every year during my childhood I raised from one to a whole litter of pigs (once) but had to wait until I grew up to find out something about the career of pig-raising. We always thought that a sow's milk was like a cow's skim milk so were very careful to skim off all the cream. No wonder Dad said it didn't pay to raise a pig and a runt. We were starving or starving it.

Pig milk is many times richer than cow's milk and a pig needs cream added. It still might not pay to raise one at that!

Boy Myers of Lapeer sent us the suggestion that we try a little more shot for a sow with no milk. Thanks, Bob, glad you sent this idea and Pete says he will call the vet if another comes in dry.

Sally says when you are in another room and Curly Tail is teasing to be fed he sounds almost like a real baby. It has given us a little sample of what it will be like when we do get that baby brother.

Well, dinner was the usual thing with Susy spilling a glass of milk. I wonder if we'll ever get through a meal without spilling something! I cut Dad's meat. Since that encounter with a corn husker several years ago it's hard for him to manage that and many other things with ease. Then dinner was over and Susy and Sally played with their box of treasures we keep under Dad's bed. Dad and Pete visited and I did dishes. As I dried them I kept thinking of how Mother always said, "Let me put them away and then I'll know where they are."

She was so particular about where each dish went and didn't want anyone fussing at finding the right place for each platter or bowl. I used to wish she were that way about the washing part so maybe we wouldn't have to do that either. Now I find myself wanting to put my dishes away by myself and know what she meant. All those years before I had a cupboard of my own!

I sang as I did up the kitchen

just as we used to do. I'm no singer but it sounds joyful and how it can perk up. Dad came to the door after a few songs and I don't know what he thought. Maybe it sounded good to be like old times again. He stood there looking so lonely and puzzled too that I wanted to reach out and hug him with my soapy hands and all I didn't as I didn't want to spoil that moment for both of us.

As I banged the door shut on the last dish I wasn't sad anymore. Do you try singing yourself out of your blues? Try it sometime and you'll find it a pleasant accompaniment to many an unpleasant task. And your children will be delighted. That is until they acquire a better sense of tone and tune. Anyway we sing. By rights I should be done for this week but I'm so full of a lot of things to tell you that I can't stop now. My notes keep piling up until I have a tablet full of what I consider good material for this column and it never gets used. I don't have enough space. That same Bob Myers who sent us the sow suggestion is also one of those Lapeer Press Myers and I think he'd like me to cut this shorter. Didn't he know you can't stop a woman when she once starts talking? Of course he or any of the other editors can because they can just quit setting type. By the way, a typesetting machine is too expensive for most husbands to buy or operate.

Say, I found that five dollar check and where do you suppose it was? It was folded up and in my billfold where it should have been. The most obvious place for a check and I never looked there!

Phoebe is tearing up the paper in the bottom of her cage. Does that mean she wants to start a nest? We haven't decided whether we are going to get a father bird or not. This family isn't exactly in need of any more pets. We got Phoebe a bath tub that fits on the side of her cage. Quite a gadget and I wonder what they'll think up next.

We went to a very interesting Farm Bureau meeting at the hall last week. The debating team from Elsie was there and talked about the Brannan plan and security and a great many plans for this security. It was something to hear if we didn't agree with what they said. I consoled myself with the thought as others there must must have felt it was all for the sake of debate and not all of their ideas would ever be tried. Or will they?

Andrew Cobb who is the new representative in the State Legislature is a member of our Farm Bureau group and spoke on what had been in progress so far.

Mr. Morris, county president, gave remarks about things of interest to Clinton county Farm Bureau Members. Yes, it was a good meeting but why can't we get home before midnight. . . . when you've got little youngsters it isn't easy to go when we always get home so late.

Today I went to Gratiot county to a Farm Bureau Women's doings. I never saw any prettier tables nor all kinds of salads, pies, cakes and delicious food. I had such a good time, finally saw that Lola Godley who has been writing to me. The little Lake girl who sang, the recreation were all fine and I came home thrilled with the day. Eleanor went with me and next week I will tell you about a couple of stops or visits we made on the way home.

Consumers Power Improvement Program Reaches \$1,800,000

Consumers Power company's Lansing division will spend more than \$1,800,000 during 1951 on construction projects in this area, Division Manager W. R. Carlyon has announced.

Of this sum, more than \$800,000 will go toward enlarging and improving the electric transmission and distribution systems, and more than \$1,000,000 will be spent in the gas department on projects which will improve service in the operating area.

The division's budget for construction is part of the \$48,000,000 general construction program which Consumers will conduct throughout its Michigan service area this year.

Carlyon said major electric department projects in the division will include construction of new substations at Bath and Ronald. The Bath substation will connect via seven miles of 44,000 volt line to the Delhi-Meridian power line and the Ronald substation will be connected to the Jonia-Belding power line via five miles of 44,000-volt line.

In the gas department, the construction program calls for the installation of more than 40 miles of mains, including 20 miles of mains replacing worn or inadequate pipes, and the construction of six new gas regulator stations to further improve service in the entire division.

These important stations will be built in Lansing at Cavanaugh road and Donald, Sycamore and Olds, Saginaw and Fairview and Waverly road and Moores River Drive, and in Mason and near Williamston, at Mt. Hope and Boston boulevards.

On addition, Consumers will modernize 11 existing regulator stations at various locations to conform to the company's present construction policy.

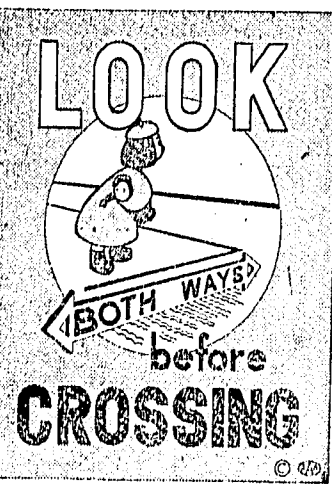

Carlyon estimated that the Lansing division will add more than 600 electric customers in 1951, and at least 1,200 new gas customers. He said service improvements in the gas department will directly affect about 1,700 customers.

Although pyramids have always been thought in connection with Egypt, there are actually more of them in Mexico, built by the Incas and the Aztecs.

Davis Provides Deer Meat for Legion Members

Joy O. Davis is supplying the meat for the annual venison dinner of Browne-Cavender post 148, American Legion. The veterans will hold their feast at the Legion Memorial building next Thursday night at seven o'clock.

Commander Ralph Strope, Maurice and Cleo Bailey, Ed Sheldon and LeRoy Saclens will help Davis prepare and serve the venison. It will be cooked Freeland style. Strope announced. The menu will also include pan gravy, mashed potatoes, tossed salad, creamed sweet corn, biscuits and coffee, Strope said.

After the dinner, a motion picture sponsored by the American Horse Breeders association will be shown. A program of games is also planned, the committee announced.

The dinner is stag. Commander Strope announced. All members are expected to bring veterans who are eligible for membership, he added.

A costume loan service in Oakland, California, makes children's day dreams almost come true. Sponsored by the city's recreation department, this unique service rents seven thousand costumes each year to churches, schools, play-grounds and other non-profit organizations. As reported in Good Housekeeping magazine, a small fee covering laundering costs is all that's needed to transform a little girl into a fairy princess, or a boy into a knight in armor.

Ranch Wife Ponders Life in Fox Theatre Comedy Show

A spacious frontier drama, "Wagonmaster," which recreates a little known chapter in the history of Utah, stars Ben Johnson, Joanne Dru, Harry Carey, Jr., and Ward Bond. The film is scheduled to appear at the Fox on Saturday.

Filmed by Producers John Ford and Merian C. Cooper along the actual locale of the story, the picture deals with the struggle of a band of Mormon pioneers to establish a colony in a distant part of the then wild and unsettled Territory. Aware of the dangers ahead, the leaders of the party hire a pair of young frontiersmen to guide them and their wagons to their destination. They face successive crises when they encounter a traveling medicine show, a bandit gang and a suspicious Navajo tribe.

Johnson and Carey are seen as the guides, Miss Dru as a dancer with the medicine show, and Bond as a peppy elder of the Mormon colony. Charles Kemper, Alan Morley and Jane Darwell head the supporting cast of the offering, which was directed by John Ford. Four songs with western motifs, composed by Stan Jones, are introduced.

Freddie Taken West Irene Dunne and Fred MacMurray co-star in "Never a Dull Moment," current RKO Radio comedy based on Kay Swift's novel, "Who Could Ask for Anything More?"

The comedy will be the Sunday and Monday feature at the Fox Theatre.

"Never a Dull Moment" chronicles the topsy-turvy heart throbs of a beautiful New York song-

Judge Sentences Four to Prison

Judge Louis E. Coash sentenced four men to prison and one to the county jail Friday afternoon.

James C. Brewer, 30, went back to Jackson prison to serve from 2½ to 4 years for wielding a knife. He has served time before and was on probation when he did the knifing. He was also \$100 in arrears on costs on a previous offense.

Ronald Harold Sawyer and Ford Brannan, 16, were sentenced to Jackson prison with the recommendation that they be assigned to the Cassidy Lake camp. They have served time at the Boys Vocational school. They were convicted of driving away a car without authority. Both were sentenced to 1½ to 5 years.

Emerson Hugh Chingman, 25, on parole from Jackson prison on a car theft, went back after getting caught again. He now has 1½ to 5 years to do on the new conviction.

Watson C. Lewis, 41, was placed on two years probation with the first 30 days to be served in the county jail. He wrote checks without funds. Lewis must also make restitution of \$625 at the rate of \$25 per month and pay \$100 costs at the rate of \$10 per month. If he writes any more checks without money in the bank to cover he'll do straight time, the judge warned Lewis.

George Marshall directed the RKO picture, which has William Demarest, Andy Devine, Gigi Perreau, Natalie Wood and Philip Ober in featured roles. The feature is being shown at the Fox on Sunday and Monday.

writer who marries a rodeo performer she has met at a charity performance. Transplanted to her husband's western ranch, this sophisticated Manhattan lass finds life utterly rugged, bewildering and—ultimately—delightful.

Her efforts to adapt herself to the ways of the rural life into which she has been transplanted, and to make a home for her husband and his two suspicious children, lead to ludicrous situations. Serious elements are added by the enmity of a neighboring rancher and the determined efforts of a former admirer of the wife to lure her away from her rough-riding husband and back to the familiar life of New York.

Aiding in the fun are William Demarest, as the grouchy neighbor, Andy Devine, as a foreman, Gigi Perreau and Natalie Wood as the children, and Philip Ober as the would-be reinstated suitor. Miss Dunne sings two songs during the course of the picture, "Once You Find Your Guy," and "The Man with the Big Fat Hat," both written by Kay Swift.

Ingham Is Mentally Starving

That gnawing feeling in the mind is a symptom of mental starvation. Mrs. Loretta D. Ryan has discovered it in epidemic proportions among Ingham residents. Mrs. Ryan, a state librarian.

Unlike some diagnosticians, Dr. Ryan also has the remedy. It's (you guessed it) more state aid.

"In these days of uncertainty," Mrs. Ryan goes on to say, "it is necessary for libraries to furnish food for the mind, good books that serve the need of all residents; practical books of how to do and what to do, as well as books of faith and hope. Unless an adjustment is made in the state grants to public libraries Ingham county will continue on its starvation diet."

Ingham county may be short on books, especially those that nourish the mind, but a second grade arithmetic book ought to prove to Mrs. Ryan that Ingham county will have more money for books if state aid to libraries is abandoned.

Ingham county operates its library system on a budget of \$36,000. The state library grant in this county is \$3,600. That's

an even 10 per cent. Into the fund for state library grants Ingham taxpayers probably pay \$6,000. After Ingham takes out \$3,600 there's another \$2,400 of Ingham money paid to some other county. If there were no state grants to libraries Ingham would have more money for books.

The state can't buy books any cheaper than Ingham county. Our Miss Alta Parks can read just as well as the state's Mrs. Ryan and here in Ingham we believe Miss Parks has just as good taste in literature as anyone on the state library staff.

Ingham people take pride in their library. They don't ask or don't want the state to pay for their books or for their librarians, especially when the state has to get its aid from Ingham people first.

This is a county library we have. It should be kept a county library. And that means the county should control it, and pay for it and operate it without state aid and without state dictation.

Mental starvation, Mrs. Ryan says. Maybe she means mental indigestion brought on by doses of state aid.

Little Hoover Report Has Value in a Few Respects

By Vernon J. Brown
Installation No. III

Let it be charged that this series of articles is completely devoted to a condemnation of the so-called "Little Hoover Report" and its text and ridicule of its authors, let it be said there are many good things to be found in it.

Several inefficient operations due to certain twists in the language of the statutes have been known for some time. In many instances the matter has been called to the attention of the legislature. From time to time the changes have been made as requested by department heads. In other instances the legislature must go on, knowing of the inefficiency or wasted time and effort, but helpless because of the way the law reads.

Then, too, this report calls attention to a duplication of bookkeeping equipment and the fact that some of it is standby equipment required to serve during

breakdowns and peak load periods. Here again it is a well known fact that considerable might be saved were licensing deadlines and tax-paying deadlines staggered over the months rather than all falling due at the same date. All this requires legislative attention and to this extent the report may serve a good purpose.

Under the old sales tax administration act, it was provided that the ex-officio members of the board act as an appeal board for aggrieved taxpayers. Because of the political implications surrounding the operations of the old board, a lot of appeals came in. When the new act was adopted, an independent appeal board was provided. It is made up of a lawyer as chairman, a certified public accountant as one of the members and another citizen.

Little Work to Do

For the first year or two while the new department of revenue was getting started a sufficient number of appeals was heard to keep the board busy. Later as policies became more settled and acceptable and better understood, the appeals fell off until the members of this board now enjoy more pay for less work than any other spot in the state government. Very properly the report points to this situation. The board should be abolished and its duties transferred elsewhere or the members should be paid on a per diem basis.

Another short-sighted procedure is pointed to in the matter of state insurance. The experts report that \$61,000 was paid out by the state in a single year for premiums on surety bonds required of state employees handling public money. The report charges that during the past eight years the amounts recovered by the state from the insurance companies for default among employees has averaged only \$2,000 a year.

What the experts have spoken of is but a drop in the bucket when all the expense of surety bonds is counted in and all the recoveries set alongside.

Public Pays Cost

Every highway and road contract and every construction award for public buildings carries with it a requirement for surety bonds and in every instance the cost of this is counted in the bid on which the contract is awarded. That means the public pays that. This is also true on every county, every township, every city, every school district. It's big business and the same public pays it all.

Other states smaller but smarter than Michigan have set up their own surety systems, paying into a fund to be invested in good securities the same amounts they otherwise would pay to a private corporation. Soon the fund is large enough to absorb any probable loss and thereafter no money in lieu of premiums is required.

The experts say a fly speck and called it to attention. What they did not see is a mountain of expense which could well be saved

They're All Willing

All federal employees in Mason recognize the savings which could be made if their agencies occupied the same suite of offices. They all recognize the saving in time which would accrue to farmers which have to do business with the various agencies.

Now the extension service is on the second floor of the court house. So is the farm forester's office. The Farmers Home Administration occupies offices over Howlett's implement store. On the first floor of the Dart building at the southeast corner of Ash and Jefferson is the PMA office. Up a flight is the Ingham soil conservation district offices.

All these agencies work together. There are farmers who deal with all of them. In all the offices are stenographers and clerks. All the offices have to be heated and lighted. All of them need janitor service.

On the corner of Ash and Park streets is the post-office. A wing could well be built to the east, or a second story could be built to house all the federal agencies serving the farmers.

All the federal agencies except the postoffice are adjuncts of the U. S. department of agriculture. Local agency executives realize that overlapping and duplication can hardly be avoided under the present separate program of operations. They recognize that the overhead in management could be sharply reduced if all agencies were under one roof and perhaps under one program.

Federal controls are probably going to be with us for many years. This is just as good a time as any for a consolidation of agencies. They're all willing.

A Needed Reform

Rep. Lawrence Lindemer is offering the people of Michigan a needed reform.

Now the prison gates for murderers swing both ways. Prisoners are hardly behind the bars before they are being given new hearings and new trials.

In the last two years the governor has commuted the life terms of 22 murderers. He said they had atoned for their crimes. So they were let out.

How are the two Vicksburg murderers ever going to atone for the rape-slaying of Carolyn Drown?

Lindemer's bill will do away with the present right given lifers to lay their pleas before the parole board after serving 10 years. Lindemer would extend the time to 18 years. In the cases of lifers serving time for murder, there could be no freedom for at least 30 years.

Another clause is even more important. It would call for unanimity on the parole board before any prisoner could be released.

Lindemer logically points out that it takes the unanimous decision of 12 jurors to convict a man. If it takes a unanimous decision of 12 to send a man to prison it seems only fair to the public that the four members of the parole board should have to be unanimous in their decision to let the man out.

To accommodate a Detroit judge, the parole board freed a convict last year. In the records of the parole board is a statement that at least one member was positive the convict would continue a career of crime. He did. He killed a man in Detroit and another one or two in Saginaw. Under the present law that convict, if he had escaped the bullets of a Saginaw cop, could come up for parole again in 10 years.

Lindemer's bill offers the people of Michigan a needed reform. It merits serious consideration by the legislature.

It's the County Building

The Community Clearing House should find other quarters than the corridor of the court house for storing of garments. Some of the supervisors don't like providing the Clearing House with quarters even though county officials recognize the good done under the program.

After all, the court house is a county building and the county is under no obligation to Mason or the townships of Vevay, Alaledon and Ingham to provide storage.

Why not store the garments in the city hall?

Down by the SYCAMORE

Vests for men are going out. For years the wearing of vests has been declining although men went right on paying for them when they bought their suits. Now many of the manufacturers don't make vests except on special orders.

I never could see the sense of putting on a clean shirt and a fancy tie and then covering them both up with a vest.

Remember back in the teens when vests came out with white facings?

Another article of men's apparel which has almost disappeared from the scene is spats. Fifteen years ago many men would have almost as lief been caught without a shirt as without spats. The only pair of spats I have seen this winter was at the Republican county convention. They were on a Lansing delegate who was boasting that he had voted the ticket straight since 1896. The spats, though were bought in 1924 after he had voted for Cal Coolidge, the delegate declared. He intends to trot them out again at the Zack Chandler banquet next week.

Argyle socks have helped chase spats out.

Watch fobs and arm bands and fancy garters have all but disappeared from the scene. So have high dress shoes. I wonder what the buttonhook makers are doing these days. I had a special need for a buttonhook Sunday to tighten laces of skating shoes. Neither of my daughters had ever seen one.

Roberta Rice is one of the brightest girls in the sixth grade. She also has one of the best appetites. At the Presbyterian pancake supper last week she devoured nine big cakes along with a plentiful supply of maple syrup and sausage. She confided that on the previous Sunday morning she had consumed 12 pancakes, just three less than her father Al who had got up before breakfast that morning.

That week of sub-zero weather was just like a letter from home for Mrs. Ed Ferris. She was born and raised in Minnesota. When the mercury gets above zero she begins to sweat, or maybe perspire would be a better word for such a comely woman.

Last week's cold was the first real winter weather Miss Alice Chapin had experienced in 30 years. For 30 years she had been a teacher in Los Angeles. She thoroughly enjoyed the invigorating cold and the beautiful snow. One day she searched through her library at the Eden homestead to find Whitlitt's Snowhowl. She sat by the fire and read again the beautiful thoughts.

John L. Leighton has gained fame as a Democratic leader and a lawyer. He is also probably the best figure skater in the Ingham Bar association. There are a few lawyers who can make figure eights but Leighton can spell out entire legal phrases on the ice. I first saw him on skates Sunday afternoon at the college ice palace. He was spelling out tort and crossing both t's and ending with a period. I marveled at his grace.

"You ain't seen nothin' yet," he asserted in illegal language. He then spelled out hubbub corpus and nunc pro tunc right there on the ice. Not only was the skating done with the utmost grace but he spelled all the words right. A real proof.

My daughter Margaret, and Roslyn and Ruth Carl and Maureen Straight had coaxed me out on the ice. Penny Clipper, Sue Haase, Patty Adams and Sue Mills did the coaxing for Dick Mills. It was his first appearance on ice in 30 years. He did real well, most people thought.

At a recent banquet in Lansing I was at a table with two couples from Scottville. They spoke highly of Prof. Richard Demlow. He was high school principal there before coming to Mason last year. He maintained the best discipline at Scottville of any man there before or since, the Scottville residents said.

It was in January of 1921, not 1920, that the Mason school burned

down, declared John Eames, Jr. He credits his graduation to the burning. All the scholastic records were destroyed.

Painters are learning how to do finger-painting. The Korean war has shut off the supply of boar bristles. Bristles for the best brushes come only from wild boars in North China and Siberia. Maybe the plucking of the bristles is one thing that makes the boars wild. It takes a boar six or seven years to grow whiskers long enough to suit Leo Haynes, Tom Belt, Herb and Bob Colby, Joe Johnson and other painters. Boar bristles are hollow and they split in the end. That's why they hold paint so well.

Nylon manufacturers have been working on ersatz bristles but haven't matched the elastic boar whiskers, painters say. The latest nylon trick is to crimp the imitation bristles so they'll hold paint better. Today a No. 1 boar-bristle brush costs around \$20 which would buy a lot of Burma-shave. Brushes made from Squirrel tails and badger and bear hair come a lot cheaper.

Mason youngsters had fun Monday sliding down the 42 steps leading from the school playground down to Park street. The latest nylon trick is to crimp the imitation bristles so they'll hold paint better. Today a No. 1 boar-bristle brush costs around \$20 which would buy a lot of Burma-shave. Brushes made from Squirrel tails and badger and bear hair come a lot cheaper.

"It hurts a little coming down but you feel so good when you reach the bottom," a little girl told me.

Book Talk

from
Ingham County Library

Hours open to the public at the Hall Memorial Library, Mason: Daily 2-5 p. m.; Monday, Wednesday, Saturday, 7-9 a. m.; Saturday, 12-2 p. m. During school year, Tuesday, Friday, noon. STORY HOUR, Saturday, 10 a. m. LEWIS CARROLL'S LAST JEPHERSONIAN by Frank Woodford, is a book for all Michigan folks to read. History of his family, which influenced him, goes back as far as the Revolutionary period. The War of 1812, the weakness of General Hull, Cass' own rise to a place of respect and influence, and the beginnings of Michigan as the great agricultural and industrial state that it is, are all portrayed here in an interesting, as well as factual manner.

Sea stories seem to be gaining a bit in interest here these past few years. Although we've been able to understand why there was not a great deal of interest in stories of the sea in this part of the state and country, we've still been a bit surprised that there wasn't a little more than there was. "TALL SHIPS TO CATHAY" is the story of the Low family of Salem, Massachusetts, and New York City. They were situated by interest and period in history when the clipper ships became a necessity, when fortunes could be made in a few years by very young men by trade with China. The family is a fascinating one, full of fun, romance, great feeling for each other. Those who deplore the condition of the younger generation, their inability to do what their ancestors did at their age, will probably like a quotation we have taken from the book—it is a place of controversy, but it does explain some things about our modern times—"The now lost art of fatherhood, the incessant, watchful guidance of each generation during its apprenticeship to the older one, has a great part in the rapid development of the New World. Every man brought up his own sons and also any young men who happened to be close to him."

CANDY FOR BREAKFAST is a light story by Gwen Davenport, author of the Mr. Belvedere series of book and movie fame. It would have been more effective a few years ago, for that was the period of the very, very modern school of thought which taught that the child, and all his desires, were more important than anything. This is the story of what happened to a community when they hired a superintendent who tried to follow these ideas.

Other Savings Possible

There are other savings which could be made were the recommendations of the experts to be followed. But at least in one field, that of duplicating accounting equipment, this cannot be done until the state is provided with a structure where all state agencies can be housed at least in the same neighborhood.

While they remain scattered all over Lansing and its environs, the time loss in carting documents back and forth to a central accounting room would more than offset any possible savings.

There is another field mentioned by the experts as fertile for better production at less cost. That is in the field of licensing for state regulatory boards. This too has been before succeeding legislatures since the early forties.

By regulatory boards is meant such boards as that of the barbers, cosmetologists, chiropractors, accountants, architects, chiropractors, optometrists, plumbers, pharmacists, funeral directors, nurses, dentists, osteopaths along with doctors and lawyers and several other professions and crafts.

All Have Offices

Each of these boards holds examinations, each issues licenses. Each has an office somewhere with someone in charge. Most of them have too little business during the average day or week to justify the cost. All could be housed together with a single office staff and office facilities. Each could have its own files and records. In turn all could use a common hearing or examination room. Each in turn could use modern devices for turning out their respective annual licenses all of standard size and form.

Of course it must be admitted that all these boards live off fees collected from among their own craftsmen and practitioners, but these fees could be less if joint use of common facilities were made. But try and get these various groups together. Several bills have been introduced but not one ever got to the floor of either the house or senate for a vote.

So it goes. Michigan is not perfect in its governmental functions. Neither is it altogether bad. The experts have spotted some of the weaknesses and for this they should be given credit.

(This is the third of a series of articles on state government by Vernon J. Brown. The final article will appear next week.)

Michigan is a good place to grow peppermint and a small patch can provide many interesting food touches. Michigan State college home economists say the leaves alone are used and tea with peppermint is a favorite drink.

Mrs. Grace Eberly Marks Birthday

Mrs. Grace Eberly celebrated her 75th birthday anniversary at her home on Shoeman road last Sunday. She is the widow of the late Steve Eberly, and has been a resident of Williamston township all her life.

She and her brother, Joe Gullet, are the only remaining children of the late Mr. and Mrs. George Gullet, who were pioneer residents of Williamston.

A buffet dinner with a large birthday cake was served the many guests by her daughter, Mrs. C. J. Reese of Grosse Pointe Park, and Mr. and Mrs. Lloyd Eberly of Locke, assisted by Mrs. Joe Gullet. Two other sons, Lynn at home and Mr. and Mrs. J. Rolland Eberly and sons of Muskegon were also present.

Other guests were present from Lansing, Muskegon, Grand Lake, Haslett, Williamston and Perry. The honored guest received many gifts.

Lenten Services Planned

The Williamston Community Methodist church is planning special services for the Lenten season which begins February 8. On Thursday, February 15, the father and son banquet will be held, with Dr. Hill of Michigan State college as speaker. A special service is scheduled for each Thursday evening with a different speaker each week. On February 22 the Rev. Ira Cargo will speak; on March 1, Rev. Weldon Johnson; March 8, Rev. S. B. Wenger; and March 15, Rev. Harry Lord. Communion service will be held March 22 with Good Friday services on March 23, Sunday, March 25, is Easter.

Mrs. Edgar Webber, who lives on High street, fell in her kitchen last Friday, sustaining a broken hip. She was taken to the Sparrow hospital in Lansing.

Mrs. Selridge Honored

Mrs. Anna Babbitt and Mrs. Catherine Pringle were co-hostesses at the former's home Thursday evening, January 25, at a stork shower for Mrs. Frieda Selridge. There were 40 women and children present. Refreshments were served the guests by the hostesses.

India Is P. T. A. Topic

Williamston P. T. A. met in the high school gym Monday evening, January 29. The regular business meeting was held and Mrs. Stewart Wright, guest speaker, spoke on India and about Gandhi and his work. She showed slides concerning her work with the American Friends Service committee which did relief work throughout India. The next meeting will be held Monday, February 26, at the high

school gym. This will be a potluck dinner to honor the Scouts of Williamston. Slides will be shown of Valley Forge.

Study Club Has Meeting

The Junior Child Study club members met at the home of June Rutan Thursday evening. After a short business meeting Elinor Traver introduced Harold Smith of the Boys Vocational school who gave a talk on "Trends in Education." Mr. Smith gave several case histories of his boys and showed how trends really follow needs and what the needs seem to be. Following this the hostess, assisted by Maxine Blossy and Glendora Bixby, served refreshments.

Six Attend Convention

Dr. Charles Black, Mrs. Celestia Hunt, D. Howard Gensline, Harry Johnson, Earl Leeman and Peter Bappert attended the spring convention of the Ingham county Republicans at Mason last Monday evening. The Williamston delegates chose Dr. Black and Mrs. Hunt as delegates to the state convention in Detroit, February 17.

Telephone Instruments Installed

Two workmen began Monday morning to install new telephone instruments for the Michigan Associated Telephone company in the Williamston exchange. These phones will not be in use until after the cut-over to the new board, but they must be installed in advance for readiness for the cut-over. The four-position common battery switchboard which is designated for Williamston is being adapted to the Williamston exchange by workmen from the Muskegon plant of the company.

Mr. and Mrs. Dave Penner, Mrs. Prudence Bowman and Mrs. Arthur Warner of Lansing were in Williamston Wednesday visiting.

Mrs. Julia Chamberlain has been confined to her home by sickness for the past two weeks.

Robert B. Ketchum Taken Suddenly While on Fire Run

Robert B. Ketchum, died suddenly of a heart attack while driving the pumper truck to a farm fire on M-47 Monday morning, January 29.

He was born in Owosso on December 16, 1887, the son of Theodore N. and Della Ketchum. He was united in marriage to Nina Wagner of Three Rivers on July 17, 1911.

During his early life, he worked for some years as a fireman for the Western Union Telegraph company, helping to build the lines throughout the eastern and middle western states. For some years he worked for the Pere Marquette Railroad company as a brakeman and conductor on the freight run between Grand Rapids and Detroit. He left this to work for the Copper Range Railroad company at Houghton.

Following the famed copper strike in 1913 when work was at a stand still, he began work as a locomotive engineer at the Atlas Powder Plant at Dollar Bay, a subsidiary of the Dupont powder plants. During this time he served Houghton county as deputy sheriff.

After the death of his father, whose home was in Fowlerville, he moved to Plymouth, and again worked for the Pere Marquette Railroad as a switchman in the Plymouth yards until a bad train collision rendered him unfit for further train service. At the same time after his day's railroad work was done, having one of the few motorcycles there, he worked with the group of the first state police, who at that time were under Captain Scarvado, with the first barracks at Plymouth, as a special police officer for traffic.

After his recovery from the accident, he moved his family to Williamston in 1921 where he again worked at telephone work for Frank Morris as repairman and lineman. Later he drove the bus between Howell and Lansing for Lloyd Hunt. He worked 11 years for the Bell Telephone company in Lansing. He worked for the state highway department as special messenger during the administration of Governor Grosbeck, for whom he was special dispatch bearer.

For the past 11 years he and his son have operated a seasonal greenhouse in the rear of the family home.

For many years he was an active member of the Williamston volunteer fire department, serving as assistant fire chief, under Chief Wilbur Smith. The fire department was his greatest interest, and he took exceptional pride in its welfare. He was a member of the Brotherhood of Railroad Trainmen, Lodge No. 180 of Grand Rapids, having continuous membership for 33 years.

He is survived by the widow, Nina; a son, William Ketchum of Williamston; two grandchildren, Neil and Sharie Lee Ketchum; a brother, Burt Ketchum of Goshen, Indiana; a sister, Mrs. Mary Herron of Jackson; and other relatives and friends.

Services were held Wednesday afternoon at two o'clock from the Gorsline Brothers funeral home with Rev. Horace James of the Methodist church officiating. Burial was in the Summit cemetery.

Members of the Williamston fire department served as pallbearers. Wilbur Smith, Albert Weiss, Harley Beach, Lewis Legel, Rudy Lange and Kirt Hunt were the active pallbearers and honorary pallbearers were Colin Hayward, George Bachman, Edward Sweeney, Everett Wickman, Harold Hayner, Robert Wood, Floyd Gale and Ralph Bartlett. Representatives from all the fire departments of Ingham county, and the Albert Volunteer Firemen's association, with Fire Chief Hugh F. Fisher, and State Fire Marshal Earl J. Miller, attended the services and acted as an honorary escort to the cemetery.

Low Temperatures Recorded Last Monday evening the mercury hit the lowest point on record here for many years. Local readings were from 16 to 18 below zero.

The Senior Child Study club will hold a baked goods sale at Wygant and Sons Market, Saturday, February 10.

Mrs. Mark Crawford of Traverse City is spending some time with her daughter and son-in-law, Mr. and Mrs. W. T. Cromley.

Mrs. Mattie Brown and Mrs. Blanche Miller of Lansing visited friends here Monday evening.

Dr. and Mrs. Owen Henderson of Birmingham visited Mrs. Robert Ketchum Wednesday afternoon and evening, and were also dinner guests of Mrs. Hendren's sister, Mrs. Ray Gorsline in Lansing.

Mrs. Josephine Lamb of Lake City and Mrs. Edna Mattson of Eaton Rapids spent several days with the former's sister, Mrs. Jack Ingersol. The two women were attending Farmer's Week at the Michigan State college.

Mr. and Mrs. Richard Hagerman of Ann Arbor spent Sunday with their mother, Mrs. Bess Hagerman.

Mr. and Mrs. Ervin Sober expected to leave this week for Florida. If Mr. Sober was sufficiently recovered from a recent illness.

The Williamston Fire Department met Friday evening at the City Hall. Kirt Hunt was selected to act as Assistant Fire Chief. Plans were made for the Firemen's visitation the evening of February 14, which will be held at the G. A. R. hall over the library.

On Sunday afternoon the firemen were called to the trailer home of G. W. Marble on South Zimmer road. The fire, caused from oil overflowing in the heating stove, destroyed the trailer and contents.

TEST ROAD FOR TRUCKS—U. S. highway engineers recently subjected a section of a heavily traveled state highway in Maryland to extensive tests in an effort to determine whether trucks damage the nation's roads. At left, an engineer measures a "typical crack pattern" caused by the multi-axled behemoths. After the equivalent of 98,000 trucks rumbled over the concrete test stretch, measurements (right) indicated the road had sunk almost three inches below its original level. As a result, highway officials recommended a maximum axle weight limit of 18,000 pounds for the cargo carriers.

Good Management Needed in Chick Brooding Method

Techniques of "cold room" brooding attracted many poultrymen during Farmers' Week, held recently at Michigan State college, when J. M. Moore, extension poultry specialist, explained this method of handling birds.

"Cold room" brooding is brooding by electricity, he pointed out. It means that there must be sufficient heat under the brooder, but that there will still be a greater difference between the temperature under the brooder and the rest of the room.

Outlining advantages, Moore advised that five hazards are reduced and less labor is required since it is automatic, provided electric power is constant.

Faster feathering takes place in "cold room" brooding than when temperatures are too constant throughout the entire room, Moore says. This will also result in less cannibalism and better growth.

Good management must be followed or defects will creep in, the

poultryman told the visiting farmers.

Some people try to conserve electricity by not maintaining high enough temperature under the brooder to start the chicks. This causes crowding, mortality and reduced growth.

Some operators leave feed and water outside the brooder. Because it is so cold outside the brooder, chicks will not get feed and water. Poor health and starvation result.

Wet litter can develop under the brooder due to condensation of moisture unless a "build-up" or deep litter is used.

"Cold room" brooding is finding increased favor with poultrymen through the state, Moore says, and it offers a number of good features that operators may wish to investigate.

Grant Grower Is Onion King

Peter L. Brink, 31, who farms in the muck soil area near Grant, is Michigan's 1950 onion king. He raised 1030 bushels of onions on an acre of land to win the award made annually at Farmers' Week by the Pennsylvania railroad.

Dr. Paul Harmer, muck soil extension specialist at Michigan State college, made the award at the annual muck soil banquet at noon today at the college.

Brink farms in partnership with his mother, Mrs. Peter Brink, Sr., and his sister, Miss Mildred Brink, under the name of the Brink Muck Farms. He attended the muck soil short course at Michigan State college in 1949.

The speed of moving vehicles may now be accurately determined by a new device used in cars parked off main roads and highways.

By-Products Add To Profits When Home-Butchering

Farmers can add a financial gain to their home butchering by saving dressing by-products for sale. L. J. Bratner, meat specialist for the Michigan State college animal husbandry department, reports.

By-products from a 900 pound steer will approximate \$30.00, he states. Save and sell the hide or pelt, killing fats, and bones to the hide dealer and the rendering company.

Insure good quality meat by sanitary dressing, quick cooling of carcasses and elimination of excessive aging or ripening. The meat authority advises farmers. Seven to 10 days is long enough to age beef and lamb at 34 to 40 degrees Fahrenheit, provided that it is of choice grade or higher. For the lower grades, four or five days is long enough.

Much loss in trimming and weight and poorer flavor after storage in the freezer are likely to result if the lower grades are over-aged.

In cutting and packaging meat, all excess fat should be trimmed for sale or soap making.

On the subject of preparing meats for the freezer, Bratner says good wrapping materials should be used, such as moisture-vapor proof cellophanes, aluminum foils, or laminates. If in doubt, buy paper produced by a well-known or reputable firm. If you plan to store the meat longer than two months, waxed locker paper is not recommended.

Do not plan to store beef and lamb longer than six months, veal and pork not longer than four months. Longer storage may result in off flavors, caused by rancidity.

For best results, the freezer should be maintained at zero or lower.

Ewes Bring \$100 At College Sale

If you're wondering about the price of your next wool suit here's something to think about. The average price that farmers paid for 78 breeding ewes at the Farmers' Week bred ewe auction was more than \$100 a head. A ewe will shear approximately 10 pounds of wool. Of course, there's the lamb crop to consider, but the farmer who pays \$100 for a ewe is taking quite a gamble on returns.

Delmar LaVoi, LaGrange, Mo., who returned to East Lansing where he formerly served on the animal husbandry staff to judge the sheep show, apparently liked what the Michigan sheep breeders had to offer. He paid \$200 to Delmont Chapman, South Rockwood, for a Hampshire ewe and \$150 to Gertrude Hamstra, Clare, for another Hampshire ewe to take back to his Missouri farm. They will be added to his breeding flock.

Another high price was paid by Peter Spike, Clinton, Route 1. This 4-H club had bid \$175 for a Corriedale owned by N. K. and C. W. Kiser, Montgomery, Ohio. But Spike saved \$17.50, getting the customary 10 per cent discount Michigan sheep breeders give 4-H club and F. F. A. youth to encourage them in the sheep raising projects. His animal cost him but \$157.50—still a pretty good price for a sheep.

Ingham Angus Steer Tops Bidding

Although he didn't live long enough to gain much pleasure from it, this Black Angus steer had the satisfaction of topping the auction at Farmer's Week. The bid was \$2.5c for the 1,130-pound entry of the Grand River Stock Farm of Webberville. Dr. J. J. Hendren of Webberville is the owner of the farm. Shown with the steer in the picture is Alex Lyons, farm manager.

Dr. Hendren's Angus was judged best of 83 steers in the show. Second place went to a Hereford from the Jensen Hereford Farm at Milledgeville.

Judge Delmar LaVoi of LaGrange, Mo., gave the 1,130-pound black animal the nod over a blocky 970-pound Hereford shown by the Jensen Hereford Farm.

In addition to being the reserve champion, the Jensen Hereford

nosed out a stablemate to win the championship of the Hereford competition. With two entries, the Jensen farm had both the champion and reserve champion in the Hereford class.

Reserve championship honors in the Angus class went to a steer entered by Joe Wilkinson & Son, Perry. Last year they showed the grand champion of the show.

In Shorthorn competition, William Weisgerber, Ionia, showed the champion and Alton Crandall, Durand, the reserve champion.

A total of 83 steers entered in the annual contest, conducted annually by the Michigan State college extension service, made sufficient gains to enter the show. The Hendren steer that won the grand championship gained an average of 2.3 pounds a day over the 212-day feeding period.

Farmers Invited To Join Program

Southern Michigan farmers wishing to take part in the conservation department's farm-game restoration program next spring should apply before March 15.

Trees and shrubs for wildlife food and cover planting may be in short supply for late applicants, the department's game division cautions.

So far, 449 farm-game projects are scheduled for the spring planting season. Since the start of the joint habitat improvement program three years ago, 1,400 individual projects have been approved. Counties leading with most projects are Lapeer, 72; Lenawee, 70; and Ionia, 62. Others with over 50 farm projects are Barry, Montcalm, Allegan, Clinton, Ingham and Van Buren.

Plans for wildlife food and cover improvement fit in with routine farming operations. Cooperating farmers develop unused corners, fence rows and swales with such plantings as multiflora rose, other shrubs and pine seedlings. Recommended improvements in the farm landscape provide for undisturbed nesting cover for pheasants, rabbits and other small game.

Three Are Winners In Dairy Contest

Dairy honors won by Michigan 4-H club members during the past year have been announced by Vels Pearson, assistant state 4-H club leader at Michigan State college.

Betty Warren, Bay City, and Russell Rowe, Mason, were named the outstanding 4-H club girl and boy. They will represent Michigan in a national contest. Their records were judged along with many others in the state.

Bruce Russell, Fowlerville, and Rowe were the top winners in the efficient milk production contest sponsored by the National Dairy Products company. Both were awarded gold watches although Russell was ranked first.

Other honors in this contest included Roger Pritchett, Sandusky; Donald Pifer, Clayton; and Gene Taggett, Caro. All received cash awards.

Lott Herd Completes Holstein Herd Tests

Several registered Holsteins in the herd of Ray Lott & Son, Mason, have completed official production tests under herd improvement rules.

Highest producer among these was Mar-Jo-Lor Ormsby Lady Pictet with 597 pounds of butterfat and 16,459 pounds of milk made on two milkings daily in 304 days at the age of 6 years 4 months.

Another high producer was Mar-Jo-Lor Pictet Marie with 556 pounds of butterfat and 11,679 pounds milk testing 4.8% made on two milkings daily in 295 days at the age of 3 years 11 months.

Shearing School Offers Chance to Learn Farm Trade

With farm sheep flocks on the increase, it is expected more shearers will be needed. An opportunity to learn this trade will be offered by Michigan State college, February 19 through 22, according to Graydon Blank, Michigan State college sheep specialist.

The annual state sheep shearing school will be centered at the college livestock pavilion and features shearing, equipment, wool grading and sheep management.

The first two days, February 19 and 20, will be given over to instruction for beginners. E. S. Bartlett, of the Sunbeam Corp., will instruct, assisted by Lee Bell, Michigan State college shepherd, Paul Finnegan, manager of the Michigan Cooperative Wool Marketing association and college livestock specialists will also help with the program.

Activities begin at 10 a. m. on Monday and at 9 a. m. on all other days.

Wednesday, February 21, will be the professional shearers' day. The annual meeting of the Michigan Sheep Shearers' association will be held at that time.

Sheep from the college flocks, along with those from a number of nearby farms, will be used. Last year nearly 500 sheep were sheared in a similar school.

Blank emphasizes that the course is open to anyone interested in learning how to shear sheep.

The fee for one dollar registration fee will be charged for those enrolling for the beginners' course. Sleeping cots will be provided at the livestock pavilion.

Leslie Holsteins Lead Test Group

The Warren Childs herd of Holsteins at Leslie led the Ingham-West dairy herd improvement association for January. His herd of 22 registered and grade Holsteins averaged 47.7 pounds of fat from 1,371 pounds of milk, Bob Witte, the tester, reported.

Seventeen other herds in the association averaged more than 30 pounds. They were:

Charles J. Davis, 20 registered Holsteins, 40.1 pounds fat, 1119 pounds milk; Lloyd Wheeler, 20 registered and grade Jerseys, 40.5 pounds fat, 818 pounds milk; Paul C. Rowe, 21 registered and grade Holsteins, 39.8 pounds fat, 1108 pounds milk; Chellis P. Hall, 33 registered and grade Holsteins, 39.3 pounds fat, 1116 pounds milk; Howard J. Coy, 11 registered and grade Holsteins, 38.9 pounds fat, 1082 pounds milk; Harvey Covert & Son, 22 registered Holsteins, 38.5 pounds fat, 1066 pounds milk; Francis R. Platt, 28

registered Holsteins, 37.5 pounds fat, 1150 pounds milk; Mrs. Sarah Butler and Ray Evert, 20 registered Jerseys, 36.3 pounds fat, 886 pounds milk; Clyde Snow, Jr., & Son, 18 grade Jerseys, 36.2 pounds fat, 728 pounds milk;

Ralph H. Darling & Son, 34 registered Holsteins, 35.0 pounds fat, 1004 pounds milk; Carl Robb and Clair Brissette, 21 grade Holsteins and Guernseys, 34.6 pounds fat, 846 pounds milk; Carlyle C. Waltz, 27 registered and grade Holsteins, 33.9 pounds fat, 980 pounds milk; Homer Launstein, 14 registered and grade Jerseys, 33.3 pounds fat, 620 pounds milk;

C. A. Diehl & Sons, 30 registered and grade Holsteins, 32.2 pounds fat, 888 pounds milk; W. D. Byrum, 46 grade Holsteins, 31.6 pounds fat, 980 pounds milk; Harry Freshour & son, 23 registered Holsteins, 31.0 pounds fat, 832 pounds milk; and Harry Delaere, 24 registered Holsteins, 30.8 pounds fat, 869 pounds milk.

The two high cows in each age class were:

Five years and over, Paul C. Rowe, grade Holstein, 89.3 pounds fat, 2180 pounds milk; Ludell W. Cheney, registered Holstein, 78.8 pounds fat, 1970 pounds milk.

Over 4 and under 5—Harry Freshour & Son, registered Holstein, 78.2 pounds fat, 2060 pounds milk; Charles J. Davis, registered Holstein, 77.2 pounds fat, 1840 pounds milk.

Over 3 and under 4—C. A. Diehl & Sons, registered Holstein, 113.7

pounds fat, 2420 pounds milk; Warren Childs, grade Holstein, 72.1 pounds fat, 1850 pounds milk.

Two and under 3—Ludell W. Cheney, registered Holstein, 56.9 pounds fat, 1460 pounds milk; W. D. Byrum, registered Holstein, 53.7 pounds fat, 1310 pounds milk.

There were 609 cows from 27 herds tested during January. The association averaged 853 pounds of milk with 31.3 pounds of butterfat.

Demand for Trees Depletes Norways

Terrific demand for spring tree planting stock already has exhausted the conservation department's supply of all classes of red pine.

Less than a month ago, the department's forestry division announced that up to 15,000,000 red, jack and white pine seedlings and transplants would be available.

Ample amounts of stock which still can be ordered are two- and three-year-old jack and white pine seedlings and three-year-old white pine transplants.

Stock is distributed at cost for reforestation purposes only and may not be resold or otherwise used commercially.

TRACTOR POWER

to make the most of scarce manpower

You can do more crop work per day on the seat of the Model G Tractor . . . in three important ways:

1. Close, careful work . . . crops are always in clear view. Eliminates much hand work; reduces crop damage.
2. More crops perfectly matched by one tractor and its specialized tools. From 8-inch rows of small vegetables to widely spaced rows of field crops, nursery stock, fruits.
3. Wider variety of work in any given day. Five-minute tool change by one man. Hand or hydraulic lift.

Protect your work schedule against labor shortages. Let us know what your job requirements are and we will show you what the G-line will do for you.

THIS FARMING BUSINESS

BY CARL COLLIN

Southern Texas vegetable and citrus crops took another beating last week when temperatures dropped as low as 18 degrees. Frost had damaged crops in that section in early December. Lack of good rainfall since last May and shortage of irrigation water makes conditions even worse. Some areas have been unable to plant any vegetable crops for late winter or early spring harvest.

There's a short acreage of spring onions in some sections. Total shipments of winter vegetables from southern Texas may not be more than 60 per cent of last year's.

Onions are an important crop in the lower valley, hit hard by plunging temperatures a week ago.

They were covered by ice. Extent of damage hadn't been determined by the middle of last week. Estimates of loss might not be obtainable until warmer weather brings out damage to plants. However, preliminary reports indicate damage to Texas onion crop was considerable.

Michigan growers still holding 1950 crop onions will want to watch the Texas situation closely for a hint on how to handle their stored crops. A chance to do a good marketing job might be in the offing for Michigan onion growers.

Michigan apple growers who still have stocks of apples in storage face a pretty rough marketing situation. Marketing specialists and fruit brokers estimate close to half of last year's state apple crop is still in storage. That means about three million bushels are being held on farms or in commercial storage in Michigan.

Growers who held their apples beyond the time when they normally move at least part of their holdings now face competition from northwest and east where large supplies of good apples are being marketed. The northwest crop produced a lot of small apples this year. It's estimated there are 8,000 cars more there now than a year ago. These undersizes are hitting the market bagged in attractive packages and priced to move fast. Michigan growers not only have a promotional deal to buck but also a lowered price to compete with.

New York state has lots of fine "Macos" to sell. So competition for apple market will be rough. USDA bought over 445,000 bushels of fresh apples through January 20. Just how far the government will go with its apple purchase program is a question. But any way you look at it, there are lots of apples around for this time of year and they're mostly in growers' hands where a good many may stay.

Michigan hatcheries really turned out the chicks last fall. Each month, September through December, hatcherymen took off a record hatch. Above 1949's, Oliver Superior 15-hen grain drill, 1942 Case wire-tie baler (overhauled), 1949 Case 4-bar roller bearing side rake on rubber, 1949 Case field harvester with corn and hay heads, Smalley blower and 50 feet of pipe, power wagon unloader, 2 Colby wagons with steel top boxes, set of Stewart-Warner clippers, 30-gal. hot water heater (electric), concrete wash tanks, surge double-unit milking machine, milk cans, 1000 baskets of corn, some oats, Merl Williams, owner, Dan Linahan, auctioneer, Milt Jordan, clerk, Frank Pifer, cashier.

A relatively high hatch for January is in prospect. Strongest broiler prices are creating a demand for chicks. High consumer incomes, good red meat prices and heavy demands for pork and veal during the rest of this year have "pepped up" poultrymen's hopes for a good 1951 market.

Seven major commercial broiler areas set 16 per cent more chicks for broilers in 1950 than 1949. Total was almost 370 million chicks. These areas in 1949 produced about two-thirds of

YANKS YANK IN VAIN—These smooth operating GIs in Korea found that their slick job of milking this temperamental cow was wasted as medical authorities forbade the use of the milk. Reluctant Bossy proved to be a two-man task for the frustrated soldiers, with one Yank making with the sweet talk while the other tried to fill his all-purpose helmet.

A. & P. Launches Chicken Contest

Michigan farm youth already are checking broiler houses and roosters in preparation for competition in the 1951 state junior chicken-of-tomorrow contest.

William A. Aho, state contest chairman, said the first three counties to start arranging district programs leading to the state final were Oakland, Berrien and Muskegon. Aho, Michigan State college extension poultryman, added that a number of other counties are expected to enter before the April 1 deadline.

All farm youth in the state up to age 20 are eligible to compete for the top awards offered by A. & P. Food Stores, which also sponsors national and state contests for commercial poultrymen, and the Michigan Allied Poultry Industries, Inc.

Competition on the county level is conducted by 4-H club agents and final judging will be performed at the State 4-H club show.

Purpose of the contest is to produce better meat-type chickens in U. S. commercial broilers, midwest production not included.

Stabilization officials say food rationing may become necessary to make price and wage controls work. They have met in mind more than any other commodity. More than one billion pounds of meat have been stored in frozen food lockers, according to a well-informed source. This supply equals nation's needs for two weeks. USDA estimates home freezer units have increased to three million. In addition there are about 30 million refrigerators with compartments capable of storing some meat. Add this to five million lockers in freezer plants, and total freezer storage mounts up. If meat rationing comes, owners of food lockers might be required to declare amount of meat they have in storage. Then deductions could be made in their ration tickets.

Scientists at University of Illinois are setting up a two and a half ton spectrophotometer to study trace elements in the soil. They will be able to tell just which of the minor elements like copper and boron are missing from soil samples.

Butter production is off about 20 per cent, cheese production down about 10 per cent. Main reason is that people are buying more fluid milk, there's less milk for manufacture. Situation likely to continue through 1951 is consumer incomes stay high. Every indication is that high employment and income will continue.

Winter wheat in southwest needs moisture. Some snow fell along with plunging temperatures early last week. Weather Bureau says small grains need moisture over area from Iowa, Missouri, Oklahoma and Texas on west. Effect of sudden low temperatures last week hadn't been determined by week's end. Lack of moisture in top soil left root systems in vulnerable condition for cold spell.

If you've taken delivery of fertilizer or spraying materials, take good care of them... weed killers such as 2, 4-D should be stored where temperature will not go below freezing. There is evidence of injury from hard freezing.

Michigan doesn't produce very big per cent of total U. S. supply of minerals—only 1.5 per cent in 1949. But Michigan ranked first a producing calcium-magnesium chloride, gypsum and salt; second in bromine, iron ore, sand and gravel; third in magnesium compounds; fourth in stone; fifth in lead and Portland cement. Iron and copper accounted for 31 per cent of 1949 production valuation.

Passing a general store, a man noticed a sign in the window which read, "Everything sold by the yard." Thinking to play a joke on the shopkeeper, he entered and asked for a yard of milk. The merchant dipped his finger in a bottle of milk and drew a line a yard long on the counter. "Five cents please!" he said. "Alright," the man retorted, "just roll it up and I'll take it."

John Mattheisens Plan Open House
Open house will be held for Mr. and Mrs. John Mattheisens from two to five o'clock Sunday afternoon, February 18, at the I. O. O. F. hall. The occasion will be their 50th wedding anniversary. Friends and relatives of the couple are invited to attend.

Mr. and Mrs. Mattheisens were married February 20, 1901, at a Lutheran parsonage in Genoa township, Livingston county. They have two children, Leon Mattheisens of Lansing and Clifford Mattheisens of Bridgeport.

They have lived nine years at Nicholson, three years in Williamston and for the past 38 years they resided in Webberville and vicinity.

Mr. Mattheisens is a member of the Odd Fellow lodge and they are both members of the Rebekah lodge. They are also members of the Lutheran church of Fowlerville. Mrs. Mattheisens is also active in the Past Noble Grand club of Webberville.

Engagement Is Revealed
Mr. and Mrs. A. A. Deisler announce the engagement of their son, Richard, to Miss Mary Florence Duffel of Oakfield, Ohio. Mr. Deisler graduated from the Webberville high school in 1944. He is now attending Marian college. He is studying for the ministry and will graduate in June. Miss Duffel is now employed as an operator of the Midwest Paper and Envelope company of Marian.

Girl Scouts Have Party
The Webberville Brownies and Girl Scout troops held their second annual birthday party recently. Dinner was served to 106 guests by the committee members. Following this, fup services were conducted by the leaders. A program concluded the evening.

First Team Loses Game
The boys first team basketball lost to Byron, the girls and the boys second team won.

Father-Son Banquet Planned
The W. S. C. S. is sponsoring a father and son banquet at the church Monday, February 12, at seven o'clock. The dinner is \$1.00.

A paper prepared by Mrs. Rebecca Dennis on "John Field, Father of the Nocturne," was read and Mrs. Frederic Tamplin played a nocturne by Field on the piano. Mrs. Harrison Carter read a paper on Frederick Chopin and Mrs. George Mitchell played "Mazurka" by Chopin. Tea was served by the hostess. The next meeting will be with Mrs. Russell Baggerly on March 22.

Passengers in Car Injured

A car driven by Robert Troman skidded into the ditch near the crossing of Cooper and Fitchburg roads about 3:30 a. m. Sunday. Mr. and Mrs. Nelson Oman were injured. Mrs. Oman suffered a broken arm. Charles Greensley had one car badly cut and his neck hurt. They were treated in a Jackson hospital. Deputy Versile Babcock of Mason investigated the accident.

Boy Scouts to Celebrate

Leslie Boy Scout Troop 69 and Cub Pack 289 will celebrate Scout Week on Thursday night, February 8, at the Grange hall. Families and friends of Scouts are invited to attend the potluck supper at 7:00, taking their own table service and a dish to pass. A movie, "The Trail to Citizenship," will be shown. Several advancements and awards will be presented during the program.

Mr. and Mrs. Donald Dean Robinson are the parents of a daughter, Terra Lee, born Sunday, January 28, at Big Rapids. Mr. Robinson is attending Ferris institute college of pharmacy and plays in the clarinet section of the Ferris concert band. Mrs. Carl Robinson of 116 North Main street is helping care for her new granddaughter.

The Leslie Flower Shop has added a new department to its services. There are plaster models, figurines, lamps and novelty pieces with paints for decorating by home artists.

Hardly Troman is recovered sufficiently to be dressed part of the day. It will be several weeks before he is able to be working.

Winter wheat in southwest needs moisture. Some snow fell along with plunging temperatures early last week. Weather Bureau says small grains need moisture over area from Iowa, Missouri, Oklahoma and Texas on west. Effect of sudden low temperatures last week hadn't been determined by week's end. Lack of moisture in top soil left root systems in vulnerable condition for cold spell.

If you've taken delivery of fertilizer or spraying materials, take good care of them... weed killers such as 2, 4-D should be stored where temperature will not go below freezing. There is evidence of injury from hard freezing.

Michigan doesn't produce very big per cent of total U. S. supply of minerals—only 1.5 per cent in 1949. But Michigan ranked first a producing calcium-magnesium chloride, gypsum and salt; second in bromine, iron ore, sand and gravel; third in magnesium compounds; fourth in stone; fifth in lead and Portland cement. Iron and copper accounted for 31 per cent of 1949 production valuation.

Passing a general store, a man noticed a sign in the window which read, "Everything sold by the yard." Thinking to play a joke on the shopkeeper, he entered and asked for a yard of milk. The merchant dipped his finger in a bottle of milk and drew a line a yard long on the counter. "Five cents please!" he said. "Alright," the man retorted, "just roll it up and I'll take it."

Chemists have developed a new type of "solar" for the finish of cars which will protect them for months against fog, dew, sun and salt air.

tough Cops we like 'em!
BECAUSE THE OCCASIONAL VIOLATOR MAKES LIFE ROUGH FOR THE REST OF US
Michigan's recognized motor carriers are 100% for rigid enforcement of weight control laws... and for thorough regulation of driver conduct on the road. Regulation is good business for us because:
1. **We pay our full share.** Last year commercial vehicles paid state gasoline, weight, and other special taxes amounting to 2 1/2 times the state's bill for maintaining and repairing trunk highways. Lower road building and maintenance costs mean lower taxes... lower taxes mean lower freight costs... lower freight costs mean lower living costs for you.
2. **Safe truck drivers save money for everyone.** Insurance rates are based on accident rates. The more courteously our drivers treat the motoring public... the more carefully they treat our trucks... the lower our insurance costs fall. You benefit again through lower freight rates.
Dollars and cents... and good sense... say it's good business to encourage passage of sound laws for regulating highway traffic and to aid in rigid enforcement of these laws. Help yourself... help your fellow citizen... help us... by cooperating with your state and local police to stop the violator. And remember that 99 drivers in every hundred give you every courtesy of the road.
