Vol. 108, No. 17 3 Sections 28 Pages 677-9011 Wednesday, April 26, 1967 15¢ Per Copy

## Tornado Alert Procedure

The serious tornado threat experienced in Ingham county last Friday made everyone aware of how much they did or did not know about tornado safety rules and the alert system.

In Mason the fire siren and Wyeth's whistle will blow in a steady tone for at least 3 to 5 minutes. This means a tornado warning is in effect and to take cover.

If you are in open country move at right angles to the toanado's path and if there is no time to escape, lie flat in the nearest depression such as a ditch or ravine.

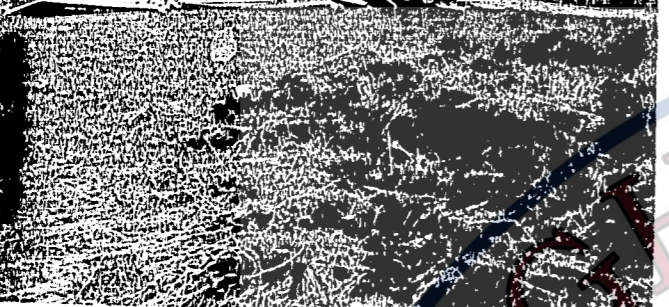

One in town should seek snelter inside a strongly reinforced building -- away from windows. In homes the southwest corner of the basement offers the greatest safety. Those without basements should find a storm cellar, ditch or ravine. Doors and windows on north and east sides of house may be opened to help reduce damage to building.

Children in reinforced school buildings should stay inside, away from windows and remain near an inside wall on the lower floors when possible. Avoid auditoriums and gymnasiums with large, poorly-supported roofs!

In rural schools which are not of reinforced construction the children should be moved to a ravine or ditch if storm shelter is not available.

Industrial plants should post a look out to advise of an approaching tornado. Advance preparation should be made for shutting off electrical circuits and fuel lines. Workers should be moved to sections of the plant offering the greatest protection.

When the danger is past, an all - clear signal will be issued. It is a one minute steady blast from the fire siren and Wyeth Laboratories whistle.

**WIND'S DAMAGE**--Tornadoes roared through the skies over the county Friday night and dipped down on Bunker road tipping over 2 trailers, flattening a garage and uprooting several trees in the area. The trailer belongs to Mr. and Mrs. Ronald Bedell, 4820 Bunker road, Mason.

## For Helping Hand Screening Committee Named by Auxiliary

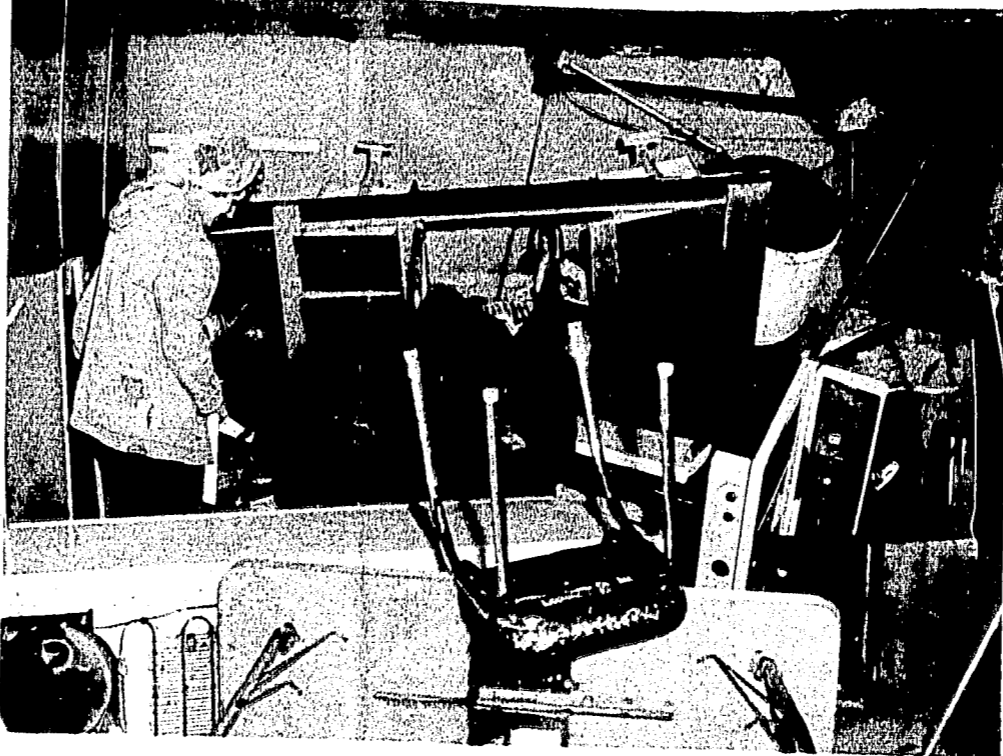

Work is progressing on the establishment of a Helping Hand program in Mason. Sponsored by the Mason Jaycee auxiliary, the Helping Hand project will designate specific homes in each city block where youngsters may seek emergency assistance.

A Helping Hands Week was approved by the Mason city council for the week of May 21-27. This week a screening committee was named to investigate potential Helping Hand homes relative to the character of the home and the

## First Caller Takes Canoe

Burton Nelson of 422 E. Columbia street, Mason, sold his 17-foot Grumman canoe on the first call using an Ingham County News classified ad.

It's too bad Nelson didn't have 100 canoes to sell--with fast action News classifieds, he could have sold them all.

An inside view of the Bedell trailer

## Mason Damage Minor

# Twisters Sweep Across Central Michigan Area

A rash of tornadoes ripped through Michigan and the Midwest leaving a trail of death, injury and destruction Friday night.

A Mason area father and his 3 children narrowly missed injury Friday when a tornado touched down in the area of Bunker road tipping the man's trailer on its side.

Ray Bedell and his children were moving into their new trailer adjacent to the Forrest Bedell home, 4858 Bunker road. Just minutes before the twister hit Bedell headed for the basement of his parent's home.

A second trailer belonging to Ronald Bedell was thrown on its top by the storm at 4820 Bunker road. Luckily the Ronald Bedell's were not at home during the storm. Across the street a garage belonging to Mrs. Freeda Bowen, 4821 Bunker road, was flattened.

Several isolated reports of storm damage were also recorded. Leon Zimmerman, 1291 Elfert road, had a large tool shed lifted off the ground and deposited in the form of scrap lumber in a nearby field.

The A.A. Howlett company on N. Cedar street, Mason, was also damaged by wind. Four of the plate glass windows were blown out in the storm.

David and Dorn Diehl of Dansville reported a pole barn belonging to them was crushed by the storm. Any number of trees, signs and television antennas fell victim to Friday's storm.

The Mason area was lucky to have no injuries due to the storm. As a precaution Mason fire trucks were dispatched to each section of town to insure all residents protection in case of disaster or fire.

Hardest hit sections in the Greater Lansing area were in Fowler and Westphalia in Clinton county.

Nine persons were injured and houses and barns were destroyed.

Other sections of the tri-county area of Ingham, Clinton and Eaton counties also were hit by heavy winds, but no great amount of damage resulted.

Several funnel shape clouds were reported in various parts of the area during the time when the tornado warning was announced early in the evening followed by a tornado watch

## Petitions Available For Board

Prospective candidates for the 2 Mason board of education vacancies have until May 13 to complete nominating petitions with 25 qualified voters' signatures each and submit petitions to the Mason superintendent of schools office.

So far there have been petitions requested for Robert Ware, board incumbent, and N. Richard Magel. Charles Brown has indicated he will not seek re-election to the school board.

Those wishing to become candidates may pick up petitions at the superintendent's office. Successful candidates will serve 4-year terms.

## Supervisors To Hear of New Budget

Ingham county supervisors will meet in Mason Thursday for the second session of the April meeting.

The big item of business will be the presentation of a proposed tentative county budget. The ways and means committee under Chairman Jack Patriarche of East Lansing, wound up the preliminary budget work this week.

Next step in the budget procedure will be a public hearing at the May meeting on the budget. At the May meeting to make recommendations will have an opportunity to do so at that time.

Also on tap for Thursday's meeting is the report of the county equalization committee.

Supervisors will also receive the county mental health budget news.

Chairman Robert Robinson, who was picked to head the county board 2 weeks ago will make his committee assignments known Thursday.

## Welcome to Michigan!

What a homecoming. Glen Coon spent the winter running his toes through the sands at Wakai in Hawaii and on the southern California beaches while the rest of us plodded through the record winter snows. Mr. and Mrs. Coon returned 2 weeks ago to Mason. It was just too soon, Coon is sporting a broken arm in a cast thanks to a slip on Monday's snow trace.

## 2 Educational Plants Seen in Holt - Mason

A site in the Holt-Mason areas may house 2 important educational facilities--a branch of the Lansing Community college and a service center of the Ingham Intermediate board of education, which is outgrowing its present quarters at 147 W. Maple street in Mason.

The Intermediate board has suggested that it join with the Community college in selecting 2 adjacent sites for the facilities.

No sites have been definitely selected as yet but both the college and the Intermediate board members have expressed a desire to cooperate in the plan.

The Ingham Intermediate board is more pressed for time in locating a spot for its service center, but the college is ready to go along with it in selecting adjacent areas for the college branch.

The 2 facilities would acquire approximately 100 to 150 acres, spokesmen for both the board and the college estimate.

## Treasurer Sets Special Hours

Harry Spenny, Ingham county treasurer, announces plans to keep his office at the court house open Saturday, April 29, from 8 a.m. to noon and Monday, May 1, from 6 a.m. to 9 p.m. for the purpose of collecting 1964 and prior years taxes.

This gives delinquent taxpayers added opportunity to pay their taxes before Tuesday, May 2, when properties will be sold.

night David Maddix (center) was presented with his Eagle award. Proud participants in the ceremonies were Gilson Pearsall, Huron District 7 chairman (left); Mrs. Maddix (back row, 1 to r) Jim Maddix, Jr., James Maddix, neighborhood commissioner; and Chris Maddix. Brothers Chris and Jim are also Eagle Scouts.

## David Maddix Receives Eagle Scouting Award

It's tradition now. David Maddix, 13 - year old son of Mr. and Mrs. James Maddix of Mason, followed in the foot steps of his 2 older brothers Tuesday night when he was invested with his Eagle Scout badge, scoutings highest award.

The Maddix brothers, Jim, Jr., Chris and David are the only 3 active Eagle Scouts in the Huron District Number 7 and possibly in the state.

Officialing at the Eagle Court of Honor staged Tuesday night at the Vevay township hall were Robert Schaeffer, Troop 62 committee chairman; Gilson Pearsall, Huron District 7 chairman and Mason Troop 62 founder some 28 years ago; Leland Austin, Explorer Post 362 advisor; Norman Parker, scoutmaster; and Jim Maddix, neighborhood commissioner.

The new Eagle Scout received his tenderfoot award at the National Boy Scout Jam-

booree, Valley Forge, Pennsylvania in 1964. Since then David has attended all troop campouts, summer camps and the Chief Okemos Aquatic school.

David is a member of the Order of the Arrow, a national honor camping society, and has received the Freedom Trail award, his Polar Bear award and the mile swim twice.

An 8th grader at the Mason Junior high school, David has passed junior Red Cross, first aid, junior Red Cross life-saving and the Red Cross small craft safety course.

This summer he plans to be one of the 8 scouts from Mason going to Philmont Scout ranch near Cimmaron, New Mexico.

**PRACTICE, PRACTICE**--Many Mason High school students are working hours upon hours to ready their presentation of "Lil' Abner" slated for May 4, 5 and 6 in the high school auditorium at 8 p.m. The musical production will feature soloists, chorus, dancers and an orchestra. Faculty directors include Mrs. June Oesterle, Miss Sue Mills and Warren Emrick. Buy your tickets early.

Mason Has The Best of It

We need doctors in Mason, Michigan. Most communities do. The difference is that in Mason we have more to offer. Hunting, fishing, swimming and all other outdoor sports are just out your front door...

SCHOOLS

Mason, lying near two of the nation's finest universities and their continuing education facilities is, of course, oriented to education. This is reflected in four elementary schools, two of them new...

CHURCHES

God is not really nearer in a small town. It just seems that way. Mason's 5,000 population supports nine churches. All major Protestant denominations are represented...

CULTURE

A person carries with him his own definition of culture, just as he does all the activities and pursuits of the modern man. Community, and at MSU and U-M and nearby Detroit there is a lot of culture to be had...

RECREATION

Fun, like beauty, is measured by the eye alone, but Mason truly has the best of it. The vacation wonders of Michigan are well known. We have three major parks, Little League baseball and football fields, eight tennis courts...

100 Ingham People Get May Jury Duty

Ingham circuit court officials drew a 100-person jury list last Friday for the May term of court. The May term will open on Monday, May 8, at the court rooms in Lansing...

MAY TERM 1967

List of Petit Jurors, drawn on the 20th day of April, A. D. 1967, pursuant to previous notice, to serve at the May Term of the Circuit Court for the County of Ingham for said year, to be SUMMONED to be in attendance on said Court at the Court Rooms in the City of Lansing on the First Monday of said term, to-wit: The 8th day of May at 10:00 o'clock in the forenoon:

- 1. William McCarthy ..... City of East Lansing

Starting then Sunday services will be at 10 a.m. instead of 11 a.m. and Wednesday meetings will start at 7:30 p.m. instead of 8 p.m. The public reading room at the church will be open Wednesday and Saturday from 2 to 4 p.m. instead of 3 to 4 p.m.

Ball Dunn FUNERAL HOME OVER 91 YEARS OF CONTINUOUS SERVICE

ERA GONE BY--This photograph was taken 65 years ago on a small farm located where the Mason Cedar street school is now. All of the farm buildings were on Columbia road and the farm home was on the corner of W. Maple and Cedar. The woman milking is Mrs. Samuel Reed, the grandmother of Mrs. Collins Huntington of Mason.

Looking Back at the Past

10 Years Ago--1957 Three new committee chairmen for the \$50,000 Mason hospital campaign, have been appointed by Howard F. Seibert, general chairman. They are Mrs. William E. Clark, Nels C. Ferris and Robert E. Ware.

daughter of Mr. and Mrs. Ralph S. Adams of Mason, who is majoring in speech at Alma College, was one of the winners in the Intercollegiate Speech association state tournament at Michigan State college last Saturday.

1st, was elected secretary of the Michigan division of the Florists' Telegraph Delivery association at a meeting in Lansing April 21.

30 Years Ago--1917 Rev. F. S. Harwood of Colgate university, Hamilton, New York, will speak at the Baptist church the next 2 Sundays. He comes here as a candidate for the pastorate.

30 Years Ago--1937 Governor Frank Murphy has appointed Howard Eliot of Delhi township as state parole officer to succeed the late Claude D. Aldrich.

20 Years Ago--1947 Miss Elizabeth Adams, daughter of Mr. and Mrs. Ralph S. Adams of Mason, who is majoring in speech at Alma College, was one of the winners in the Intercollegiate Speech association state tournament at Michigan State college last Saturday.

The Countryside

By Bill Lutz

Driving along a state road near my town this afternoon, I spotted a county truck parked just off the concrete. Two men were walking the ditch banks picking up the worst of the year's accumulation of discarded rubbish.

my small car. A little farther someone had discarded the household rubbish. Here were milk cartons and various cans, bottles, and boxes. On another road, the local citizenry had chosen a spot under a dead elm tree for a garbage dump.

I was informed at the office of the county road commission that it costs \$34 a mile to take care of the spring cleanup. Since the banks of our county roads are not mowed, they get little attention. Even so, the taxpayers spend \$9,000 a year on this annual ritual. The men assigned the job dislike it.

Rubbish from the roadside overflows into the bordering fields, forests, swamps and meadows to litter the landscape. Broken bottles lie in wait to slash rubber tires of farm tractors and implements. Animals of both farm and forest risk cut feet and imbedded glass with every step they take near a road.

After supper I stopped along a short stretch of a state road to see for myself. Here I found a big assortment of pop bottles and pop cans, beer bottles and beer cans. There was also a large piece of crushed automobile glass, paper of all kinds such as cigarette packages, cardboard boxes, paper bags, and of course an assortment of cellophane wrappers.

It appears that if we retain our present habits many of our county roads will soon be bordered by a rubbish mulch enriched here and there with a garbage compost. The highways are already glass lined.

Broken glass was everywhere. The late afternoon sun reflected off many small jagged bits on the gravel shoulder. Close inspection revealed a veritable carpet of glass, many of the pieces razor sharp. If a child walks along a county road barefooted, he runs the risk of cutting his feet to ribbons.

With every year more people travel the roads and have more rubbish to discard than the year before. It accumulates in rapidly increasing quantity. As a rain may begin with scattered drops so the scattered droppings of rubbish in the past are reaching storm-like proportions.

Right now I can't write at length about the Vietnam war, I hope to at a later date. To pick one of Mr. Herrick's most glaring errors, he writes at length about "democracy" and "freedom". When has South Vietnam even faintly resembled a democracy? When, under the swaggering militarist Ky, has it had even any hope of freedom? True, there have been elections, but it seems obvious that Ky is not going to allow them to upset his dictatorship.

These people gave of their time and interest to solve a problem before it became a crisis. Brochures for doctors are available and channels of communication have been created to contact a prospective doctor for our community.

Michigan Mirror

Prison Rehabilitation Program In Michigan Working Out Well

By Elmer E. White

Recognition of ability is theoretically the basis for appointments to public office. Frequently Gov. George Romney has been criticized, as have other governors, for leaning too heavily on political factors in his appointments.

Smith, a former chairman of the Public Service Commission and auditor general, was defeated last November in a bid for another term on the state supreme court. He lost to a Republican - supported Irishman whose name was better known in Wayne County. A Democrat, Smith took his loss gracefully.

In appointing Smith to the governing board of Michigan's 150-year-old university, Romney said, "The university and the entire state will benefit from the public service experience and the personal attributes he brings to his new responsibilities."

Michigan's freeways have been in use long enough for many motorists to take the high-speed convenience for granted. Many still drive in the left lane although the left lane should be used only for passing.

Understanding Your Health Beware of Clothing Not Flame Resistant By Albert E. Heustis, M.D.

I wish you had been present at a demonstration I witnessed just a few weeks ago. It was quite dramatic. Two dolls dressed in cotton flannel nightgowns were held so the gown hems were over a candle flame.

Records indicate that children and old people are the persons most often injured or killed by clothing fires -- probably because they are the least able to cope with the situation physically and mentally.

The Ingham county mobile X-ray unit will be stationed in front of the county court house April 26-28 from 4 to 8 p.m. each day. Entire families are urged to stop for a tuberculosis check-up. There will be free chest X-rays for everyone 21 and over and also tuberculin skin tests for children and adults.

A farm owned by Ralph H. and Lola L. Hall of 1844 E. M - 36, Pinckney, has been designated as a centennial farm by the Michigan Historical commission.

vehicle off the roadway onto the shoulder. If all or part of a traffic lane is blocked, some warning device should be placed: flares, flashing lights, lanterns or reflectors.

"This could make the pedestrian highly vulnerable to accidents or could cause a driver to suddenly swerve into the path of another auto," said Hill.

The opera "Faust," the Juilliard string quartet, balladeer-soldier Barry Sadler, the Concertgebouw orchestra of Amsterdam and the annual Water Carnival, are among the outstanding entertainment and cultural events for May on the Michigan State University campus.

Michigan's freeways have been in use long enough for many motorists to take the high-speed convenience for granted. Many still drive in the left lane although the left lane should be used only for passing.

The MSU concert band, under Professor Leonard Falcone, presents its spring concert at 4 p.m. Sunday, May 21, on the terrace of the Kresge Art center.

The Water Carnival theme is "A, B, C, Darian -- the building blocks of knowledge." The show, featuring colorful floats, built by fraternities, sororities, and other living units, is scheduled for 8 p.m. Friday and Saturday, May 19 and 20, on the Red Cedar river.

The MSU tennis courts south of the MSU stadium include Ohio State 3 p.m. Friday, May 5; Indiana at 3 p.m. Saturday, May 6 and Michigan at 1 p.m. Wednesday, May 10.

This helps in placing the volunteers where they will do the most good. The financial reward isn't very much in a monetary way for the Peace Corps worker but the reward of improving your personal self, making yourself a better person, and helping others, is of a great magnitude.

This helps in placing the volunteers where they will do the most good. The financial reward isn't very much in a monetary way for the Peace Corps worker but the reward of improving your personal self, making yourself a better person, and helping others, is of a great magnitude.

Peace Corps Project Worth Looking Into

By Douglas Dilday

Appreciation Expressed for Committee Work

I wish to take this opportunity to publicly express my appreciation to the members of the Medics for Mason Committee.

The following people served on the committee: Howard Siebert, Paul Richards, Dick Brown, Jeanette Dart, Dick Magel, Bill Backus, Jane Cairns, Dr. Cairns, Dr. Clinton, Bob Ricker, Delmar Kramer, Gil Pearsall, Ray Perkins, Glenn Dunn, and Harry Smith.

These people gave of their time and interest to solve a problem before it became a crisis. Brochures for doctors are available and channels of communication have been created to contact a prospective doctor for our community.

TB X-Ray Unit Here

The Ingham county mobile X-ray unit will be stationed in front of the county court house April 26-28 from 4 to 8 p.m. each day.

Entire families are urged to stop for a tuberculosis check-up. There will be free chest X-rays for everyone 21 and over and also tuberculin skin tests for children and adults.

We Get Letters

Condemns Viet War

I think you should go back to writing your editorials. The one by Mr. Herrick of Davison makes no sense. This is not to treat lightly the tragic death of his young townsman and that of 8000-odd other American boys. Those who volunteered were tragically misled; those who were drafted had no choice.

**PLEASANT TASK**--Mrs. Leon Cowdry of Mason enjoys experimenting with new recipes, especially those calling for buttermilk. She whips up cakes, biscuits, pancakes, cookies and many other things making use of powdered buttermilk.

## Mason Woman's Powdered Buttermilk Search Ends

There's nothing more exasperating for a woman than to read a recipe and then not be able to purchase the necessary ingredients for the new food idea.

This is exactly what happened to Mrs. Leon Cowdry of 1935 W. Lamb road, Mason. She saw a recipe calling for powdered buttermilk, which she wanted to try--but try as she would--no store could be found that handled the powdered milk.

The search continued for sometime until the determined Mrs. Cowdry finally wrote the magazine which printed the recipe and presented her dilemma. Soon after a letter came with an address where powdered buttermilk could be purchased--Seattle, Washington.

Determination pays off. Mrs. Cowdry interested members of her Aladon Center Extension group in ordering several pounds of the powdered milk from Washington.

Although this was inconvenient to order by mail, the women soon discovered it was well worth the effort. Any number of uses for powdered buttermilk were found.

In its powdered form, the milk was found to be very practical and economical.

According to Mrs. Cowdry it stores for an indefinite time and is easily substituted in a large number of recipes. Although she doesn't use the powdered buttermilk for drinking, Mrs. Cowdry uses it in every recipe which calls for buttermilk or sour milk. She adds required amount of powder with flour and uses water for liquid. For those who like to drink the milk she advises the powdered buttermilk be mixed up one day ahead of time and chilled.

About one year ago Mrs. Cowdry decided to get a local grocery to handle the powdered product. She had a friend who is a sister of a Lansing supermarket owner. The friend suggested maybe he would be the one to hear her request.

Bud Schmidt not only listened to the request, but also decided to stock the powdered buttermilk in his chain of grocery stores. Mrs. Cowdry had achieved her goal after 6 years.

Not only a good cook, Mrs. Cowdry keeps herself busy with Farm Bureau activities, Extension meetings, housework and helping her husband work their 160 acre farm. The Cowdrys have lived on the farm for 37 years, rebuilt their home and maintain 100 head of cattle.

Here are some of Mrs. Cowdry's favorite recipes calling for powdered buttermilk. (P.S. Her husband's favorites are on the buttermilk package for biscuits and pancakes.)

**BANANA NUT CAKE**  
Sift together into a bowl, 2-1/2 cups sifted cake flour, 1 and 2/3 cups sugar, 1-1/4 teaspoons baking powder, 1-1/4 teaspoons soda, 1 teaspoon salt, 4 tablespoons powdered buttermilk.

Then add: 2/3 cup shortening, 1/3 cup water, 1-1/4 cup mashed bananas (3).  
Beat with mixer on medium speed for 2 minutes. Add: 1/3 cup water, 2 large eggs, beat 2 minutes, more and then fold in 2/3 cup nuts. Bake in 2-9 inch round pans or one 13 x 9-1/2 x 2 at 350 degrees. Approximately 30 to 35 minutes for round pans and 45 minutes for oblong.

**OATMEAL COOKIES**  
3 cups flour  
6 tablespoons powdered buttermilk  
1 teaspoon soda  
2 tablespoons baking powder  
1 teaspoon salt  
1 teaspoon nutmeg  
1 teaspoon cinnamon  
1/2 teaspoon cloves  
2 cups sugar  
1 cup shortening  
1 egg  
1 cup water  
3 cups oatmeal  
1-1/2 cups raisins

Cream sugar and shortening, add egg and then dry ingredients and water alternately. Then add oatmeal and raisins. Drop by large teaspoonfuls on cookie sheet. Bake at 350 degrees 12 to 15 minutes according to size.

## Buying

By EILEEN BELL  
Extension Consumer Marketing Specialist

Crispy, green cabbage are coming into this area's vegetable displays. Runner-up to potatoes in popularity, each of us consumes an average of about 30 pounds of cabbage each year. Sometimes some comes camouflaged as saurkraut.

Raw cabbage rates high in vitamin C.  
Look for heads of cabbage which are heavy for their size and fresh looking. The greener the better in vitamins.

Salad vegetables look in nice quality and lower price lately. This is the season when "egg comes first." More eggs at lower cost than last year at this time remind us to increase nutrition and practice economy by filling the family with eggs now.

One pound of cheese is made from nine pounds of milk. Thus, cheese contains the fine nutrition found in milk, in concentrated form. Especially valuable for protein and calcium. Cheese will please in spring meals.

Time to think about fresh maple syrup.

Several grades of syrup are available, grade depending upon color. Light amber is the highest grade, Grade AA and mild in flavor. Medium grade, designated Grade A, has darker color and stronger maple flavor and cloudier than the best grade. Grade B, dark amber, usually goes into blends.

Gallon containers of maple syrup prove more economical than smaller sizes. Usually it is procured from the producer. Once opened, store the syrup in the refrigerator.

Onions prove tantalizing. They can lift a regular menu right out of the ordinary into the gourmet class. Local stores are piled high with onions now and it's time to rejoice that onions have such a natural affinity for all meats, poultry, fish, eggs, vegetables and salads. White onions cost more than yellow onions because they're more difficult to grow successfully. The yellow onions are more disease-resistant. Keep dry onions dry and cool and they're quite good keepers. This first cousin of the lily should be solid, dry, bright and shining when we buy it. And don't murder onions by over cooking. The strong, unpleasant odor comes the minute they're overcooked.

## Meat Inspection Aids Consumers

What does the round, purple stamp on meat or poultry mean to consumers?

The U. S. Department of Agriculture requires inspection of meat and poultry sold in interstate commerce. This service insures that inspected foods are wholesome and fit for human consumption reminds Mrs. Arvilla Cur-

tis, home economist with the Cooperative Extension Service in Eaton, Ingham, and Livingston counties.

USDA employees inspect sanitation, handling methods and the food products. And the round inspection mark is your assurance of wholesome meat and poultry products. The mark on meat reads,

"USDA Inspected and Passed." For poultry, "Inspected for Wholesomeness by U. S. Department of Agriculture."

Watch for this assurance of wholesomeness when shopping. Meats should also carry a USDA stamp when they've been graded for quality. In addition some pack-

ers and retail market chains have their own grades indicating tenderness and quality. These grades are in addition to the wholesomeness stamp.

What do you throw out when you need it and take in when you don't? An anchor.

## Golfers Set For Play

At a recent meeting, sponsored by Willow Creek Golf Course, a number of golfers and would be golfers signed up for league play as well as for lessons for beginners.

Richard Price, owner of Willow Creek, said that classes for beginners are still open and that interested persons can still join. He said a Wednesday night league is under way and that a Friday night league was organized at the meeting.

Price told those at the meeting that season tickets as well as ticket books for games at Willow Creek are available.

Those in attendance also were shown a film of last year's Buick Open gold tournament.

# Nutrition Problem, How To Solve It

It might cost as little as 24 cents a year to protect one child in the rice-consuming areas of the world from nutritional deficiency diseases which cripple and kill millions annually. Dr. E. E. Howe, director of nutrition, Merck Institute for Therapeutic Research, reported at Michigan State University's

food science symposium. The figure represents the cost of amino acids and vitamin concentrates needed to improve the quality of protein in the child's rice diet. Although protein malnutrition is commonly considered the world's most widespread nutritional deficiency disease, Dr. Howe said, the fault lies

in the quality, not the quantity, of protein consumed. For example, he said, an infant thrives on his mother's milk, 7 per cent of the caloric value of which is supplied by protein; however, if he weaned to a diet in which wheat predominates--the caloric content of wheat is about 14 per cent protein--the child

may sicken, even die of kwashiorkor, a disease common in the Far East, India, Africa, and other places where cereals and root crops are dietary staples and milk drinking is uncommon. Between 1.5 and 2 billion people now subsist largely on cereal grains. Approximately 100 million more have a diet

consisting predominately of cassava--from which tapioca is made--and other root crops. It is among these two groups, especially the latter, that kwashiorkor is most common. People whose diet includes animal protein in the form of meat or milk rarely, if ever, suffer protein deficiency ailments. However, Dr. Howe pointed out, rising population increases the pressure to ob-

tain the largest possible number of calories from every acre of farm land, and the calorie production per acre is far larger for cereals than for animal protein. The quality of a protein depends on its content of the essential amino acids, Dr. Howe said. The protein quality, or protein efficiency ratio, of all the basic cereal grains can be enhanced by fortifying the grain with small amounts

of lysine, an amino acid. Then it can be further bolstered--in the case of all grains but corn--by addition of the amino acid threonine. The secondary enhancement of corn requires another acid, tryptophan. Adding lysine alone, Dr. Howe said, would be enough to prevent the appearance of acute protein malnutrition. The cost of such supplementation in rice would be about

14 cents per child per year. Inexpensive, high-protein nutritional preparations such as fish flour and In-caparina have been developed to meet the needs for a higher quality protein, said Dr. Howe, but centuries-old dietary customs are hard to break. He explained that lysine can be added to any diet without changing its appearance or acceptability.

## Mason Senior Girls Are Honored by College Club

The Mason First Methodist church social rooms were the setting Monday evening, April 17, for the annual College club dessert party honoring the senior girls of Mason high school.

Mrs. Arnold Linden, president, welcomed the guests and asked each College club member to introduce herself and to give the name of her own college or university. A variety of desserts, permitting guests their choice, were brought to tables featuring the yellow rose which

is the chosen flower of the Mason high school class of 1967. Yellow napkins and nut-cups carried out the yellow and green class colors.

Mrs. Howard Thompson announced that the College club scholarship for 1967 would be awarded to Gloria Brown, daughter of Mr. and Mrs. Charles Brown. This award is given annually to help a girl defray part of the cost of her first year of education beyond high school.

Mrs. U.B. Shoemaker presented, as speaker for the evening, Joan Jewett, a graduate of Mason high school and now head of Joan Jewett Career school in Lansing.

Reminding the girls that now, more than ever, married women are engaging in careers outside their home, she challenged them to choose worthy goals for themselves and to set about achieving these goals by making full use of their abilities and resources, including a strong spiritual foundation.

College club members serving on committees for the evening included Mrs. Paul DeCess in charge of desserts, assisted by Mrs. Ray Yeutter, Mrs. Mary Gill, Mrs. Lowell Wilson and Mrs. DuWayne Howe.

Mrs. Larry Miller was decorations chairman, aided by Mrs. Shirley Curtis, Mrs. Joe Bullen and Mrs. David McDonald. Hostess chairman was Mrs. Gibbons Howlett, with Mrs. Vaughn Snook and Mrs. Vernon Elliott assisting.

A brief business meeting of the College club members followed the program. Their next meeting will be the annual "dinner out" on May 15.

## ★ Twisters

(Continued From Page A-1)

sighted. Others said 18 were counted.

Sirens giving warning that tornado clouds were in the area began to wail and moan in Lansing about 8:45 p.m.

A funnel shaped cloud passed over the southern portion of Lansing at Holmes road and S. Cedar street but did not touch down. Later there was a report of a house in the 4900 block of Aurelius road being hit and unroofed.

Other twister clouds were reported north of the Capital City Airport in Lansing, northeast of Haslett, near Perry in Shiawassee county, on Hagadorn road in East Lansing, at Bunker road and Aurelius road west of Mason, and in the vicinity of Dell road, Holt.

Damage was heavy in the Fowler-Westphalia area. Part of the roof on the Fowler high school was blown off and a motor sales building wrecked. Damaging winds left their imprint on about 15 homes. Northwest of Westphalia 2 houses were blown apart by the twister.

Clinton county sheriff deputies rescued a woman and her 3 children from the rubble of their home on Grange road.

An aluminum roof was blown off a hay shed near the dairy barns on the Michigan State university campus.

The storm roared over Holt but only one report of damage was made. The wind flattened a small sod house at the home of Miss Hilda Menger, 5570 W. Holt road about 9:10 p.m. when the storm was about at its greatest intensity.

It also damaged 3 barns and a shed in which a car was parked, but the car escaped damage. Two roof boards, eaves-troughing and shingles on the uprights at the front of the house were torn away.

"There was terrific noise all around," Miss Menger said.

Holt residents said they believed the wind was developed by the funnel cloud that later was spotted near Pottersville.

Portland and Sunfield in Ionia and Eaton counties also felt the brunt of the storm. A TRW plant in Portland was damaged slightly and a house northeast of Portland was moved on its foundation.

The village garage at Lake Odessa was flattened and several trucks and tractors were buried under the debris.

Two tornadoes ripped into an area at Wyoming, Grandville and East Grand Rapids in Kent county, injuring 29 persons and demolishing about 50 homes.

One death was reported from the storm in Michigan. That was in Hillsdale county where a wind-felled tree crashed through the top of a passing car and killed Miss Garry Ann Armor, 21 of Marietta, Ohio. The driver of the car, Miss Patricia Neapass, 39, was hospitalized with injuries.

The twisters that hit Michigan are believed to have been part of the family spawned in Illinois where death and destruction covered a wide area.

Twenty four persons were killed in Oak Lawn, a suburb on Chicago's south side, 20 in Belvidere, Illinois, a city of 13,000 inhabitants northwest of Chicago, one in Chicago, one in Stone park, another Chicago suburb, and one in Hillsdale county, Michigan.

Oak Lawn was the hardest hit. A big supermarket jammed with customers, was reduced to rubble. In Belvidere, 65 miles from Chicago, 9 of the victims were high school students who were just boarding school buses to go home when the tornado struck.

Buses were hurled about like straws. One bus was blown a mile from the school. Still others were flattened on the ground.

## 1904 Bank Check Found

Mrs. William Donaldson, 401 E. Maple street, Mason, was rummaging through an old dresser which she purchased at an auction sale and came upon a check for \$5.

The check was drawn on the Garfield Savings Bank no longer in existence and the check is valuable only for sentimental reasons.

Peter W. Webster and endorsed by him.

Just who Peter Webster is or was, Mrs. Donaldson doesn't know. She took the check to a Mason bank and was told the Garfield Savings Bank no longer is in existence and the check is valuable only for sentimental reasons.

## 2 County Girls Attend Confab

Eighty 4-H girls attended the annual Dairy Foods conference, April 23-25, at Michigan State university's Kellogg center.

Attending from this area were: Karen Thorburn, 3159 Willoughby road, Mason, and Margaret Parrott, 1300 Zimmerman road, Williamston.

The program was designed to teach the nutritive value of dairy products and to give the girls a better understanding of the dairy industry and its importance to Michigan. The primary purpose was to help the delegates to serve as resource persons in their home counties.

"Careers" was the theme of a presentation by Lee Murray, sponsored by the American Dairy association, Dr. Laurine Fitzgerald, assistant dean of students at Michigan State university spoke on "Philosophy for Your Future."

Dale Ball, director of the Michigan Department of Agriculture, spoke on the protective regulations and legislation in the dairy industry. Boyd Rice welcomed the participants. Rice is manager of the American Dairy association.

Stork Shower

Mrs. Herbert Southwick was hostess at a stork shower at her home Saturday evening for her niece, Mrs. Fred Comer of Saugatuck. Guests were present from Davison, Clio, Flint, Lansing and Holt. The evening's entertainment was bingo. A light lunch was served and the guest of honor received many baby gifts.

## Boy Scout Spaghetti Dinner Set

The annual spaghetti dinner, which is a jointly sponsored fund raising affair by Troop 98 Boy Scouts and Post 362 Explorers, will be staged on Tuesday, May 2, at the Methodist church from 5-7 p.m.

Once again this area will be treated to the gastronomical delight of real "old country" spaghetti by the Italian chef, Louis Beratta. Each year more people come from near and far to sample the cuisine.

This dinner is one of the main sources of revenue for these 2 Scout groups providing them with funds for summer camping trips and equipment.

This year Post 362 plans to travel to Isle Royal while Troop 98 will journey to Beaver Island.

Tickets for this event may be purchased at the church, if one of the boys misses you on their door - to - door sales campaign.

## Hears Park Plans Engagement Announced

Mrs. C. Jack Hubbard entertained the Eta Alpha chapter of Beta Sigma Phi for an evening meeting April 19.

Mrs. William Olsen conducted the business meeting, after which John Tom McCowan spoke to the group concerning the city of Mason's park and recreation program.

He told of the present facilities and outlined future plans, including the proposed Laylin park. Mrs. Ted VanderBoll assisted the hostess in serving dessert and coffee.

Members attending were Mrs. David Lambertson, Mrs. Richard Magel, Mrs. George Whyte, Jr., Mrs. Donald Swift, Mrs. Gary Nesbitt, Mrs. Gary Lamphere, Mrs. Robert Graham, Mrs. Kenneth Kalember, Mrs. William Husband and Mrs. Larry Abbott.

Mr. and Mrs. Victor B. Hill of Aurelius road, Onondaga announce the engagement of their daughter, Patricia May Hill to Richard Anthony Allingham, son of Mrs. Richard Allingham of Escanaba and the late Mr. Allingham.

The bride-elect, a 1963 graduate of Mason high school, is presently a senior at Michigan State university majoring in psychology. Upon completion of her education she plans a teaching career.

Her fiancé is a 1963 graduate of Escanaba high school, attended University of Michigan and is now a senior at Michigan State university where he is majoring in business management. The couple is planning a July 8 wedding.

## Education Association Has Meeting

WILLIAMSTON -- Members of the Ingham County Education association gathered at Williamston high school Tuesday night for their annual retirement banquet.

One feature of the gathering was the presentation by Alton J. Stroud of Mason, Ingham Intermediate school district

superintendent, of retirement buttons to 5 educators who will retire at the close of the present school year.

They are: Mrs. Helen Harris and Mrs. Arlene Fisher, both of the Webberville schools, and Mrs. Evelyn Kliever, Mrs. Garnet Chadderton of the Williamston schools, and Wren

Chadderton, who is superintendent of the Webberville schools, a position he has held for the past 12 years.

Speaker at the banquet was Mrs. Ronald Harvey of Kalamazoo, a free lance remedial reading instructor. She talked of remedial reading teaching techniques.

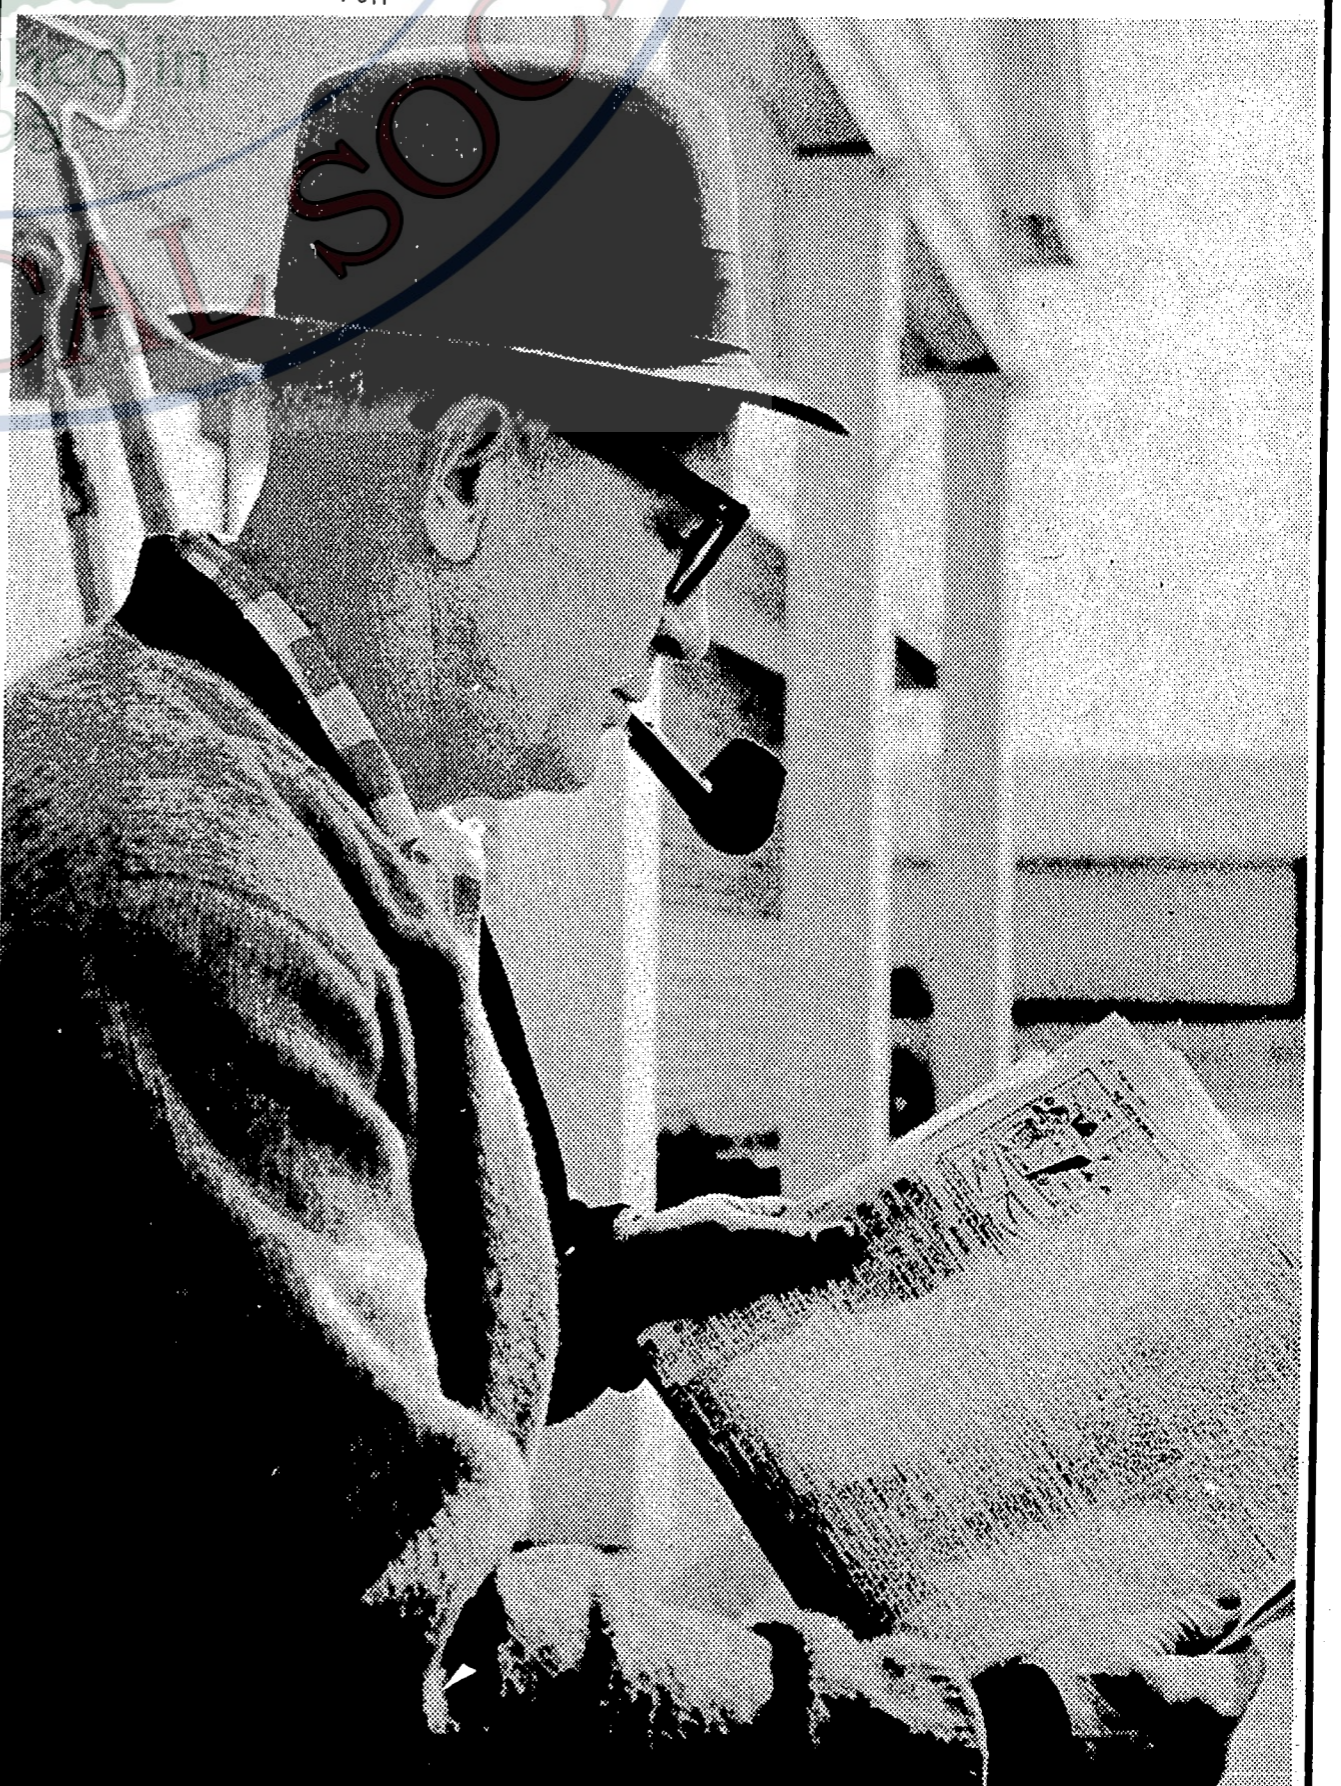

If your want ad is in  
The Ingham County News  
people are reading it today!

Somewhere a man will be giving his front lawn its Spring conditioning treatment when the paper boy comes by. He will already have realized that the old muscles softened up during the winter, and his copy of the Journal will give him a welcomed opportunity to take a breather before finishing his work.

Sitting down on the front steps, he lights his pipe and turns to the Want Ad pages of the paper. Why the Want Ads first? Because he has in mind that there is a certain item he wants to buy, and he knows that he can find it offered in the Want Ads. It may be a better power mower, a car for his son's graduation, or outdoor furniture for his patio.

He is just one of thousands who will see your ad when it appears in the Journal Want Ad pages. That is why you can count on quick results. People who read Want Ads are looking for something.

To place your low cost, hard working Want Ad, use the convenience of your telephone and call 677-9011

## State Holstein Joins Ranks with Top Cows

A registered Holstein cow owned by J.F. Hackney of Durand, has entered the select circle of national and state leaders on Dairy Herd Improvement Registry test. Holstein-Friesian Association of America reports that Locust Breeze Leo Joy 5601277, has completed the 4th highest official national milk record made by a Senior 3-year-old milked 2 times daily in the 305-day division of the DHIR program. Her

official 305-day production totaled 26,750 lbs. of milk and 870 lbs. of butterfat. This record also breaks a previous all-time state milk record for Holsteins in this same age group, milking frequency, and division.

"Joy" was bred in the herd of Frank Ruggles of Milford. She was sired by Locust Breeze Lorelei Leo 1376427. At the head of this national age group in milk for the 305-day division on a twice daily

milking schedule is Beaurest Wiscap Beauty 5610395, a registered Holstein cow owned by Dan Hollingsworth of San Jacinto, California. "Beauty's" 305-day record totaled 30,700 lbs. of milk and 993 lbs. of butterfat.

Production sampling, weighing and testing operations were supervised by Michigan State university in cooperation with the national Holstein organization.

These new records were made under the rules of Dairy Herd Improvement Registry. One of 2 herd testing programs conducted by the Holstein association. This and the Herd Improvement Registry testing program have a combined enrollment of over 132,000 Registered Holstein cows in nearly 2,900 herds.

### Big Business

Agriculture is the second largest source of income in Michigan's economy with a cash farm income of about \$800 million per year and a retail value of the same products exceeding \$2 billion.

The county farm advisor warns that all seed should be inoculated with the proper strain of bacteria before soybean plants will manufacture most of their own nitrogen supply. This is insurance at a very low cost.

## Recommended Rates Of Soybean Seeding

The amount of soybean seed to be planted an acre depends entirely on the width of the rows. R.C. Lott, chapter county extension agricultural agent gives these examples:

28-inch row -- 60 pounds an acre  
21-inch rows -- 85 pounds an acre  
Solid planting -- 120 pounds an acre

He suggests these rates may be adjusted upward or downward depending on the seed size for the variety.

For example, Chippewa 64 seed is smaller than that of Harosoy 63, so the pounds per acre would be different for these two varieties. Basically you need about 12 seeds per foot of row in 21 - inch and wider row spacing.

Lott says a desirable plant stand would be 10 plants per foot of row. Heavier planting rates than those listed usually result in more plant lodging and seldom gives higher yields per acre.

Getting optimum stands of plants with these seeding rates is dependent on the use of high quality seed. Certified seed is recognized as being the best. If uncertified seed is used be sure to obtain a germination test and plant seed which germinates 85 percent or higher. Planting in run or poorly screened seed leads to irregular plant stand.

Seed lots which contain more than a small percentage of seeds with cracked seed coats are likely to give undesirable plant stands. A carefully run germination test will probably indicate seed quality so far as mechanical condition is concerned.

The county farm advisor warns that all seed should be inoculated with the proper strain of bacteria before soybean plants will manufacture most of their own nitrogen supply.

Some farmers believe that if soybeans have previously grown in a field there may be nodule bacteria in the soil. But often the strains present may not be those which are most efficient for the seed being planted. "Be sure, inoculate with the right bacteria and your seed supplier can tell you what to use," the county agent concluded.

## Spray Timing Important to Beetle Control

Timing of spray applications could be the most critical element in effective cereal leaf beetle control, contend Michigan State university entomologists, Marcus T. Wells and Orlo K. Jantz.

Their studies show that chemical sprays should be applied as soon as "heavy adult infestation is evident." In other words, they say, when a farmer can find a few beetle eggs on the leaves and stems of his grain, it's time to spray the field. This can occur anytime from mid-April to mid-May.

"If spraying is delayed until damage becomes evident, it's probably too late for effective control," comments Wells. But he urges all farmers to withhold spraying until they have carefully determined the extent of their fields' infestation and consulted with their county extension agent.

In their research, Wells and Jantz found that malathion and a limited number of other insecticides are effective for controlling cereal leaf beetles. Cereal leaf beetle control is strictly up to the farmers this year. Federal and state insect control agencies have no large-scale spray program planned for 1967.

ASSOCIATION OFFICERS--Former IFYE students have formed an association and recently elected officers for 1967. They are (left to right) Lewis Bordeaux of Wakefield, treasurer; Larry Gould of Mornci, vice president; Eleanor Foreman of Webberville, secretary; and Lynn Munson of Howell, president. Presenting the president's peace pipe is Bob Harter of Carson City, past president.

## Several Ingham Residents Attend State IFYE Banquet

"Man must remove barriers and create ways for bringing about a balance between population and food supply," emphasized Dr. Arthur Mauck, professor of agricultural economics at Michigan State university. "Triple F should not stand for Food For Freedom, but for Food, Fertilizer and Family Planning," he further pointed out.

Dr. Mauck was speaking for the Michigan IFYE banquet recently in East Lansing. "Food for Thought" - with emphasis on world hunger, was the program theme.

Ben Westrate, Williamston, executive director of the 4-H Club Foundation of Michigan, was named honorary chairman of the IFYE Alumni association of Michigan for 1967. He succeeds Dr. Garland Wood, director of the Latin American Studies center at M.S.U., honorary chairman during 1966. Miss Eleanor Foreman of Webberville, was elected secretary of the alumni association for the coming year. She was a delegate to Australia in 1965.

Others attending from this area included: Ronald Droscha, 4692 Toles road, Mason, 1967 Michigan IFYE delegate to Ceylon; Mr. and Mrs. Willard Droscha, Ronald's parents; Mrs. Ben Westrate, Williamston; Mr. and Mrs. Erwin Beme, 2353 Hulett road, Okemos; Mr. and Mrs. Melvin Thompson, 2350 Kewanee way, Okemos, Michigan; and Mrs. Thompson was a delegate to Washington, D.C.

Turkey in 1953; Mrs. Coridon Webster and daughter, Corinne of Williamston; Mrs. Elmer Foreman, Webberville. IFYE - the International Farm Youth Exchange - is founded on the principle that understanding among people promotes mutual respect and furthers progress towards world peace.

Eighty-eight Michigan young people have visited 47 countries since the program started in 1948. During this same time over 450 Michigan families have hosted 175 young people from 37 different countries.

This annual banquet is sponsored by the IFYE Alumni Association of Michigan.

The IFYE program is conducted through cooperation of the Cooperative Extension service, the 4-H Club Foundation of Michigan and the National 4-H Club Foundation in Washington, D.C.

## Education Helped Free State of Swine Cholera

Hog cholera eradication in Michigan required a cooperative job of swine producers, state and federal enforcement agencies, and a continuous and effective educational program.

Announcement recently that Michigan was the first major hog producing state to be cholera-free brought satisfaction to staff members of the Michigan Cooperative Extension service at Michigan State university. Swine and veterinary specialists, along with county agricultural agents, have waged a long educational program to achieve this goal of eradication.

"It took the right laws and enforcement by the federal and state animal disease control agencies in the beginning. But the backing by the major swine producers on the farms in Michigan was the key to success," said Edward Miller, MSU swine extension specialist.

Michigan Animal Health group, organized several years ago through cooperation of enforcement and educational agencies, helped achieve these goals. Hundreds of educational meetings were sponsored by the MSU Extension service.

The MSU extension authority explained that constant vigil must be maintained to keep the disease from coming in from infected states adjoining Michigan.

Michigan became the 7th state to be cholera-free. The others are small producers of swine--Vermont, Nevada, Utah, Montana, Alaska and Idaho.

## Farm Views And News

By R. C. LOTT

Over-state evaluation of corn plant populations continue to show that a population of 16-18,000 plants per acre is optimum for most corn production situations in Michigan.

In 122 out of 161 experiments, a population of about 16,000 yielded significantly more (15 percent) than a 12,000 population. In only 5 trials of 161 overstate comparisons between 1948-1965 has the 16,000 population yield been significantly less than 12,000.

Populations of 20,000 plants had a higher yield in 27 of the 135 comparisons and the average increase was only 3 percent above the 16,000 population. Only 3 of 63 trials showed a yield increase for the 24,000 population and none of these were significant at odds of 19:1.

The average yield at 24,000 was 9 percent lower than at 20,000 plants per acre. If the average ear weight per harvested plant (including barren stalks) is 0.4 to 0.5 of a pound at 15.5 percent moisture, the plant population has been about optimum for the prevailing conditions.

White plant population can be too low, it can also be too high, resulting in lower yields because:

1. Moisture is frequently a limiting factor.
2. Barrenness increases at high populations.
3. Fertilizer needs to be increased.
4. Lodging frequently increases with increased population resulting in higher harvest losses.
5. Grain-fodder ratio decreases with increased population.

If soil moisture is deficient, plant populations of 20,000 or above may actually yield less than at a 16-18,000 population.

Considering all factors and test results the following plant populations per acre are suggested for the conditions listed:

For second class corn soils 12-14,000 plants  
For first class corn soils 16-18,000 plants  
For productive organic soils 18,000 plants

In getting the desired plant population, start with a seed population 10 percent higher when planting after May 15 and 15 to 20 percent higher when planting early. Imperfect germination, insects, diseases and cultivator damage account for about 10 percent average seed mortality.

Seed spacing in the row to get a desired plant population under average conditions.

Desired plant population to get the desired per acre

Desired plant population per acre	Kernels needed per acre	Approximate kernel spacing in the row (inches) to obtain the desired plant population at various row widths in inches
12,000	13,200	30 36 40
14,000	15,400	15.8 13.2 11.9
16,000	17,600	13.6 11.3 10.2
18,000	19,800	11.9 9.9 8.9
20,000	22,000	10.6 8.8 7.9
22,000	24,000	9.5 7.9 7.1
		8.6 7.2 6.5

## This Is Arbor Week

Arbor Week instead of Arbor Days is being observed this week in Michigan.

Sterling Morton, a newspaper reporter, organized the first tree planting session in 1847. He went west as a homesteader and had the first Arbor Day proclaimed in 1872. The idea was to plant seedlings to replace forests being hacked down to feed sawmills.

Until 1965, upper and lower peninsulas in Michigan had separate Arbor Days. Arbor Day was changed to Arbor Week last year so that the entire state of Michigan could plant trees together.

Frank Light, chairman of the Michigan ASC State committee, said the agricultural conservation program has played an important part since 1936 in Arbor Days and Ar-

bor Weeks by cost-sharing with farmers for tree and shrub plantings.

The ACP is the oldest of farm programs and shares with farmers, the cost of carrying out soil, water, woodland, and wildlife practices on farmland. Over 7,000 acres of trees and shrubs were planted under the program in Michigan last year. Four and one-quarter million acres have been planted in the United States since the program started in 1936. This includes 175,000 acres planted in Michigan.

INFORMATIVE TOUR--Several area farmers were visitors recently at the Mooman's Manufacturing company in Quincy, Illinois. They toured the research plant, laboratory and farm facilities. Attending were (front row, left) Phillip Hall, Russell Roe, Coe Emens, III, Dale Brown, (back row) Bill Pfaff, sales representative, Joe Stid, Ramon Waltz, Dick Cheney and Mahlon Covert.

## MAP Sets Farmers Are Switching Congress To Narrower Corn Rows

A unique array of prominent speakers expected to make news will address the 3500-member Michigan Association of the Professions (MAP) at its 8th annual congress April 28 and 29 in the Statler Hilton hotel, Detroit.

The Michigan association represents the thinking of more than 3200 members of the professions. The Congress slogan will be "Supervision, Security, Survival."

The professions represented are Law, Medicine, Engineering, Architecture, Accountancy, Dentistry, Education, Pharmacy, and Veterinary Medicine.

The list of speakers for the Congress includes the national heads of 4 major professional organizations: Charles L. Hudson, M.D., of Cleveland, president of the American Medical Association; Braulio Alonso, of Tampa, Florida, president-elect of the National Education Association; Harry E. Furgesson, D.V.M., of Anaconda, Montana, president of the American Veterinary Medical Association; and Charles M. Nes, Jr., of Baltimore, president of the American Institute of Architects.

Michigan farmers who have switched from wide-row to narrow-row corn planting like the change.

Robert G. White, Extension agricultural engineer, surveyed Michigan farmers this winter and found that 43 of the 58 farmers reporting in the survey made more money

after going to narrow rows.

White reports that farmers who switched from wide-row corn to 20-inch rows averaged a 13 bushel per acre yield increase over their last year with wide rows and 17 bushels an acre over the average of the last 5 years of wide-row corn.

Those who switched to 30-inch rows averaged a 6 bushel per acre yield increase over their last year of wide rows.

Most Michigan farmers increased the plant population and fertility rate in going to narrow rows. The average increase was 2,400 more kernels of corn an acre.

Several farmers indicated that a dominant factor in the decision to switch to narrow rows was the fact that they also grew either edible dry beans or soybeans, or both. They made the switch for all spring planted crops at one time.

Forty-seven of the 58 farmers thought harvesting equipment currently available for narrow-row harvesting was adequate.

## To Mark Mental Health Week

National Mental Health Week will be observed at the Kalamazoo State hospital from May 1 to May 6. This year's theme will be "Treatment in Action."

Tours through the hospital will be conducted on Monday, Tuesday and Thursday from 1 p.m. to 3 p.m. Tours will begin at the Administration building.

On Wednesday, May 3 at 7:30 p.m. in the auditorium, there

will be a dramatization of "Treatment in Action". This performance is open to the public.

On Thursday, May 4 at 7:30 p.m. in the Tower theater, graduation exercises are planned for attendant nurses who have completed their in-service training. The guest speaker will be Ivan Estes, personnel director of the Michigan Department of Mental Health.

## Mason Girl Attends National 4-H Meet

Five Michigan 4-H members are in Washington, D.C., this week attending the 37th National 4-H conference, along with 225 other outstanding young people from across the nation.

The trip to the nation's capital is considered one of Michigan's highest 4-H honors. The delegates are Miss Gloria Brown, 17, daughter of Mr. and Mrs. Charles Brown of Mason, Ingham county; Miss Susan Roubush, 16, Iron River in Iron county; Miss Valerie Dorsey, 16, Detroit, Wayne county; John Kinney, 17, Concord, Calhoun county; and James Andrews, 17, Fremont, Newaygo county.

Delegates were selected at the State 4-H show in East Lansing last August. They represent outstanding personal development and achievement in community service, leadership and citizenship.

The conference is giving emphasis to the executive, legislative, and judicial processes in government, important issues facing the American people and individual citizenship responsibilities and opportunities.

A "4-H Breakfast with Congress" was held at the Statler-Hilton Hotel. Michigan senators and representatives were guests.

The delegates will visit the White House as guests of Mrs. Lyndon B. Johnson. Later they will be guests of Secretary and Mrs. Orville L. Freeman at a reception. They have also visited historical points of interest during the week.

The delegates return to Michigan on Saturday. J. Ray Gillespie, program leader for 4-H Youth Programs at Michigan State University, attended with the delegation.

## DINNER DELAYED?

### Set The Dial Relax A While!

Hubby late? Relax and let the day's pressures melt away... no need to panic about a delayed meal—not with a modern, fully-automatic gas range in your kitchen! You see, the new gas ranges have a "keep-warm" oven feature that keeps meats hot and juicy—holds complete meals table-ready for hours without drying out.

In the new gas ranges, you'll find the same wonderful flame that's always been a favorite with famous French chefs, but my, how the rest has changed! Today's sleek, modern gas ranges have automatic features every good cook dreams of... from the burner-with-a-brain, to automatic rotisseries, to the miracle speed of infrared broiling!

**OUTSTANDING NEW FEATURES SAME WONDERFUL FLAME!**

**See Your Gas Range Dealer!**

## MICHIGAN CERTIFIED SOYBEAN SEED SAVES

Don't risk lower crop yields and quality by using poor seed. Plant quality Michigan Certified Soybean Seed to be sure of getting better yields, better quality and better profits.

Each BLUE TAGGED bag of Chippewa 64, Harosoy 63 and Lindarin 63 soybean seed will give you "Certified Savings." All are yellow seeded varieties, high in oil. BLUE TAGGED soybean seed is the best maturing and highest yielding for Michigan.

Michigan Certified BLUE TAG Seed has been field inspected and lab tested for highest germination, vigor of growth, and lowest incidence of weeds and disease. The BLUE TAG is your assurance that you're getting quality seed.

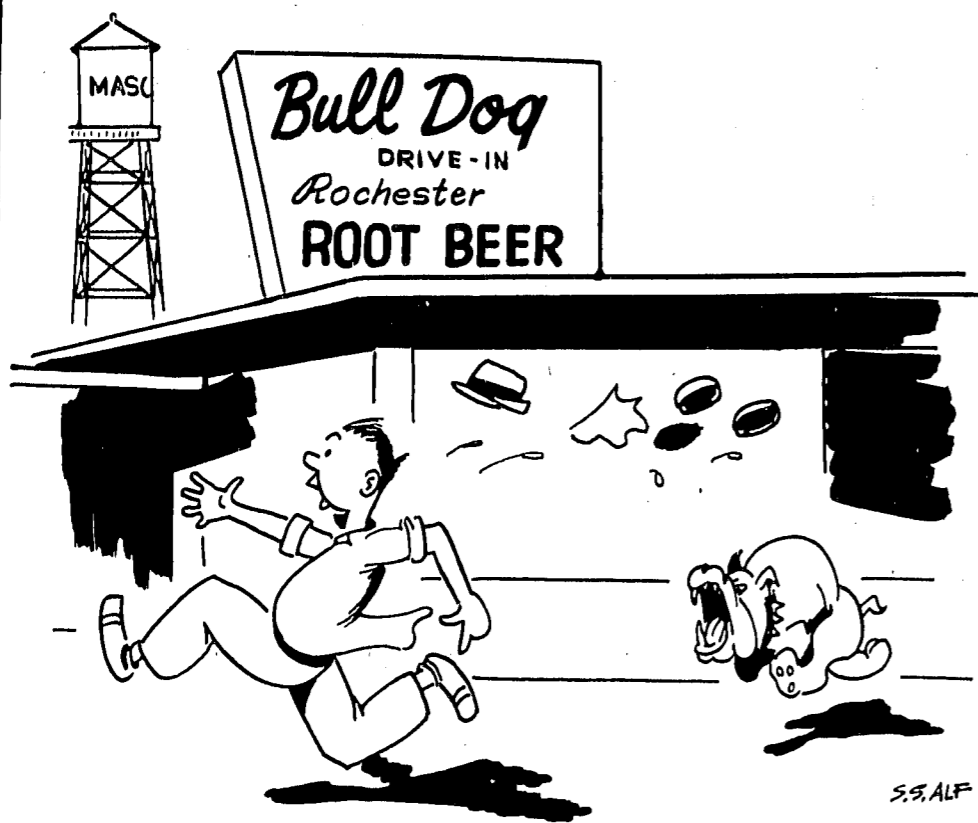

Save time, trouble and money. Ask your dealer about the BLUE TAG variety best adapted to your area.

Order Your Michigan Certified Seed from:

# OUTDOORS WITH GORDIE

by GORDON CHARLES

Michigan has a new but nameless fish. Giving it a name should be a real ball.

It happened last fall when an imaginative fish biologist got to wondering what would happen if he should cross a coho salmon with a fall-spawning rainbow trout. The end result now finds about 2,000 frisky hybrids swishing around in the waters of the Harrietta hatchery.

Most of these half-bred fish species never do amount to much since they usually turn out to be sterile and the species dies a natural death. There are exceptions, of course, such as the speckled trout and lake trout cross which is now established in a number of Michigan lakes under the name of splake trout.

Rainbow trout are members of the salmon family, which makes this kind of cross possible, but beyond that nobody knows what else might come of it. The new breed of fish do appear to be exceptionally wild little critters, which is a good quality. Most times, though, crossing 2 similar species results in an offspring with the worst qualities of both parents.

Ideally, a coho - rainbow cross would create a fish that grows a pound a month like the coho salmon did when first planted, yet would not die after spawning, which is what happens to Pacific salmon. This probably won't happen, however.

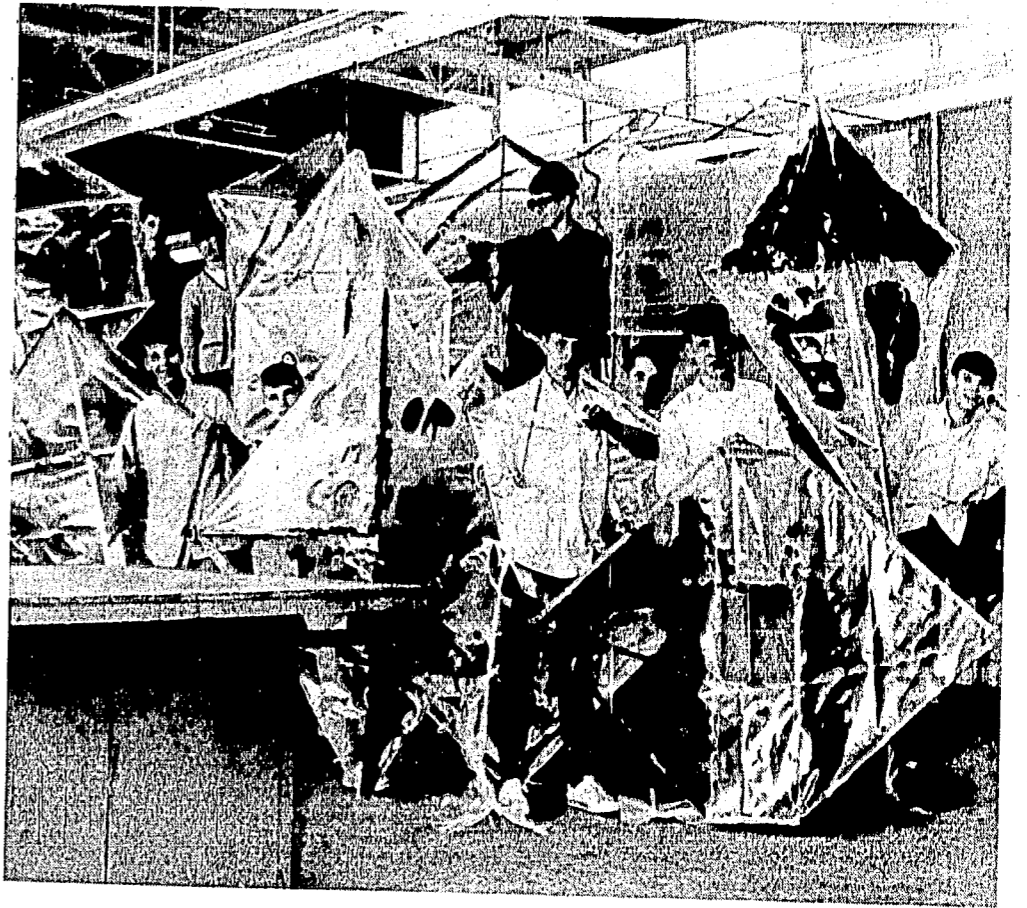

Should this hybrid take hold, though, what would you call a coho - rainbow mixture? "Cobow" seems logical but it might cause a lot of confusion. We imagine some people might figure with a name like that they were only native to Detroit and had a hall named after them.

One fellow suggested using portions of the coho-steelhead combination and calling the fish "coheads." We are sure this would cause a lot of misunderstanding in a lot of happy homes. What would your wife's reaction be if you told her you were going to spend the weekend chasing coheads? She might think you said "coeds." "Hobow" is another possibility but it suggests a worth-

less bum of a fish. Might be a good idea to just wait a while to see what happens to those 2,000 hybrids at Harrietta. Maybe they will all die and that will be the end of the problem.

Speaking of coho salmon, fisheries men were surprised to find some of these fish still hanging around this spring in the headwaters of a couple of the streams where they migrated last fall. These early migrants were supposed to have run upstream to spawn and die.

Possibly the change from old salt - water habitat to a new fresh - water environment confused them. They got the spawning urge alright and ran upstream the way they were supposed to do. Only thing, once there they seemed to have forgotten why they ran upstream in the first place. Maybe they should be breeding fish with a better memory?

KITES FOR PROFIT--Williamston Vocational Agriculture boys are engaged in the project of making kites for profit or pleasure. Some of them find sale for their finished articles. A group of some of the 40 kites finished under the direction of instructor Chilson.

## Western Michigan Degrees Awarded to 7 from County

Agnes de Mille, famed dancer, author and choreographer, presented the commencement address at Western Michigan university on April 15 in Read Field house.

More than 1,400 diplomas were awarded during the ceremonies, including 189 master's degrees. Participating in the ceremonies were 7 graduates from Ingham county. Also during the program Miss de-

Mille received an honorary doctor of fine arts degree. She is the niece of motion picture director Cecil B. de Mille and a cum laude graduate of the University of California. She is best known for her choreography in such Broadway productions as "Oklahoma," "Carousel," "Brigadoon," and "Gentlemen Prefer Blondes."

Those from Ingham county included: Sue Ann Boughner, 528 W. Ash, Mason, bachelor of arts with secondary provisional certificate; Janice R. Sheathelm, 3230 M-36 Dansville, bachelor of science with elementary provisional certificate; Jeffrey Alan Amundsen, East Lansing, bachelor of science degree; Rebecca Grad Beeson, Lansing, bachelor of science; Nancy Ellen Cook, Lansing, bachelor of arts; Larry Dean Frey, Lansing, bachelor of business administration; Clifford Einar Olstrom, Okemos, bachelor of science.

## Dramatic Play Is Booked for East Lansing

Karl Wittlinger's dramatic play, "Do You Know the Milky Way?" will be presented by The Bishop's Company, of Burbank, California, at University Methodist church, East Lansing, on Tuesday, May 2, at 8 P.M.

The play has been performed before more than 9,000 audiences around the world and translated into 9 languages. The German-born author has described his play as being a tragic-comedy. It depicts the powerfully revealing struggle of a man to find his true identity. He is unashamed to admit to such feelings as faith and fear and to learn the potentials of both.

The plot concerns a returning war veteran, a patient in a psychiatric hospital, where he attempts to prove himself sane.

The Bishop's company, a touring troupe of professional actors, was founded in 1952 and is in its 15th year of bringing drama into houses of worship, colleges, universities, military bases and prisons in America and Canada.

The local performance is sponsored by the Methodist Men and the commission on Christian social concerns of University Methodist church, as a benefit for the MSU STEP program at Rust College, Holly, Mississippi.

Tickets may be ordered through the church office, 1118 South Harrison road, East Lansing, and also will be available at the door.

## Poetry Club Has Workshop

"Poets Old and New" was the topic of a paper prepared and delivered by Mrs. Elma Hodges at the Lansing Poetry club workshop on April 13. This workshop meeting was at the home of Mrs. Ula Curdy, 132 Glenrose, The Poetry club meets for a workshop once a month and at this time study one particular aspect of poetry and its application to their own work.

The regular monthly meeting of the Lansing Poetry club will be on April 17 in the Blue Room at the Woman's Clubhouse in Lansing. "Russian Poetry" will be the subject of this meeting and the guest speaker will be Miss Gretchen Doelle.

## Asparagus Prices Set

Alton Wendzel, of Water-vliet, asparagus marketing committee chairman of the Michigan Agricultural Cooperative Marketing association, has announced that a base price of 19-1/2 cents per pound is being asked from processors for this year's asparagus crop. This is approximately 2-1/2 cents a pound more than was paid in 1966 for the 90 to 95 percent grade.

The Asparagus Marketing committee evaluated all available current and past market data in arriving at the "reasonable market price" of 19-1/2 cents, Wendzel reported. The announced price schedule also provides for an incentive bonus to those producers who deliver superior quality asparagus grading 96 to 100 percent. Asparagus which is grades 85 to 89 percent will sell for 17-1/2 cents a pound. Association members preferred processors have been offered sale contracts at these prices.

In arriving at the announced price, the committee took into consideration several strong market factors including lower stocks of cut asparagus, indications that the wholesale market price for canned asparagus -- which is up \$1.00 per case from a year ago -- will be further improved later this season, and the fact that the national acreage of asparagus dropped 4,000 acres from 1965 to 1966 with a forecast of another 1,000 acre drop in 1967.

## Hitch a ride with Simplicity

New Landlord® 2012 is the most powerful tractor in Simplicity history. Synchron-balanced engine drastically reduces vibration for comfort and efficiency. Landlord® 2010 is a slightly less powerful version of the 2012 tractor. Like the 2012, it has Floating-Traction tires and attachments that allow it to handle more than 20 jobs with ease.  
New Broadmoor® 707 tractor packs new 7 hp adding more vigor to its all-season utility. Mowing, snow removal and odd jobs around the house come easy with easy-on attachments.  
Wander-Boy® 606 is more than a mower. This 6 hp wonder works all year 'round while you sit in foam-cushioned comfort. Attachments change in seconds without you touching a tool.  
Wander-Boy® 404 puts 4 hp in a compact, maneuverable package — stores easily in cramped quarters. Features 24-in. rotary mower with free-floating mount. Compact price, too!  
Come on in and we'll help you choose. We've got a "yard stick" for measuring your Simplicity need.

## ANNOUNCEMENTS

### 1-Card of thanks

To all neighbors, friends and any who so kindly helped during the death of our husband and father, Emmor Rozell, we express our deepest gratitude. A special thanks is due to Rev. William Nethery for his comforting service; to Berl and Maxine Fields for their wonderful help; to Mrs. Victor (Florence) Mochmar and Mrs. Mel (Frances) Laning for the lunch after the funeral. The many cards and beautiful flowers were very much appreciated.

Mrs. Marie Rozell, Mr. Douglas Rozell, Mr. and Mrs. Charles LeSeney 1-18w1c

WE wish to thank our children and grandchildren for the lovely anniversary party. Relatives and friends who assisted in anyway. Special thanks to Mason Rebekah Lodge, W.S.C.S., Miriam Circle, relatives and friends for the gifts, money, flowers and cards. Your kindness will always be remembered. May God Bless each one of you. Mr. and Mrs. Jay Coffey 1-17w1p

### 2-In Memorium

VICKERS, in loving memory of our Father, Son and Brother Donald R. Vickers who passed away seven years ago April 30th, 1960.

Mr. and Mrs. Rodney Vickers  
Mr. and Mrs. Dale Cole  
Mom and Dad  
Mr. and Mrs. Al Weise 2-17w1p

The hard-to-get-at spots in your percolator are easily reached with pipe cleaners. In fact they can clean many other items such as the sewing machine, family typewriter, model railroad equipment, slot car racing equipment and tracks, costume or fine jewelry and are ideal if you want to clean under the telephone dial.

Colored pipe cleaners are ideal for identification.

When something spills or cooks over in your oven just sprinkle salt immediately. When the oven is cool, use your pancake turner to pick up the pile of burned on food. Wipe clean with a damp sponge.

Turpentine or paint thinner can be used for removing freshly spattered paint from clothing or other porous surfaces, but it will not work on oil-base paint which is already dry. A solvent that will work in most cases is a water-rinsable, liquid brush cleaner. Produced by several manufacturers, these reusable liquid cleaners soften dried oil paint and make it water soluble.

"For top lawn care... use a **BOLENS ORBIT-AIR!**"

In one easy operation, BOLENS Orbit-Air mows, cleans and mulches your lawn. Multi-pitched, "gull-wing" blade lifts grass and leaves into orbit chamber and mulched clippings disappear. Ends raking, sweeping, grass catching.

**Exclusive safety features:** fully enclosed blade lessens danger of objects being thrown • protective hood hugs ground, overlaps mower base by four inches • seven-position "flip-stick" height adjustment on each wheel • front axle drive • quick-flush cleaning via hose coupling. Choose 22-inch self-propelled or push type.

See your BOLENS dealer today. Ask for specifications catalog. Remember, you expect more from BOLENS... and it's all standard!
